Additional particulars officially supplied:—A Report has recently been made on the property by S. F. G. White, A.I.M.M., in which he states that three well defined quartz reefs have been located averaging 1oz. 7dwts. 23 grns. to the ton, and he sums up his report as follows—"In order to bring the importance of a careful review as vividly as possible before the reader of the foregoing report, I deem it necessary to lay due stress on the following facts—(1) That your concession has long been known by the natives as the richest in Quahu; (2) That it was selected by your engineers as the pick of the whole country, after months of careful study by a large expedition; (3) That you are (by reason of your past exploration, and by reason of the equipment now on the concession), at least two years ahead of any other company in the field; (4) You have everything necessary; (5) You can, should you deem it necessary, be winning gold within six months. I advise sinking of a vertical main shaft on Russell's Reef, and the employment of a diamond drill to explore ahead of your mining operations."

RESULTS FROM SOUTH AFRICA:

"A Butters machine of 500 tons capacity has been started at the Crown Mines, with the result that the residue, containing 0·22 dwt. per ton, has been reduced by 50 per cent. . . . . In consequence of the good showing made at the Crown Mines it has been decided to instal a vacuum filter plant of 1,000 tons capacity per day at the Robinson, and another at the New Modderfontein, which means that the splendid decantation plants at these mines will be discarded."

THE MINING MAGAZINE, October, 1910.

The **BUTTERS FILTER PLANT** is always designed specially to suit the character of the slime and other requirements, because experience has taught that no standard type of slime filter machine can be made to meet the widely varied conditions found at different mines. Our staff of **specialists** who are well known to have had a **world-wide experience** in slime filtration, **design** each plant as ordered.

This company was registered in the Transvaal in April, 1894, and is a reconstruction of the Kleinfontein Estate and Gold Mining Co., Ltd. (*see vol. for* 1895). Including 92 dip claims purchased in 1895 from the Benoni Claim Synd., for 60,000 fully-paid shares, the property comprised 151 claims on the farms Kleinfontein and Benoni, Eastern Witwatersrand. In April, 1902, the undertaking of the Kleinfontein Central Gold Mines, Ltd. (registered September, 1895, *see vol. for* 1903), was purchased for 225,000 fully-paid shares; its property comprised 163 claims. In 1903, 20 south-western claims were exchanged for seven claims on the east and 16,295 shares of the Kleinfontein Deep, Ltd. (since sold). In January, 1910, 47 claims and two water rights were acquired from the Orient Synd., Ltd., for 70,000 fully-paid shares. The company now owns 334 claims, and water rights on farms Benoni and Kleinfontein, west of Modderfontein and Geduld, East Rand, Transvaal, of which 53·4 claims had been worked out at March 23rd, 1910.

NEW KLEINFONTEIN—continued.

Crushing commenced in May, 1894; a new mill of 140 stamps was afterwards erected. Operations were suspended in October, 1899, owing to the war; in December, 1900, the Boers destroyed the entire mill, crusher station, &c. A new mill of 220 stamps and cyanide and slimes works are now erected; crushing was resumed in October, 1904; the capacity of the plant is being extended to 50,000 tons monthly. During 1909, 454,945 tons yielded gold value £668,497; profit £296,492, or 13s. per ton, an increase of 11d. per ton over 1908; costs 16s. per ton, a reduction of 1s. 9d. per ton over 1908. During 1910 466,882 tons yielded £654,252; estimated profit £280,306. This company was registered March 3rd, 1906, being a fifth reconstruction of the New Lisbon-Berlyn (Transvaal) Gold Fields, Ltd., which was registered in 1885 to acquire the properties of the Lisbon-Berlyn (Transvaal) Gold Fields, Ltd. (registered 1883); the first reconstruction was in 1888, the second in 1889, the third in 1892, and fourth in July, 1902 (*see vol. for* 1906).

The company now owns three farms, situate at Pilgrim's Rest, in the Lydenburg district of the Transvaal, and known as Lisbon, 7,361 acres, Berlyn, 12,534 acres, and Frankfort, 7,024 acres, making a total area of 26,919 acres. The Farm Frankfort was proclaimed open for pegging in September, 1907, and 163 claims have been pegged, also mynpacht and werf.

On the Frankfort Mine crushing commenced in 1892, and in January, 1896, the dry crushing process was introduced, also plant for direct cyanide treatment. The plant has since been re-arranged, and wet crushing was resumed with 15 stamps in February, 1904; the dry mill started in June, 1904; in August, 1905, the mill was shut down owing to depletion of ore reserves and scarcity of water for power. Ore reserves at August, 1908, 46,766 tons. A new reduction process has been introduced and crushing with 20-stamps and tube mill commenced August, 1910. A cyanide plant is erected. Estimated ore reserves at November, 1909, 6,240 tons, value 13·5 dwts. For crushings *see table at commencement of volume.*

The authorised capital is £156,250, in 1,250,000 shares of 2s. 6d. each; 925,007 shares (£115,625 17s. 6d.) are issued and fully paid. THIS company was registered in the Transvaal in 1888 as the Modderfontein Gold Mining Co., Ltd., to acquire the mynpacht of the farm Modderfontein No. 112 (now No. 167) area about 2,500 acres freehold, Main Reef, Eastern Witwatersrand district, Transvaal. The consideration was £160,000 in fully-paid shares. In 1894 the company was reconstructed, and in 1895 again reconstructed with its present title. In 1897 the company acquired two claims at a cost of £2,635. The company has since had to settle several disputes involving the ownership of 169 claims on the farm, by payment of about £120,000 cash and 1,100 fully-paid shares. During April, 1910, the company acquired from the Government the mining rights under two of the water-rights Nos. 456 and 457 (equal to 47 reefs bearing claims) the Government to receive 4·6 per cent. of the net annual production of the company in addition to ordinary profits tax. The company now owns the freehold of the mynpacht about 172·8 claims, also 1,061 prospectors' and diggers' claims, three water-rights with mining rights (equal to 47 claims) under two (leased from the Government as above), and the freehold of a portion of the farm Modderfontein No. 167, in extent 1,200 morgen. At June, 1910, 1,207 claims remained intact. Arrangements have been made with the Rand Mines Power Supply Co., Ltd., for the supply of electric power. A vertical shaft is to be sunk midway between the eastern and western boundaries so as to strike the reef at about 2,000 feet; by this means the lower portion of the mine will be opened up, and it is estimated that by June, 1913, the ore reserves will be about 8 500,000 tons

Crushing commenced in 1892, with 10 stamps; from October, 1893, 20 stamps were working until March, 1894. The property was afterwards developed on a larger scale, and a new 60-stamp mill and cyanide plant started in May, 1896. There are now 180 stamps, 5 tube mills and a slimes plant at work, 60-stamps and two tube mills being added in 1909, bringing the crushing capacity to 45,000 tons per month; another tube mill has been added as a reserve. Additions are being made to plant (including the installation of a Butters Vacuum Filter), bringing the capacity up to 52,500 tons monthly, and if developments justify a new battery with a capacity of 39,000 tons is to be erected in close proximity to the new vertical shaft. After the war, crushing was resumed in August, 1903. During 1908-9, 352,816 tons yielded £588,140; working profit £239,478 or 13s. 6·9d. per ton. During 1909-10, 523,950 tons yielded £695,411; working profit £279,865 or 10s. 8d. per ton. For crushings *see table at commencement of volume.* Ore reserves at June 30th, 1909, 1,561,434 tons, value 6·03dwts. per ton, also 532 239 tons, value 3·75dwts. per ton; at June 30th, 1910, 2,581,744 tons, value 7·1dwts. per ton, also 794,309 tons, value 3·2dwts. per ton.

Estimated life, treating 1,000,000 tons annually, 25 years from January, 1911.

The authorised capital is £1,400,000, in 350,000 shares of £4 each; all the shares are issued and fully paid. Under the reconstruction in 1895 the capital was increased from £200,000 in £1 shares to £1,000,000 in £4 shares, 200,000 shares being allotted in exchange for the old shares and 25,000 issued to

shareholders at £12 each. In 1896, 11,305 shares were offered to shareholders at £6 10s. each, the guarantors receiving an option over 8,595 shares at £7 10s. for twelve months. In February, 1898, an option was given on the remaining 12,595 reserve shares at par (£4) for eighteen months, and this was exercised; the option was given as consideration for a loan up to £100,000. In March, 1902, the capital was increased to £1,200,000, 40,000 shares being offered to shareholders at £10 each; the guarantors of 20,000 shares received an option for six months on all shares not taken up at £10 each; the remaining 10,000 shares were sold in 1904-5 at £10 15s. each. The capital was increased to present amount in April, 1910, and 50,000 shares offered to shareholders at £11 each, the issue being guaranteed by H. Eckstein & Co. for a commission of 5 per cent.

Dividends declared (paid about seven weeks after): For 1906-7, 8¾ per cent.; 1907-8, 12½ per cent.; 1908-9, 15 per cent.; 1909 10, 12½ per cent. (5 per cent. December 15th, 1909, and 7½ per cent. June 14th, 1910); 1910-11 10 per cent. (interim) Dec. 13th.

The accounts for year to June, 30th, 1909, submitted in Johannesburg September 8th, 1909, showed gold receipts £588,140 and a profit of £239,478, making with balance forward and sundry revenue a sum of £320,128; dividends absorbed £180,000, tax, &c., £20,151, leaving £119,977 which was re-invested in undertaking.

The accounts to June 30th, 1910, submitted in Johannesburg September 14th, 1910, showed gold receipts £695,411 and a profit of £279,865, making with sundry revenue a sum of £286,837; dividends absorbed £165,000, tax £26,603, expended on capital account £53,194, sundry expenses £557, leaving £11,483 carried forward; share premium account £640,021.

Duplicate share registers are kept in London and Johannesburg. Transfer form, common; fee, 2s. 6d. per transfer of 100 shares or part. Share warrants to bearer may be had for 1, 5, and 25 shares; fee, not exceeding 5 shares 1s. and beyond 5 shares 2s. 6d. per 100 or part, also 1s. per warrant; fee for reconverting into registered shares, 5s. per 100, with 1s. for each new certificate. THIS company was registered in the Transvaal in 1887, to acquire 12 claims on the Main Reef, Elandsfontein No. 1, about 6½ miles east of Johannesburg, also dip claims adjoining. In 1889 the company was reconstructed. In 1891 the property of the South Primrose Co., 27 claims, with water right and machinery, was acquired for 9,000 shares, and in 1893 the property (27 Main Reef claims and new 50-stamp mill) of the New Moss Rose Co., for 43,636 shares. The Moss Rose Extension property of 40 claims, with 20-stamp mill, was also acquired for 650 shares. In 1894 the adjoining property of the May Deep Level Co., 25 claims and 30-stamp mill, was purchased for 18,750 New Primrose shares, or their equivalent in cash at £4 per share, and a sum of £32,000 to extinguish the May Deep Co.'s liabilities. During 1907, an exchange of ground on the southern boundary was made with the Rose Deep, Ltd. Early in 1909, two detached claims were sold to Simmer and Jack Proprietary Mines, Ltd., for £3,500. The company now owns 156 claims

THIS company was registered in the Transvaal in January, 1892, to acquire the property of the Du Preez Gold Mining and Estate Co., Ltd., consisting of the Du Preez farm, of about 4,000 acres, and also the mynpacht of Muller's portion of the farm Rietfontein, situate on the Rietfontein Reef, north of the Main Reef series, about 8 miles north-east of Johannesburg, Witwatersrand. In July, 1892, the company was reconstructed. In 1895 the company purchased the adjoining New Rietfontein Deep Level property consisting of 164 claims, for 20,000 fully-paid shares, and also the South Rietfontein property consisting of 101 claims, for 30,000 fully-paid shares. In 1896, 304 claims were sold to the Rietfontein A, Ltd., a number of claims being acquired for this purpose from the Rietfontein Deep, Ltd., and the East Rietfontein Gold Mining Synd., the consideration received was £150,000 in fully-paid Rietfontein A shares, the company agreeing to subscribe for 18,186 shares at £3 each. In June, 1902, 217 claims were sold to the Rietfontein B, Ltd.; the consideration was £150,000 in fully-paid Rietfontein B shares, the company agreeing to subscribe for 125,000 shares at £2 each. In March, 1905, the entire undertakings of the Rietfontein A and Rietfontein B companies (*see vol. for* 1905) were acquired, as below. In 1906, an additional 10 claims were pegged.

The company now owns 684 claims (565 reef-bearing), 60 Vergunning claims, also the freehold of the proclaimed portion of farm Rietfontein, No. 145, Heidelberg district, 4,193 acres in extent, 45 morgen freehold on farm Witkopje, No. 157, and three mining stands and two water rights.

The present company commenced crushing in February, 1892, with 20 stamps, and 30 were added in September, 1893, making 50. A 120-stamp mill, three tube mills and slime plant are now at work. The tube mills started work May, 1909. During sixteen months ending December, 1909, 302,136 tons yielded £493,660; profit £125,076 or 7·9s. per ton; during 1910, 190,452 tons yielded £276,483; estimated profit £16,836. For crushings *see table at commencement of volume*. Payable ore reserves at August, 1908, 400,817 tons; December, 1909, 295,876 tons.

in the upper levels, and, indeed, later developments below the tenth and eleventh levels at No. 2 South Incline, and at the plane of the eleventh level in the No. 1 South Incline, rather tend to confirm this theory. Unfortunately, however, below the tenth level there occurs a large strike fault which has thrown down the reef series to the south a distance of about 60ft., and although the reef has been proved beyond this fault, owing to the displacement its exploitation will be slow, so that no help in raising the grade by this means can be expected for some considerable time. As regards the ore reserve, this tonnage is considerably below the figure previously reported, which is due, firstly, to the omission of many blocks, which from mine sampling appeared to be payable, but which, as the result of stoping, have proved to be too poor to work, and, secondly, to the entire exclusion of the Carbon Leader. This reef, which is situated from 3 to 10ft. above the pay reef, often gives high values over the reef width. In most cases, however, we find that it cannot be worked without breaking a large quantity of waste rock, which brings down its value, as a rule, below the stoping limit of payability. In consequence of this, although it is quite possible that in the future we shall obtain a considerable tonnage from the Carbon Leader, I have deemed it advisable entirely to exclude it from the statement of ore reserve.

The authorised capital is £625,000, in 625,000 shares of £1 each; 610,084 shares are issued and fully paid. The capital was formerly £160,000, and in July, 1893, 35,000 shares were sold to the Gold Fields of South Africa, Ltd., and A. Goerz (representing the Deutsche Bank), at £2 per share. In 1895 the capital was increased to £270,000 and 60,000 shares were sold to the Johannesburg Consolidated Investment Co., Ltd., at £3. In March, 1905, it was increased to present amount to acquire the Rietfontein A and B undertakings; the company's holdings (185,932 A and all the B capital) were cancelled and other shareholders received five fully-paid shares for every six Rietfontein A; a further 203,361 shares were offered to shareholders at 45s., the issue being guaranteed at 5 per cent. commission.

Dividends declared (paid about seven weeks after declaration) on former capital: 10 per cent. in January, and 15 per cent. in July, 1893; by Rietfontein A Co.: 22½ per cent. in 1898, 10 per cent. in 1902, 20 per cent. in 1903, and 17½ per cent. in 1904. Dividends on present capital: for 1905-6, 20 per cent.; 1906-7, 30 per cent.; 1907-8, 30 per cent.; 1908-9, 25 per cent. (15 per cent. December, 1908 and 10 per cent. June 21st, 1909.)

The accounts for year to August 31st, 1908, submitted in Johannesburg December 23rd, 1908, showed gold receipts £460,876, and a profit of £189,039, making with balance forward and sundry revenue a sum of £224,265; dividends absorbed £183,025, tax £15,217, sundries £2,359, leaving £23,663 carried forward; share premium account £104,186.

The accounts to December 31st, 1909, submitted in Johannesburg March 30th, 1910, showed gold receipts £493,670 and a profit of £125,075, making with balance forward, sundry revenue and £104,186 transferred from share premium account a sum of £261,293; dividends absorbed £152,521, depreciation £30,675, tax, water compromise, &c., £14,580, leaving £63,516 carried forward.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 shares or part. THIS company was registered July 11th, 1902, and is a reconstruction of the Rip Gold Mining Co., Ltd.

The Rip Gold Mining Co., Ltd. (*see vol. for* 1903), was registered January 18th, 1895, to acquire 90 claims on the farms Witpoortje and Luipaard's Vlei, about 16 miles west of Johannesburg, Transvaal. Part of the property, 48 claims, formerly belonged to the Fern Gold Mining Co., 19 claims were acquired from the Chouan Synd., and 23 claims are known as the Robinson Block. In 1896 the company purchased the adjoining property of the Big Block Gold Mining Co., Ltd., comprising 250 claims on the farm Luipaard's Vlei. In 1899, 52¾ claims and a water-right were sold to the Tudor Gold Mining Co., Ltd. A dry-crushing plant was working from February, 1896, until September, 1897, when crushing ceased. During 1897, 1,208 tons were crushed, yielding 202ozs. of gold, an average of 3·34dwt. per ton, and 25,032 tons of tailings were treated, yielding 11,393ozs. of gold, an average of 9·10dwt. per ton, making total 11,595oz. of gold,

NEW RIP GOLD—continued.

The extent of the property is now 282 prospecting claims on farm Luipaard's Vlei and adjoining the Lancaster West and Tudor Companies properties; boreholes have been sunk to locate position for new shafts, the main reef series being cut at 2,100ft. and 3,400ft. respectively. No work is being done at present.

The authorised capital is £400,000, in 400,000 shares of £1 each; 155,741 shares are issued and fully paid. Holders receive one fully-paid share for each old share. The accounts for year ended June 30th, 1910, submitted December 21st, 1910, showed cash resources £13,087, not including 1,772 Tudor shares held.

THIS company was registered in the Transvaal on November 1894, being a reconstruction of an English company of the same name (*see vol. for* 1894), and owns 25 claims (of which 17 are reef bearing) on the Main Reef, farm Doornfontein, No. 140, Witwatersrand, also two water rights and six machine stands.

From January to June, 1894, 50 stamps were working. The old 50-stamp mill has since been dismantled and 40 new heavy stamps and new cyanide plant started work in January, 1897. From January to April, 1899 (when crushing ceased), 17,562 tons were crushed, yielding 2,452ozs. of fine gold, an average of 3·241wt. per ton, and 2,044ozs. were obtained from concentrates, making 4,496ozs. of fine gold. The property is now let on tribute at five per cent. on gross value of gold won.

The authorised capital is £250,000, in 250,000 shares of £1 each; 150,140 shares have been issued and are fully paid. The capital was formerly £150,000, and for each fully-paid share in the old company holders were offered one new share credited with 10s. as paid, and as consideration for guaranteeing the issue of these (113,701) shares, Messrs. Barnato Bros. received 7,106 shares credited as fully paid. The capital was increased to its present amount on February 11th, 1897, 85,000 new shares being offered to shareholders *pro rata* at par; the Johannesburg Consolidated Investment Co., Ltd., received an option over the remaining 15,000 new shares at par for twelve months, and arranged to lend the company £85,000 for 12 months at 8 per cent. Of the 85,000 shares offered to shareholders only 140 were taken up; on the 18th May, 1898, the loan (then £90,000) was renewed.

The accounts for year ended December 31st, 1909, submitted in Johannesburg March 31st, 1910, showed profit and loss debit balance reduced from £74,190 to £70,298; sum owing to the Johannesburg Consolidated Investment Co., Ltd., £146,915.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per deed of 100 shares or part thereof. Warrants to bearer may be had for 1, 5, 10, 25, 50 or 100 shares, fee 6d. per share.

THIS company was registered in the Transvaal October, 1888, as the Steyn Estate and Gold Mining Co., Ltd., and in 1893 was reconstructed under the present title and registered in Pretoria in May, 1893. The original company acquired portions of the farms Doornkop and Vlakfontein, known as Steyn's Estate, Western Witwatersrand, for £88,000 in fully-paid shares and £20,000 in cash. In May, 1895, the company purchased about 400 adjoining claims for 10,000 fully-paid shares. In June, 1895, the Dilks Block was purchased for £3,000 cash. During 1910, 271 claims on the farm Roodepoort on the southern boundary of the Durban Roodepoort Deep were acquired from various holders. The property now owned comprises:—(*a*) On the farm Vlakfontein, 3,687 acres freehold, and 1350·49 claims containing the deep horizon of the Main Reef series, south of the various Roodepoort mines; (*b*) 273 claims on the farm Roodepoort on the dip of the Durban Roodepoort Deep and Roodepoort Central Deep; (*c*) on the farm Doornkop No. 46, 3,656 acres freehold and 808·4 claims; (*d*) 298 claims on Farm Vogelstruisfontein adjoining to the north-east; total claim area, 2,462 claims. (*For plan of property see page* 461.) The estate yields about £5,000 annual revenue by claim licences from other claim-holders on the company's freehold.

Shafts and boreholes are to be sunk on the Roodepoort and Vlakfontein claims which it is proposed to work as one large proposition; the Main Reef series is expected to be cut at depth of 3,500 to 4,000ft.

The authorised capital is £300,000, in 300,000 shares of £1 each; all the shares are issued and fully paid. The capital was formerly £140,000, and on reconstruction in 1893 shareholders received one new share for every six old. The reconstructors received 100,000 shares for £24,000 cash. In May, 1895, the capital was increased to £200,000, and 40,000 shares were sold at 31s. 6d. each; later in 1895 the capital was increased to present amount; 30,000 shares were issued in October, 1895, at £2 each, and 20,000 in June, 1896, at 30s. each.

For 1910, a dividend of 15 per cent. was paid May 23rd.

The accounts for year to December 31st, 1909, submitted in Johannesburg March 11th, 1910, showed a profit of £5,845, making with balance forward £39,225, which was carried forward; liquid assets in excess of liabilities £293,589.

The following additional particulars are from official reports:—

DISTANCE FROM THE OUTCROP AND PROBABLE DEPTH OF REEFS.—The distance of the northern boundary of the property from the outcrop of the reef varies from 5,000ft. to 6,000ft. Before the sinking of shafts is undertaken boreholes will probably be put down to test the exact depth.

Several deep-level shafts have been sunk on the Rand at 4,000 ft. and 4,500 ft. from which the ore bodies are being worked; while prominent engineers, who have studied the fields, give it as their opinion that it will be possible to work the Main Reef series down to 8,000ft. or 10,000ft. The depth of the reefs in the Steyn claims may therefore be regarded as a moderate one.

THE REEFS AND THEIR PROBABLE VALUE.—The Main Reef series, which underlies the claims, consist of the Main Reef, Main Reef Leader, and South Reef. The South Reef has up to the present been the chief gold producer of the district, and although only a thin body, varying from a few inches to 3ft. in thickness, is of very high value. The Main Reef in some of the adjoining mines has also yielded payable ore and is still being developed, notably in the Roodeport United, Durban Roodepoort, Durban Deep, and Roodepoort Central Deep. In computing the value of the claims, however, it is wiser to only take the South Reef into account, although the Main Reef may prove of importance in the future working of the mine. A

reliable indication of the value of the reefs can be obtained by examining the results obtained by the adjacent and overlying mines, viz.: the Durban Roodepoort, Roodepoort United, Princess, Durban Deep, and Roodepoort Central Deep, and from the evidence yielded by these producing mines the Steyn property on Vlakfontein may be regarded as constituting a valuable deep level of successful mines, and consequently should contain ore of a highly payable grade. The improvement in general economic conditions which has taken place should exert a very beneficial influence on its future prospects. The estimates of the value of the reefs in the Steyn claims, being based on the average outputs from five different mines over a lengthy period, and the treatment of over 2,000,000 tons of ore, should be of an exceptionally reliable character.

THIS company was registered in the Transvaal April 30th, 1891, as the Unified Main Reef Gold Mining Co., Ltd., to take over the properties of the Eagle and National companies. The Eagle Co. owned 455 acres freehold, on the south-west portion of Vierfontein No. 15, situated south of the farm Mooifontein, Southern Witwatersrand, and the National Co. owned 23 main reef claims west of Johannesburg, Witwatersrand. The purchase consideration was £24,285 for the National and £16,500 for the Eagle property, payable in shares. In January, 1892, the adjoining main reef property of the New Edinburgh Co., consisting of 18 claims, with a 20-stamp battery, was acquired for 45,000 fully-paid shares. The company was reconstructed and registered on April 17th, 1893, under the present title, by the Johannesburg Consolidated Investment Co., Ltd., the deep level claims adjoining the property being acquired at the same time for 40,000 shares. In July, 1895, the company was again reconstructed. The company now owns 107 claims, of which 84 are reef-bearing, situate on the farm Klein Paardekraal, Witwatersrand, adjoining the Consolidated Main Reef, Aurora West, and Main Reef West properties, also 12 claims north of the reef, acquired during 1909 for extending the slimes dam, 25 bewaarplatzen, 10 machine stands, and the Vierfontein property as above.

A 60-stamp mill was started in 1893 and stopped in 1894; crushing was resumed with 60-light stamps in November, 1898. A new heavy 60-stamp mill and cyanide and slimes plant are now erected; after the war crushing was resumed in May, 1903. During 1909, 119,622 tons yielded gold value £176,062, profit £45,372 or 7·5s. per ton. During 1910, 123,345 tons yielded £173,870; estimated profit, £34,710. Ore reserves at December, 1908, 235,919 tons; at December, 1909, 253,572 tons. For crushings *see table at commencement of volume*.

Estimated life, treating 122,000 per annum (not including main reef, owing to low values), 10 years from January, 1911.

The authorised capital is £270,000, in 270,000 shares of £1 each; 250,000 shares are issued and fully paid. Under the reconstruction in 1895 the capital was £150,000; 56,000 shares were allotted in exchange for the 140,000 old shares, being two for every five old, with the right to subscribe for 28,000 at par; the

guarantors subscribed for 28,500 at par, and had the option of taking up the remaining 37,500 at par; all were taken up. In March, 1902, the capital was increased to £270,000, 100,000 new shares being offered to shareholders at 30s. per share; the issue was guaranteed by the Johannesburg Consolidated Investment Co., Ltd., and Barnato Brothers, at 5 per cent. commission.

Dividends declared (paid about seven weeks after declaration). For 1908, 15 per cent.; 1909, 20 per cent. (12½ per cent. June 21st., and 7½ per cent. December 17th); 1910, 10 per cent. (5 per cent. June 22nd, and 5 per cent. December 19th).

The accounts to December 31st, 1908, submitted in Johannesburg March 31st, 1909, showed gold receipts £202,537 and a profit of £72,820, making with balance forward and sundry revenue a sum of £76,235; dividend absorbed £37,500, tax, etc. £5,055, depreciation £6,453, leaving £27,227 carried forward.

The accounts for year ended December 31st, 1909, submitted in Johannesburg March 30th, 1910, showed gold receipts £176,062, and a profit of £47,005, making with sundry revenue and balance forward a sum of £76,200; dividends absorbed £50,000, depreciation £7,533, tax, &c., £3,802, leaving £14,865 carried forward.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 shares or part. The 10th July, 1902, was appointed settling day in shares Nos. 1 to 250,000. This company was registered in Natal July 4th, 1888, to acquire the freehold farm Varkensfontein, 5,677 acres in extent, including mynpacht, consisting of 441 claims, in the Heidelberg district, South-East Witwatersrand, Transvaal. The consideration was 112,000 fully-paid shares. About 400 claims outside the mynpacht have been let to various parties. In 1895 the adjoining property of the Marais Nigel Co., consisting of 176 claims on the farms Varkensfontein and Bultfontein, was purchased for 19,300 fully-paid shares. In June, 1908, the property and plant of the Rand Nigel G. M. Co., comprising 103 claims, 20-stamp battery, &c., were acquired, also 72 claims adjoining, all situate on farm Bultfontein; the consideration was £8,654. During 1909, 36 claims adjoining the Rand Nigel property were acquired for £500.

Crushing commenced in July, 1888; in October, 1897, a new 25-stamp mill and cyanide works were started, and five stamps were added in February, 1898, 20 (and slimes plant) in 1899, five in 1905, and twenty in May, 1910, making 75 in all. A tube mill is also at work. After the war, crushing was resumed in September, 1902. During 1908-9, 126,200 tons yielded £209,757; profit £85,459; costs 20s. 2d. per ton. During 1909-10, 208,880 tons yielded £335,642; estimated profit £114,025. For crushings *see table at commencement of volume.* Ore reserves at June 30th, 1908, 214,073 tons over 8dwts. and 277,000 tons under 8dwts.; at June 30th, 1909, 203,951 tons over 7dwts. and 325,303 tons under 7dwts.

In February, 1910, it was announced that a sum of £1,000 would be deducted from the monthly profit commencing January, 1910, towards redemption of extraordinary capital expenditure (incurred in bringing the Rand Nigel section to a producing stage) which at that date amounted to £58,400.

The authorised capital is £224,000, in 224,000 shares of £1 each; 223,106 shares are issued and fully paid. The capital was increased from £160,000 to £200,000 in 1895, and 20,000 new shares were offered to shareholders at £6 each; in October, 1898, it was resolved to issue £60,000 bearer debentures and to increase the capital by the creation (as required) of new shares, holders having the right to convert their debentures into fully-paid shares at the rate of £2 10s. per share; all debentures remaining unconverted on Dec. 1st, 1899, were paid off.

Dividends declared (paid in London about six weeks after declaration): 5 per cent. in 1889; 47½ per cent. in 1892; 1893, 50 per cent.; 1894, 50 per cent.; 1895, 20 per cent.; 1899, 15 per cent.; 1903-4, 20 per cent.; 1904-5, 25 per cent. 1905-6, 35 per cent.; 1906-7, 30 per cent.; 1907-8, 30 per cent.; 1908 9, 30 per cent.; 1909-10, 30 per cent. (15 per cent December, 1909, and 15 per cent. June 10th, 1910).

The accounts for year ended June 30th, 1908, submitted in Pietermaritzburg August 27th, 1908, showed a profit of £92,255, making with balance forward a sum of £110,718; dividends absorbed £66,932, capital expenditure redemption £5,081, tax £5,500, written off depreciation £13,750, leaving £19,455 carried forward.

The accounts to June 30th, 1909, submitted in Pietermaritzburg August 19th, 1909, showed a profit of £85,459, making with balance forward a sum of £104,914; dividends absorbed £66,932, capital expenditure redemption £10,000, tax £ 6.910, forfeited dividends remitted £4, leaving £21,069 carried forward.

Next accounts to be made up to Dec. 31st, 1910, and submitted Feb, 1911.

THIS company was registered November 6th, 1905, to acquire from Nigeria Properties, Ltd., and Nigeria and West Africa Development Synd., Ltd., Government licences to prospect for bitumen, coal and petroleum over an area of 500 square miles, in the Lagos Colony, British West Africa. The licences expired October 15th, 1906, but under the New Mining Regulations (Oil) Ordinance, 1907, for Southern Nigeria, have been renewed until April, 1911. The company has the right under this Act to select an aggregate area of not exceeding 40 square miles for which leases will be granted for a period not exceeding 50 years. The purchase consideration was £125,000 in fully-paid shares, payable £62,500 to each vendor company; the properties were reported on by Bernard A. Collins and A. H. Harrison. In November, 1906, the assets of the Northern Nigeria Exploration Synd., Ltd. (*see vol. for* 1907), comprising rights over 275 and 300 square miles respectively, adjoining the above property, were acquired for 58,000 fully-paid shares, the vendors agreeing to subscribe for 22,000 shares at par. Total area now held, 700 square miles (300 square miles in Northern Nigeria being forfeited during 1910). The Colonial Government agreed to advance £25,000, payable £3,125 quarterly, such payments to cease on oil being struck in payable quantities; in consideration for such advance the royalty payable to the Government is increased from 5 to 7½ per cent. Oil being struck in November, 1908, further advances ceased, but were resumed in November, 1910, the amount received being £12,500. Boring operations are in progress.

The authorised capital is £300,000, in £300,000 shares of £1 each; 291,232 shares are issued and fully paid. In November, 1905, 65,000 shares were offered for public subscription, of which 25,000 were underwritten by the vendors for a commission of £10,000 in fully-paid shares. In May, 1906, a further 20,000 shares were offered to shareholders for subscription; the issue was guaranteed in consideration of an option over 19,993 shares at par. In December, 1908, 26,064 shares were allotted to shareholders at £2 each; the final call was 10s. on June 15th, 1909. There are £12,500 (part of £25,000) debentures.

The accounts for year ending June 30th, 1910, submitted December 14th, 1910, showed expenditure account £106,147; cash £22,820; debtors £627; creditors, £848; share premiums £30,351.

Transfer form, common; fee, 2s. 6d. The 23rd May, 1906, was appointed settling day in shares Nos. 135,008 to 160,007; July 11th, 1906, in Nos. 1 to 135,007; August 14th, 1906, in Nos. 160,008 to 180,007, March 26th, 1907, in Nos. 180,008 to 182,707 and 200,001 to 280,000; November 27th, 1907, in Nos. 182,708 to 183,407; April 9th, 1908, in Nos. 183,408 to 185,200, and May 5th, 1909, in Nos. 185,201 to 200,000 and 280,001 to 291,232. THIS company was registered October 14th, 1909, to acquire and develop alluvial tin areas in Northern Nigeria. The properties at present owned by the corporation consist of exclusive rights over 22 square miles of alluvial tin-bearing ground, comprising six distinct areas in the Bauchi fields. Two of these areas have been surveyed and prospected and will shortly be granted on mining lease. The surveying and prospecting of the other areas will be proceeded with as rapidly as possible and additional engineers are being sent out to assist the present management. A further area of 53 square miles has recently been taken up in a new district. The corporation also has substantial holdings in the following undertakings, viz.: Naraguta (Nigeria) Tin Mines, Ltd.; Anglo-Continental Mines Co, Ltd.; Champion Gold Reefs of West Africa, Ltd.; Northern Nigeria (Bauchi) Tin Mines, Ltd.; and Juga (Nigeria) Tin and Power Company, Ltd. Three of these companies have declared dividends on account for 1910, viz.: the Champion Gold Reefs of West Africa, Ltd., 100 per cent.; the Naraguta (Nigeria) Tin Mines, Ltd., 10 per cent.; and the Anglo-Continental Mines Co., Ltd., 20 per cent.

The authorised capital is £100,000, in 100,000 shares of £1 each; 39,782 shares are issued and fully paid. In November, 1909, 75,000 shares were offered for public subscription; 25,000 shares were underwritten for a commission of 7½ per cent. in cash, and in addition, the right to subscribe for 25,000 further shares at 25s. each at any time up to December 31st, 1910.

Transfer form, common; fee, 2s. 6d. The 2nd March, 1910, was appointed settling day in shares Nos. 1 to 26,282, and May 11th, 1910, in Nos. 26,283 to 34,782. Latest price, 1, 1 1/16.

Particulars of the various undertakings in which the company is interested:—

The Naraguta (Nigeria) Tin Mines, Ltd., has since February, 1910, produced 400 tons of tin oxide. The company's original property, comprising 3,200 acres, was formerly worked by the Niger Company, who won from its alluvial beds over 1,000 tons of tin concentrates, although the working was principally devoted to testing the value of the ground, bringing in water for sluicing purposes, and opening up reserves. The area so pitted and tested was approximately 650 acres, which gave, according to the Niger Company's engineers, reserves of upwards of 10,000 tons of tin oxide. The company has added to its properties by taking up an area of five square miles, and the manager has applied for an exclusive prospecting licence on behalf of the company of over 100 square miles, 86 square miles being in a new district with ample water power.

The Anglo-Continental Mines Co., Ltd., is largely interested in several of the gold mines in the Tarkwa and Prestea districts of West Africa, and also in oil properties in the Maikop district of Russia, Peru and Trinidad. It has also a substantial interest in Nigeria and has already had one profitable "deal" in the successful flotation of the Northern Nigeria (Bauchi) Tin Mines, Ltd., in which it holds a large interest. This is not by any means the full extent of its interest in Northern Nigeria, for it holds an adjoining area of 50 square miles, which are stated to offer very satisfactory prospects, and further promising

areas have been acqnired. The report for the year ending December 31st, 1910, showed a profit of £74,180, and, after payment of a dividend of 20 per cent., £42,000 was carried forward. At the date mentioned the company had no liabilities, but the investments, taken in the balance sheet at cost, amounted to £148,258, in addition to which cash in hand and on deposit stood at £52,620 and loans on security £67,742.

The Champion Gold Reefs of West Africa, Ltd , next to the Niger Co., was the first company to take in hand the exploitation of the alluvial tin fields of Northern Nigeria, and was successful in bringing off several "deals," which enabled the Directors to pay a maiden dividend of 100 per cent. in March, 1910. The report to September 30th, 1910, showed that with an actual cash working capital of £34,186 a profit of £505,387 was made. The following subsidiaries have been floated :—(1) the Naraguta (Nigeria) Tin Mines, Ltd., with a working capital of £20,000, in addition to £50,000 paid to the Niger Co.; (2) the Lucky Claim Mines, Ltd., with a working capital of £27,000; (3) the Juga (Nigeria) Tin and Power Co., Ltd., with a working capital of £50,000; and (4) the Tin Fields of Northern Nigeria, Ltd., with a working capital of £25,000. The Company has also interests in the Northern Nigeria (Bauchi) Tin Mines, Ltd., and in a valuable property which has been opened up by the Anglo-Continental Mines, Co., Ltd.

The Northern Nigeria (Bauchi) Tin Mines, Ltd , acquired three areas from the Niger Company, from which 10 tons of tin per month are being won, and as the result of prospecting on 50 square miles, over which an exclusive prospecting licence was held, several areas for leases have been selected and renewed prospecting licenses applied for over other portions of the property.

The Juga (Nigeria) Tin and Power Co., Ltd., owns the Juga, Sub Juga, and South Juga properties, which have a combined area of 9,600 acres. The manager (Mr. A. W. Hooke, an engineer of wide experience in alluvial tin mining in Australia) has carried out surveys with a view to enabling tin to be won on a large scale, and Mr. Huddart, Mr. Lush, and Mr. Walter Wethered have stated that the combined Juga properties represent one of the richest and most important areas in Nigeria. The manager has asked for 10,000 feet of piping, with the necessary nozzles, to enable him to commence hydraulicking. The water necessary for this operation being obtainable by gravitation, there being a fall of some 435 ft. Two suction dredge plants, which have already been purchased and are now ready for shipment, are also to be installed.

This company was registered in the Transvaal August 20th, 1908, being a third reconstruction of the Nile Valley Co., Ltd., registered December 6th, 1901, first reconstructed in April, 1903, and secondly in March, 1906 (*see vol. for* 1908). The company owned a concession granted to G. O. Haig, by the Egyptian Government, dated May 21st, 1900, over lands between the Nile and the Red Sea, in Upper

Egypt, on the borders of the Soudan. The property has been prospected and a number of ancient workings opened up. The Um Garaiart gold mine is being worked and a 10-stamp mill is erected. Crushing was suspended January, 1908, pending further development.

The authorised capital is £305,000, in 305,000 shares of £1 each; all the shares are issued and fully paid. Shareholders were offered one new share credited as 17s. 6d. paid for each old fully paid share; 160,000 shares were guaranteed by the London and Colonial Syndicate, Ltd., for a commission of £2,000. The capital was increased from £285,000 in July, 1909.

The accounts to June 30th, 1910, submitted in London November 25th, 1910, showed mining expenditure, £8,521; general expenditure, £1,903; cash, £21,438; calls in arrear, £732; creditors, £331.

Transfer form, common; fee, 2s. 6d. The 7th October, 1908, was appointed settling day in shares, Nos. 1 to 160,000 and July 28th, 1909, in Nos. 160,001 to 305,000. Additional particulars officially supplied:—The mine is well equipped with milling plant and mining machinery, acquired at an outlay of considerably over £150,000, so that the new working capital to be provided will be available for the further prospecting and development work, the expenditure of which should place the mine in a dividend paying position. Gold to the value of £95,000 has already been extracted from the mine, and it is an undeniable fact that one of the richest chutes or pockets of ore that any mine has ever known was found on the property. The whole of the Allaghi and Dareheib districts teem with indications of a widespread and flourishing ancient gold mining industry, and it is on this Wady that the ancient mine, now known as the Um Garaiart (the company's property) was lately re-discovered, and has among other crushings yielded at the company's mill the marvellous return of £44,000 worth of gold from the treatment of only 500 tons of quartz. The engineer considers that further development and prospecting work will open out a very valuable mine. The rich deposits of this nature do not exist singly, more of them will probably be found as development proceeds, such as were discovered on the upper levels from which gold to the value of £95,000 was obtained; he is also of opinion that the main shaft should be sunk to the 700 or 800 feet level. The shaft is now down to a depth of 425ft. and connects with "A" Level at 103ft., "B" level at 200ft., "C" Level at 320ft., "D" Level at 420ft., the said levels are driven both north and south on the reef. The lode was well defined, showing good values, and with every sign of permanence. The property is fully equipped both as regards its ore reduction mills, and driving power, with a plant already erected and in first-class condition capable of sinking, hauling and pumping to over 1,000 feet in depth. There is an ample supply of water on the property for all milling and metallurgical purposes. Attention has been called to the recent important discoveries of steam coal deposits close to the shores of the Red Sea. In view of the fact that the motive power for driving machinery on the company's property has to be obtained from coal or oil brought from England, the lowest cost in the near future for fuel from these new deposits should considerably lessen the expenses of mining. 20,000 tons of quartz have been crushed, producing 22,540ozs. of gold, being considerably over 1oz. of gold to the ton of ore crushed. It is estimated that there are 20,000 tons of tailings containing about 3 dwts. of gold to the ton, these residues could be treated for about 2s. 6d. per ton, leaving a profit of, say, about 7s. 6d. per ton. Before the mill re starts crushing it is proposed to erect a cyanide plant to treat the tailings as they leave the mill.

A parallel lode recently struck and giving rich assays is being actively developed and at November, 1910, 5,000 tons had been blocked out giving assay values 5ozs. to 4dwts.

THIS company was registered June 10th, 1910, and is a reconstruction of the North Charterland Exploration Co., Ltd. The company owns a grant from the British South Africa Co., of mining and surface rights over 10,000 square miles of land in North Eastern Rhodesia. The territory lies between the Nyassaland Protectorate on the east and the River Loangwa on the west; its southern boundary is formed by a portion of the Anglo-Portuguese frontier provided by the treaty of 1891, and its northern boundary adjoins the British South Africa Co.'s territory in Western Nyassaland. The Sasare Gold Mine has been opened up and is let on tribute to the Durman Synd., Ltd. Agricultural and prospecting operations are being carried on.

The authorised capital is £500,000, in 1,000,000 shares of 10s. each; 586,782 shares are issued, 586,782 being fully paid and 200,000 having 5s. paid. The subscription of 200,000 shares at par was guaranteed by L. Hirsch & Co. for a brokerage of 3d. per share and an option to July 15th, 1912, over 200,000 shares at par; the guarantors also have an option on same terms over 57,000 shares. 111,328 shares are under option at par to July 15th, 1912, to shareholders in the old company other than the British South Africa Co., which company has the right for two years to take up the balance of capital at par.

The statutory report was submitted September 2nd, 1910.

Transfer form, common; fee, 2s. 6d. The 2nd November, 1910, was appointed settling day in shares partly paid Nos. 8 to 200,007 and fully paid Nos. 1 to 7, and 200,008 to 586,037 and November 3rd, 1910, in option certificates for 366,046 shares.

THIS company was registered April 25th, 1910, to acquire from the Straits Synd., Ltd., diamondiferous property, area 250 acres, near Kimberley, South Africa, formerly the property of the Ottos Kopje Diamond Mines, Ltd. (*see vol for* 1908). The consideration was £20,000, payable in cash.

The authorised capital is £37,500, in 150,000 shares of 5s. each; 80,007 shares are issued and fully paid.

Transfer form, common; fee, 2s. 6d. The 21st December, 1910, was appointed settling day in shares Nos. 1 to 80,007.

Additional particulars officially supplied:—The company owns a perpetual mining lease granted by the Goverment of the Cape of Good Hope over 250 acres of diamondiferons land near Kimberley, subject to an annual rental of £1 per acre and a royalty of 10 per cent. on the realised value of the diamonds won. The property was acquired by the company on the strong recommendation of Mr. R. G. Burnett, one of the best known and most experienced of Kimberley mining managers, who has had 30 years' practical experience in the working of diamond mines The mine, which has an area almost equal to that of the old De Beers mine, is now under his personal management. The mine is situated about three miles north-west of the famous De Beers Consolidated Mines, Ltd It comprises: (a) Two distinct "pipes" about 200 yards apart connected by a

NORTH KIMBERLEY DIAMOND—continued.

fissure—"A" pipe containing 250 claims and "B" pipe containing 350 claims; (b) A "tailings" dump, containing over 1,000,000 loads of "blue" ground, estimated to be worth 11d. per load; (c) Buildings and machinery, complete in all its details, in full working order, and capable of treating 1,500 loads of ground a day. As a South African diamond mining claim measures 30ft. by 30ft., it is estimated that every 100ft. of depth will produce:—In the case of "A" pipe 1,400,000 loads; in the case of "B" pipe 1,970,000 loads, or say at least a total of 3,000,000 loads. Thus every 100ft. in depth will provide blue ground sufficient for 10 years' work on the basis of 1,000 loads raised and washed per day.

During the regime of the previous owners, one of the two diamondiferous pipes (the "A" pipe) was worked to a depth of about 250ft., over 2,000,000 loads of ground being raised and treated therefrom, the average yield of which —as shown by official returns—was between five and six carats per 100 loads. During the last three years the mine was worked the output and value of diamonds was as follows:—

		£
1900–1	4,930 carats, value	12,358
1901–2	5,010 „ „	11,288
1904–5	6,820 „ „	15,497

Although the old average rate of yield (viz., 5 to 6 carats per 100 loads), may be confidently anticipated, Mr. Burnett estimates future profits under the improved conditions as follows:—

	s.	s.
Yield per load	2·60	– 2·7⅕
Total working costs	1·75	– 1·9
Profit per load	·85	·10⅕

1,500 loads per diem at a profit of ·85s. per load — £63 15s, which, based on 300 working days, is equal to an annual profit of £19,125.

The estimates given show the estimated net revenue to be as follows:—

	£	£
(1) Profit per annum on treating 1,500 loads maiden ground daily		19,125
(2) Profits per annum on treating 500 loads old tailings daily		—
Total gross profits		19,125
From the above must be deducted:—		
(1) Rent and Government royalties	£696	
(2) London office expenses	1,000	
(3) 20 per cent. depreciation on plant ...	1.000	
		£2,696
Net revenue		£16,429

which is equal to over 50 per cent. per annum on the issued capital of £30,000.

The above figures are based on estimates for working by day only, but as the property will ultimately be worked by day and night in two shifts, the above profits should be doubled as soon as the mine development is sufficiently in advance of the capacity of the washing plant.

THIS company was registered October 30th, 1901 and in 1909 acquired interests in gold mining properties in West Africa. The properties in the Tarkwa district extend along the Kotra Verchy line of reef and comprise about 5,700 claims, of which 1,500 claims have been purchased and the remainder are under option. In Ashanti a concession of five square miles on the Abrokrum line of reef is held, also a one-third interest in a concession in Eastern Adansi. In order to put an end to the dispute that existed as to title, a satisfactory arrangement has been arrived at with the Taquah Mining and Exploration Co., Ltd., whereby certain of the interests of both Companies in the vicinity of, and including, the Kotra Verchey Concession, have been merged into one compact block of property. This block represents a length of 3¼ miles on the line of the reef, with the Government railway crossing it near the centre. The question as to the best method of dealing with this property is under consideration. *See plan opposite.*

The authorised capital is £100,000, in 400,000 shares of 5s. each; 122,000 shares are issued and fully paid. The capital was increased from £30,000 in May, 1910.

The accounts to February 28th, 1910, submitted May 3rd, 1910, showed properties and options £23,236; expenditure in London £3,336; cash £3,802, debtors £143; creditors £518 (capital since increased).

parties were purchased in 1899 for 23,984 fully-paid shares. The company's expedition having discovered copper mines on the concession, the name was changed to the above in June, 1899; the company received a further grant of 10 square miles, also a further coal area of 12,000 acres. A portion of the coal area has been sold for shares of the Wankie (Rhodesia) Co. The company has also sold properties to the Rhodesia Copper Co., Ltd., Kafue Copper Development Co., Ltd., and was interested in the flotation of the Bwana M'Kubwa Copper Mining Co., Ltd. At May 31st, 1910, the following shares were held:—Rhodesia Copper, over 120,000; Kafue Copper, over 180,000, and upwards of 60,000 Bwana M'Kubwa.

The properties now held consist of mineral and surface rights over three blocks of ten square miles each, mineral rights over ten square miles at Chanobi and ten square miles round each series of sulphur springs near (*a*) N'Kala, and (*b*) the junction of the Lunga and Kafue rivers, Lukali farm of 13,500 acres, on the Lukali river, Algoa farm, 50) acres between Lusensfwa and Lukashashi rivers, and a ten per cent. interest in certain farms and claims pegged for the Rhodesia Copper Co., Ltd.; also the right to peg out 600 reef claims and 300 alluvial claims in Northern Rhodesia, of which 280 claims had been located at December, 1909.

The authorised capital is £250,000, in 250,000 shares of £1 each; 239,630 shares are issued and fully paid. The capital was increased in May, 1899, from £100,000 to present amount; 23,984 fully-paid shares were issued in payment for interests as above, and 45,000 shares were offered to shareholders at par, the issue being guaranteed.

For 1909, a dividend of 10 per cent. was paid August 20th, 1910 (5 per cent. cash, and 5 per cent. in fully-paid shares of Bwana M'Kubwa Co.)

The accounts to December 31st, 1908, submitted July 22nd, 1909, showed a loss of £4,954; deducting £2,284 credit balance forward and £2,286 transferred from share premium account left £384 to debit of profit and loss account.

The accounts for seventeen months to May 31st, 1910, submitted July 29th, 1910, showed a profit of £29,988; deducting debit brought forward left £29,604; a dividend of ten per cent. was declared (as above); cash £75,227, debtors £41 987, shares held £116,957; creditors and bills payable £1,551, uncalled liability on shares held £8,210.

THIS company was registered August 22nd, 1901, and is a reconstruction of a company of the same name registered October, 1889 (*see vol. for* 1902). The property comprises 63 freehold farms, having an area of about 307,017 acres, also mineral rights over three farms, area 16,836 acres, situate in the districts of Zoutpansberg, Waterberg, and Bloemhof, in the Transvaal, and held in perpetuity with all mining and water rights. Two farms covering 10,374 acres were sold in 1902 for £7,000 in cash, and another of 6,462 acres for £3,500 in fully-paid shares in the purchasing company. In each case the company has reserved all mineral rights. A deposit of lime has been opened up on farm Cyferfontein, and has been leased for four years on a royalty basis. Prospecting is proceeding. It is proposed to form a subsidiary company to work the tin deposits on the farms in the Waterburg district.

The authorised capital is £50,000, in 200,000 shares of 5s. each; 178,304 shares (£44,576) have been issued credited as 2s. 6d. paid and 2s. 6d. called, making fully paid. One share, 2s. 6d. paid, was offered for each share of the old company (whose issued capital was £178,324 in fully-paid £1 shares). A dividend of 10 per cent. was paid in 1903 out of profits on sale of two farms.

The accounts for year ended December 31st, 1909, submitted June 29th, 1910, showed debit increased from £5,508 to £5,740; cash £1,750, debtors £401, investments £16,182; creditors £877.

Transfer form, common; fee, 2s. 6d. The 7th August, 1902, was appointed settling day in shares Nos. 1 to 178,324. Latest price, 5s. 9d.

THIS company was registered in the Transvaal September 12th, 1894, as the Nourse Deep, Ltd., to acquire the property of the Henry Nourse Deep Level Gold Mining Co., Ltd., consisting of 28 main reef deep level claims on the dip of the Henry Nourse property, Central Witwatersrand, Transvaal; also to acquire from the Rand Mines, Ltd., 241 claims adjoining. The consideration paid to the Henry Nourse Deep Co. was 62,500 fully-paid shares, and to the Rand Mines, Ltd., 237,500 shares; total, 300,000 shares. In May, 1899, 56·388 claims were sold for 84,888 fully paid-up shares of the South Nourse, Ltd., on the condition that this company subscribed for a further 42,444 South Nourse shares at £3 per share. This property has been re-acquired by the absorption of the South Nourse, Ltd. (*see below*). In December, 1905, the undertaking of the Henry Nourse Gold Mining Co., Ltd. (*see vol. for* 1907), comprising 84·3104 claims on farm Doornfontein No. 140 (67 reef-bearing), 2 water rights, also a mill of 80 stamps, with cyanide and slimes plants was acquired for 225,000 fully-paid shares. The name was

changed January, 1906. On February 19th, 1909, the undertaking of South Nourse, Ltd., owning 290·6 claims on farm Doornfontein No. 140, was acquired for 138,473 fully paid shares (being three for every ten shares held) 62,332 shares held by Nourse Mines, Ltd., being cancelled. A further 66·6 claims adjoining were also acquired from the Rand Mines, Ltd., and others for 14,348 fully paid shares. The total area now held comprises 647 claims on farm Doornfontein No. 140, Central Rand, Transvaal, situate between the City Deep and New Gooh properties on the west and the Jupiter, New Heriot and Geldenhuis Deep properties on the east.

On the Nourse Deep crushing was commenced in November, 1897, with 60 stamps, and 40 were afterwards added, making 100, with cyanide and slimes works; the total number now at work is 260, also seven tube mills (80 stamps and three tube mills were added during 1910), the whole plant having a capacity of 700,000 tons per annum. The plant is at present being driven by steam power but is being converted to electricity, the power to be supplied by the Rand Mines Power Supply Co., Ltd. After the war, crushing was resumed in March, 1902. For 1908-9, 441,701 tons yielded gold value £681,249; net profit £267,203 or 12s. 1d. per ton. THIS company was registered July 16th, 1896, to acquire the undertakings of the Oceana Co., Ltd., registered on November 18th, 1886 (as the Oceana Transvaal Land Co., Ltd., the name being afterwards altered), the Austral-African Co., Ltd., registered August 2nd, 1895, and Africana, Ltd., registered September 23rd, 1895 (*see vol. for* 1899). The original Oceana Co. first acquired a large number of farms in the Transvaal and afterwards sold properties and rights to the New Belgium, Silati, Oceana Development, Oceana Transvaal Coal, and Oceana Minerals companies, and also acquired the undertaking of the Central African and Zoutpansberg Exploration Co., Ltd. In May, 1905, the undertaking of the Oceana Minerals Co., Ltd. (*see vol. for* 1907), was purchased for 83,917 fully-paid shares. In February, 1910, 417,000 shares in the West African Trust, Ltd., were subscribed for at par, and in May, 1910, 200,000 of the shares were offered to Oceana Consolidated shareholders at par *pro rata*.

The company now owns 225 farms, including mineral rights, covering in all about 1,090,288 acres, in various districts of the Transvaal; also other interests, including shares of Mozambique Co., Katanga Co., Taquah Mining and Exploration Co., Ltd., International Ethiopian Railway Trust, New Egyptian Co., Abosso Gold, West African Trust, Ltd., Rooiberg Minerals Development Co., Ltd, &c. During 1910 the company's share interest in Welgedacht Exploration Co., Ltd., was sold to Sir Abe Bailey, the company retaining the right to participate in future transactions involving the capital or property of that company. Several mining properties in Rhodesia are being prospected under options. An interest in the H. D. Syndicate, Ltd. (formed to acquire the Piccadilly Hotel), is held.

The authorised capital is £2,000,000, in 4,000,000 shares of 10s. each; 2,000,000 shares are issued, and fully paid. The capital was originally £1,500,000 in £1 shares; 1,267,500 shares were issued credited as fully paid in exchange for shares of the old companies, as follows:—One for each share of the Oceana Co., Ltd. (absorbing 430,000 shares), one for each Austral-African share (absorbing 300,000 shares), and one for every two Africana shares (absorbing 537,500 shares). In March, 1900, 129,466 shares were issued, shareholders being offered one for every ten held, at 25s. each; the whole issue was guaranteed by directors and others in consideration of an option on 64,733 shares at 25s., which was exercised. In 1902, the capital was increased to £2,000,000; 150,000 shares were issued to share-

This company was formed in Berlin April 6th, 1900, in accordance with an arrangement between the South West Africa Co., Ltd., the Direction der Disconto Gesellschaft of Berlin, and the Exploration Co., Ltd., to deal with the development of mineral and railway rights in the territory of the South West Africa Co., Ltd., and took over from that company 1,000 square miles of mining rights and 500 square miles of freehold land in the Otavi district of German South West Africa. A railway from Swakopmund to the mining district of Tsumeb (351 miles) was finished in August, 1906, and in 1910 was sold to the German Government, as from April 1st, 1910, for 22,000,000 marks (£1,100,000). The company has leased the line for ten years with the option to extend the lease for a further 20 years. The rental payable for the first ten years averages 5·15 per cent. of the purchase price. A portion of the purchase price was applied in part repayment of capital (*see below*).

OTAVI MINES AND RAILWAY—continued.

The Tsumeb copper mine is being opened up and smelters are erected to treat the ore, which contains copper, lead, &c. During 1908-9, 27,000 tons were shipped, average value 17 per cent. copper, 30 per cent. lead and 0·033 silver, and the smelters produced 3,150 tons copper matte and 3,000 tons metallic lead. During 1909-10, 33,500 tons were shipped, average value 16 per cent. copper, 26 per cent. lead and 0·028 per cent. silver, and the smelters produced 2,940 tons copper matte and 3,732 tons metallic lead.

The Otavi Exploring Syndicate, Ltd., is carrying on prospecting operations.

The capital is 4,000,000 marks (£200,000), divided into 200,000 fully-paid shares of 20 marks, or £1 each; all the shares are issued and fully paid. There are also 200,000 deferred shares of no face value. The capital, formerly 1,000,000 marks (£50,000), was increased to 20,000,000 marks (£1,000,000) in May, 1903, and reduced to present amount in July, 1910, by repaying, out of proceeds of the sale of the railway, 80 marks on every 100 mark share. In January, 1907, 30,000 shares of 100 marks (£5) were offered for subscription in Hamburg and a similar number in London at £7 5s. per share. Out of the profits there will be placed to reserve 5 per cent., then a dividend of 5 per cent. will be paid on the ordinary shares; after allowing 10 per cent. as bonus to the board out of surplus, the balance will be divided equally between the ordinary and deferred shares.

Dividends paid: For 1907-8, 9 per cent. on ordinary and 4 marks per deferred share for 1908-9, 11 per cent. on ordinary and 6 marks per deferred share; 1909-10, 10 per cent. on ordinary and 5 marks per deferred share, paid August 10th, 1910.

The accounts for year ended March 31st 1909, submitted in Berlin August 2nd, 1909, showed £216,953 net profit, including balance forward; dividends absorbed £170,000, transferred to reserve £20,420, bonus to directors £13,333, leaving £13,200 carried forward.

The accounts to March 31st, 1910, submitted in Berlin, August 9th, 1910, showed £181,468 net profit including balance forward; dividends absorbed £150,000, transferred to reserve £16,827, bonus to directors £8,108, leaving £6,533 carried forward. Reserve fund £54,651.

Transfer form, common; fee, 2s. 6d. The 7th March, 1907, was appointed settling day in bearer warrants for ordinary shares, Nos. 1 to 120,000, and January 28th, 1909, in Nos. 120,001 to 200,000, and in deferred shares Nos. 1 to 200,000. Share warrants to bearer are issued in respect of shares subscribed January, 1907, and bearer shares may be converted into registered shares for a fee of 2s. 6d. per 100 or part, and reconversions of registered shares into share warrants to bearer can be made for a fee of 2s. 6d. on application, and 1s. per warrant and stamp duty. THIS company was registered May 23rd, 1898, and is a second reconstruction of the Pigg's Peak Estate and Gold Mining Co., Ltd., registered October 18th, 1889 (*see vol. for* 1900). The company acquired a concession covering 40,000 acres in Swaziland; the original concession expires in 1920, but an extension for 50 years more has been granted. A gold mine has been opened up. In addition the company owns 100 claims near Barberton, Transvaal, with 20-stamp mill. The company now owns minerals rights over 40,000 acres (freehold) also 21,500 acres of surface rights, and is applying for a renewal of the surface rights over a further large area, the surface rights having terminated in April, 1909. A 20-stamp mill is erected and crushing, which was suspended on the outbreak of war, was resumed July, 1908; a cyanide plant started in November, 1908. A tube mill has also been added. From May, 1909, to March, 1910, 15,328 tons yielded a gross profit of £14,549 or 18s. 11d. per ton. Estimated ore reserves at March 31st, 1910, 116,221 tons value 12¾ dwts. per ton. For crushings at Pigg's Peak, *see table at commencement of volume.*

The authorised capital is £340,000, in 340,000 shares of £1 each; 223,215 shares are issued and fully paid. The capital was increased from £200,000 to £240,000 in September, 1905, the new shares being offered to shareholders at par; the subscription of 20,000 was guaranteed. The capital was again increased to present amount in June, 1909, to provide shares for debenture holders' rights as below. There are £25,570 (part of £45,000) six per cent. debentures in bonds of £10, £15, £50, and £100 each, offered to shareholders for subscription at par in June, 1909, at the rate of one £10 debenture for every fifty shares held. The debentures are redeemable within ten years at par or at any time after June 30th, 1911, at 105 per cent. on six months' notice from company, holders having the right to June 30th, 1911, of converting into fully-paid shares at par. Interest payable December 31st and June 30th.

The accounts for year ended March 31st, 1909, submitted September 27th, 1909, showed debit balance reduced to £18,697.

The accounts to March 31st, 1910, submitted November 14th, 1910, showed a net profit of £2,946, after writing off £5,670 war suspense account, reducing debit balance to £15,751; cash £558, bullion in transit £3,561, debtors £384; creditors £3,226, contingent liabilities £7,929.

Transfer form, common; fee, 2s. 6d. Extract from chairman's speech at general meeting held November 14th, 1910: I arrived at the Pigg's Peak Concession towards the end of May, and had an opportunity of going through all the workings that were open, and of visiting the prospecting works that were being carried on. In order to understand the Peak Mine, you must know that the gold is contained in a quartzite deposit enclosed by schist walls. This deposit runs roughly east and west through the concession. It is of varying width, and on the peak itself it measures something like 100 feet across from wall to wall. Near the surface the ground is considerably disturbed, and the gold is not continuous throughout the width, but runs in shoots. In the early days of the Peak Mine, the surface of these shoots was worked by two principal open quarries parallel to one another, which are now known as the "A" quarry and the "A 2" quarry. On the eastern side of the Peak Hill, however, there is a smaller quarry known as Saner's. During the last few months, Mr. Burnett has opened up the ground under this quarry and found considerable values there. These will be followed, and a winze sunk to the sixth level to connect with the main drive of that level. There is every hope that a new body of ore in the eastern part of the mine will be thus opened up, which will add considerably to the ore reserves. I think we may look upon the estimates of ore reserves, viz.: 116,221 tons of 12·77 dw.s. value, as being on the conservative side, and likely to be exceeded when we come to mining. In preparing these estimates nothing has been taken into consideration below the fifth level. The board having five year's development ahead of them chose to run the mill, to prove in the first place by actual crushing that the mine could be worked at a profit. Having proved this, additional power has been installed, and the de-watering of the lower levels is now being proceeded with. The richest ore as yet found in the mine is between the fourth and fifth levels. Here the manager estimates that there are in the "A" quarry shoot 5,435 tons of 11 dwt. ore, and in the "A 2" quarry shoot 41,410 tons of 19 dwt. ore. It is not unreasonable then to believe that as we open up the 6th and 7th levels, we shall again encounter high values. The amount actually developed down to the 5th level is estimated at 22,312 tons average value 15.41 dw.s. per ton. Our additional power will enable us to further develop this in depth. We propose also to open up what appears to be a promising shoot on England's Reef, some 1,000 yards to the East and on the same line of reef as the Peak Mine. The plant, is for its size one of the most complete and efficient in South Africa. To sum up, you have in the Pigg's Peak a very large property; you not only possess the mineral rights, but also the freehold. At one point only as yet has the property been definitely prospected, and at that point you have a mine with ore already developed sufficient for five years' crushing, and now making profits at the rate of approximately £20,000 per annum. There is no reason why other mines just as good should not be brought to light on the property. In conclusion, the Pigg's Peak Co. is working at a profit, and such profit is increasing, and, there is every probability of proving the Peak Mine more valuable during the current year by the discovery of further rich ore in the lower levels, and in addition to this, there is a good chance of opening up other shoots of payable ore at England's Reef and on the extension of Kobolondo Reef.

PRAH SYNDICATE—continued.

This company was registered April 5th, 1910, to acquire an option (exercised) over nine gold mining properties, area 250 square miles, in Gold Coast Colony. The properties comprise the Eginassie Concession, area 25 square miles, with 3 stamp mill, situate on the north-west side of the Ancobra river in Wassau, the Krohbo Concession in the neighbourhood of Sekondi, the Nsarta Concession in the district of Western Axim, the Essibirem Concession in the third district of Aykim and Seekah No. A, No. B. and No. C., in the neighbourhood of the village of Jedem, also dredging rights on the rivers Ancobra and Prah. The consideration was £4,903, payable £403 in cash for the option (which was exercised) and £4,500 in fully-paid shares for the properties.

The authorised capital is £6,000 in 6,000 shares of £1 each; all the shares are issued and fully paid.

Transfer form, common; fee, 2s. 6d.

Additional particulars officially supplied:—The nine properties held by the Syndicate cover an area of approximately 250 square miles, besides dredging rights over a further number of miles of rivers and river banks. These properties have been carefully selected after many months' prospecting and are expected on development to give big returns in the near furture. The concessions have been duly granted according to the laws and customs of the country. The properties have been inspected and carefully prospected by Mr. W. S. Tyler, mining engineer, who has had many years' experience on the Gold Coast.

The Enginassie Concession consists of 25 square miles, situate on the north-west side of the River Ancobra, about 80 miles from the Port of Axim, following the river in the neighbourhood of the principal mines of the coast near Tarquah. There is a three-stamp mill upon the property. The Krohbo Concession lies between the villages of Mansu and Adam Bansu, about seven miles from the former and about a mile and a half—more or less—from the latter; the nearest railway station being Mansu. The concession comprises five hills, two and a half miles by two and a half miles. Adjacent to this property is an arm of the River Butri or Sudan Stream. The mining assays of the property always yielded good results, and there is a hope of it turning out to be one of the richest properties on the Gold Coast. No. 1 sample assayed 7 dwts. of gold to the ton and 3 dwts. of silver. The Nsarta Concession is in the neighbourhood of Ekwarrasu Village, district of Western Axim, measuring 10 miles in length by 10 miles in breadth. The Essibirem Concession (10 miles by 10 miles) is situate in the third district of Akyim, in the said colony. The "Seekah, Nos. A, B, and C" Concessions are situate in the neighbourhood of the village called Jedem, and each have an area of about two and a half miles square.

The Ancobra dredging rights consist of the right for dredging and mining purposes from the boundary line of Kwini River of the Chief Obbina Kewesi of Bremen, to the south boundary line, of Chief Kwami Sam of Adamansu, on the said River Ancobra. The Prah dredging concession consists of the right to work the bed of the River Prah for a length of 10 miles, in the neighbourhood of Kwerisu Village, in the district of Western Akim.

THIS company was registered in the Transvaal December 1st, 1902, and owns the entire freehold farm Elandsfontein, No. 85, comprising 3,300 acres, situate in the Pretoria district of the Transvaal, with the Premier Diamond Mine thereon. The original vendors received 67,000 fully-paid shares for part of the farm (with mine) and £25,650 cash has since been paid for the remainder of the freehold. In 1904, the company acquired the adjoining farm Louwsbaken, No. 399, area 1,931 morgen, and in 1905 a portion of farm Spitzkop, No. 31, 829 morgen, and portion of farm Zuikerboschfontein, No. 325, 1,136 morgen, were acquired. In September, 1908, the property of the Pretoria District Diamond Co., Ltd., comprising 2,335 morgen adjoining on the west, was acquired for £21,650. The mine covers an area of about 3,484 claims and to October, 1909, 3,443 claims had been worked down to a depth of 98 feet; the blue ground has been proved by a borehole to 1,000ft. depth; plant to treat 38,000 loads per day has been erected. Under Transvaal law, the Government is entitled to six-tenths of the profits from the mine, after repayment of the company's capital expenditure.

Extract from chairman's speech at meeting held February 25th, 1908:—

The walls of the mine appear to be vertical, this may be due to the nature of the rim-rock, which appears to be uniform in hardness, and the surface is therefore not displaced to the same extent as in other diamond mines, and this fact enables us to work this mine as an open cast to a very considerable depth. The rim-rock so far as can be judged is not likely to give trouble from falls of reef to any appreciable extent, and the open working might therefore be continued to say 1,200 or 1,500 feet or more, which will represent approximately 500,000,000 loads. Taking 400,000,000 loads only, this gives you 26 years in the open, or at the present rate of working, say, 50 years. As the mine increases in depth it will be necessary to sink a shaft outside the rim-rock, and to drive a tunnel from the shaft to the open mine. This cost will not be necessary for some time to come, as the present system of working can be continued to a depth of at least 400 feet, which would represent approximately 136,000,000 loads, or say, 9 years work.

The authorised capital is £80,000, in 160,000 preference shares of 5s. each and 320,000 deferred shares of 2s. 6d. each; all the shares are issued and fully paid. The capital was originally in £1 shares; the vendors received 67,000 credited as fully paid, 10,000 were subscribed at par, and 3,000 sold for £7,250. The capital was altered to present form in January, 1905, each £1 share being divided into two preference shares of 5s. each and four deferred shares of 2s. 6d. each. The preference shares are first entitled to a cumulative dividend of 250 per cent. per annum, the deferred taking the balance of available net profits; in the event of liquidation, the preference rank in priority for £8 6s. 8d. per share, the whole of the remaining assets to belong to the deferred.

The preference dividend is payable half-yearly to shareholders registered April 30th and October 31st and is paid about two months after declaration.

Dividend declared on deferred shares: for 1904-5, 400 per cent. (10s. per share); for 1905-6 400 per cent.; for 1906-7, 400 per cent.: 1907-8 and 1908-9, nil; 1909-10, 400 per cent. (200 per cent. December, 1909 and June, 1910). In December, 1910, it was stated that results for the year ended October 31st would enable a declaration of a 5s. dividend on the deferred shares, but the very serious scarcity of labour and the somewhat reduced yield per load during the last three months had decided the board of directors to suspend the declaration of a dividend for the present.

The accounts for year ended October 31st, 1908, submitted in Johannesburg February 23rd, 1909, showed diamond account £1,536,720 and a profit of £789,964; adding £164,000 profit in suspense from last account made £953,964; £595,848, diamonds unrealised was carried forward as profit in suspense, leaving £358,116; adding balance forward and sundry revenue made £588,720; dividends absorbed £260,000 to general equipment £206,946, to suspense account, £50,000, Transvaal Government £60,868, leaving £10,903 carried forward.

The accounts to September 30th, 1909, submitted in Johannesburg February 22nd, 1910, showed diamond account £1,172,378, and a profit of £438 811; adding £595,848 profit in suspense from from last account made £1,034,659; £355,297 diamonds unrealised was carried forward as profit in suspense leaving £679,361; adding balance forward and sundry revenue made £733,170; preference dividend absorbed £100,000, to general equipment £103,030, loss or purchase by Diamond Syndicate £51,601, trading fund £300,000, to emergency fund £100,000, Transvaal Government £74,838, leaving £3,701 carried forward.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 shares or part. The 9th February, 1905, was appointed settling day in pref. shares Nos. A1 to A160,000 and deferred Nos. B1 to B320,000. Prices, 1907: pref., highest, 9; lowest, $7\frac{1}{4}$; def., highest, $14\frac{1}{4}$; lowest, 6; 1908: pref., highest, $8\frac{7}{8}$; lowest, 6; def., highest, $10\frac{3}{4}$; lowest, $4\frac{1}{4}$; 1909: pref., highest, 9; lowest, $7\frac{1}{2}$; def., highest, $10\frac{3}{4}$; lowest, $6\frac{13}{16}$; 1910: pref., highest, $8\frac{7}{8}$; lowest, $7\frac{7}{8}$; def., highest, $9\frac{3}{4}$; lowest, $6\frac{7}{8}$. This company was registered November 20th, 1903, to acquire from the Prestea Mines, Ltd., and the Appantoo Mines, Ltd., portions of the Essarman and Intermediate concessions, 2,000ft. in length and 6,000ft. wide, in the Prestea district, near the Ancobra River, Gold Coast Colony. The consideration was £180,000, in fully-paid shares (130,000 to Prestea Mines, Ltd., and 50,000 to Appantoo Mines, Ltd.). An additional block of about 2,700ft. along the line of reef has since been acquired from the Appantoo Mines, Ltd., for 50,000 fully-paid shares, making total area equal to 470 Rand claims extending approximately about 4,700 feet along the line of reef. The company also owns a concession carrying mining, timber and rubber rights along the Tarkwa Prestea Railway between the Ancobra and Huni Rivers, and extending one mile on each side of the line. Two shafts are being sunk, the Main and Appontoo, and at October 31st, 1910, had reached a depth of 624 feet and 724 feet respectively. Development work is in progress. The ore reserves at March 31st, 1910, were estimated at 537,845 tons, value 9·95dwts. gold per ton.

A 50-stamp mill was taken over with the property, and crushing commenced November 1st, 1906. A further 10 stamps and concentration plant were added, and in 1909 50 stamps were acquired from Fanti Consolidated Mines, Ltd., making a total of 110 stamps. Crushing was suspended July, 1909, in order to re-erect the mill, instal an electric generating station, and push on with development, and is expected to be resumed shortly. During 1907, 78,164 tons yielded £195,838, or 50s. 1·3d. per ton; during 1908, 89,933 tons yielded £154,764, or 34s. 5d. per ton; during 1909 (six months), 49,300 tons yielded £80,717; costs (including 6s. 3d. per ton development and 5s. 4d. per ton depreciation) 35s. 3d. per ton. *For crushings see table at commencement of volume.* In January, 1911, it was decided to acquire the assets of Prestea Mines, Ltd. (*See that company.*)

The authorised capital is £1,500,000, in 1,500,000 shares of £1 each; 850,000 shares are issued and fully paid. In November, 1903, 90,000 shares were offered for subscription by the vendor companies; priority of allotment was given to shareholders in the vendor companies. The capital was increased from £320,000 to £500,000 in April, 1905, and to £750,000 in July, 1909, 200,000 shares being taken by Wernher, Beit & Co., at 24s. per share, with a call for two years over 50,000 at 27s. 6d. each (exercised May, 1910, at 25s. each). The capital was again increased in March, 1910, to £850,000 and 70,000 shares offered to shareholders at 27s. 6d. each, *pro rata*, the issue being guaranteed in consideration of a call until July 20th, 1911, over 30,000 shares at 32s. 6d. each (exercised May, 1910, at 30s. each). The capital was increased to present amount in January, 1911.

The accounts for year ended December 31st, 1908, submitted May 5th, 1909, showed receipts £154,902 and £5,815 debit balance carried forward, after writing off £11,810 depreciation.

The accounts to December 31st, 1909, submitted June 9th, 1910, showed receipts £80,980 and a loss of £9,113 after writing off £13,337 depreciation, increasing debit balance to £14,928; cash, £97,039; gold and concentrates, £8,000; debtors, £8,447; creditors, £13,929 (capital since increased).

Transfer form, common; fee, 3s. 6d. The 17th February, 1904, was appointed settling day in shares Nos. 1 to 7 and 180,008 to 270,000; January 26th, 1905, in Nos. 8 to 180,007; April 27th, 1905, in Nos. 270,001 to 312,891; December 28th, 1905, in Nos. 312,892 to 362,891; August 29th, 1906, in Nos. 362,892 to 493,639; January 13th, 1909, in Nos. 493,640 to 496,639; March 30th, 1909, in Nos. 496,640 to 500,000; September 9th, 1909, in Nos. 500,001 to 700,000; May 26th, 1910, in Nos. 700,001 to 770,000, and July 13th, 1910, in 770,001 to 850,000. THIS company was registered May 13th, 1909, and is a reconstruction of a company of same name registered December 28th, 1900 (*see vol. for* 1909). The former company owned the Essarman concession, 1,000 fathoms square, on the Ancobra River, 20 miles from Tarkwa, Prestea district, Gold Coast Colony. Part of the property was subsequently sold for 67,500 fully-paid shares of the Anfargah Gold Mines, Ltd., and another portion with 50-stamp mill to the Prestea Block A, Ltd., for 130,000 fully-paid shares. Property still held is equal to about 277 Rand claims and extends 2,767 ft. along the line of reef by 6,000 ft. across, and is bounded on the north by the property of the Prestea Block A, Ltd., and on the south by the property of the Anfargah Gold Mines, Ltd. At July, 1909, 169,400 fully-paid Anfargah Gold shares were held. Two shafts have been sunk and the reef struck in No. 1 shaft, value 1 oz., over 12 ins., and in No. 2 shaft, value 63·8 dwts. over 96 ins. A main incline shaft is to be sunk in the centre of the property. Development work is in progress.

On July 30th, 1909, an option was granted to Prestea Block A, Ltd., for two years to acquire the assets, including any cash, but excluding any shares held in other companies, for the sum of of £237,904, payable by the allotment of 118,952 fully-paid shares of the Prestea Block A, Ltd., being at the price of £2 per share, and if the quoted price of the shares of Prestea Block A, Ltd., is under £2 per share at the date on which the option is exercised, the difference to be payable in cash. In January, 1911, the following modified arrangement was agreed to, viz., that the assets be taken over by Prestea Block A, Ltd., forthwith, and that for every four Prestea Mines Shares issued, or which may be issued in respect of options outstanding, there shall be alloted one fully-paid Prestea Block A share and the sum of 3s. cash. The Block A Co. to pay interest at the rate of 7 per cent, per annum on the shares under option from the date the options are exercised until the 13th May, 1911.

The authorised capital is £318,750, in 850,000 shares of 7s. 6d. each; 596,323 shares are issued and fully paid. THIS company was registered in the Transvaal March 29th, 1888, to acquire about 3,341 acres of freehold land and water-rights, situate on the farm Roodepoort No. 43, Western Witwatersrand, Transvaal, including two mynpachts equal to 290 claims, with machine sites and water rights. Several other companies' properties are situate on the estate, the Princess Co. receiving licences and rentals. The mining property worked by the company (including property of Norman Syndicate acquired as below) comprises a block of about 244 claims, south of the main reef outcrop, and at November, 1910, 229 main reef claims and 139 south reef claims were intact.

In the year 1892, 30 stamps were working; a cyanide plant started in 1894. A new 30-stamp mill was started in December, 1895, in place of the old one, and 30 new stamps have since been added, making 60 in all. Crushing was resumed in December, 1904. A slimes plant, capable of treating 4,800 tons per month, commenced work June 1st, 1909. During 1908, 106,670 tons yielded gold value £210,588; profit £72,212, or 13s. 6d. per ton. During 1909, 113,679 tons yielded £194,824; profit £54,008 or 9s. 6d. per ton; during 1910, 120,414 tons yielded £195,581, profit £61,129. For details of crushings *see table at commencement of volume*. Ore reserves at December, 1908, 195,020 tons, value 10·4dwts. per ton at December, 1909, 231,491 tons, value 8·6dwts. per ton.

In December, 1910, a circular was issued stating that the company had acquired from A. Goerz and Co., Ltd., at cost price, viz., £14,649, the entire share capital of the Norman Properties Syndicate, Ltd., which owns the property and assets formerly belonging to the Saxon Gold Mines, Ltd., and the Princess Estate Co. had also agreed to take over the liability of that Syndicate to A. Goerz and Co., Ltd., as January 1st, 1911, which was estimated not to exceed £11,000.

A provisional agreement had also been made with the Roodepoort Central Deep, Ltd., and the West Roodepoort Deep, Ltd., for the absorption of those two companies, and with A. Goerz and Co., Ltd., for the provision of further working capital. If confirmed (meeting to be held March 24th, 1911, in Johannesburg) the capital of the Princess Estate Company to be increased to £650,000. Shareholders in Roodepoort Central Deep to receive one Princess Estate share for every three Roodepoort Central Deep shares held which will absorb 108,333 shares, and 69,000 shares to be issued to West Roodepoort Deep (including 849 shares in settlement of certain liabilities). A. Goerz and Co., Ltd., undertake to subscribe, at 27s. 6d. per share, for 132,700 shares, which will leave in reserve 74,967 shares. The new shares to rank for dividend from January 1st, 1911, and not to participate in the dividend declared by the Princess Estate Co. in December, 1910. In addition to the consideration above detailed, the Roodepoort Central Deep debenture debt and other liabilities, totalling approximately £47,000, and the liabilities of the West Roodepoort Deep (apart from those above mentioned) up to a total of £1,500 will be paid by the Princess Estate Company. As regards the 132,700 shares to be subscribed for by A. Goerz and Co., Ltd., that firm has undertaken to give the shareholders of the Princess

PRINCESS ESTATE—continued.

Estate, Roodepoort Central Deep, and West Roodepoort Deep Companies an opportunity of taking up same—in the proportion of three new shares for every 10 shares held in the enlarged capital of the Princess Estate Company—at the issue price—namely, 27s. 6d. per share. Messrs. A. Goerz and Co., Ltd., to receive a commission, payable in cash, of 5 per cent. on the total value of the shares so subscribed by them and offered to shareholders. If scheme adopted the issue will provide £173,339 net, and the Princess Estate Company, after allowing for the payment of the dividend declared December, 1910, will have about £8,000, making a total of £181,339, of which approximately £82,000 will be absorbed by the purchase of the Norman Syndicate shares, the payment of the liabilities of the Norman Syndicate, Roodepoort Central Deep, and West Roodepoort Deep, and amalgamation expenses, leaving about £99,339 available for the reorganisation of the plant and the prosecution of further development work.

The effect of the amalgamation will be that the enlarged company will own 680 claims lying south of the Main Reef outcrop, in which the Main Reef is estimated to be intact in 665 claims and the South Reef in 521 claims. In addition the Princess Estate owns a freehold area, from which an annual revenue of from £2,500 to £3,000 is derived. The payable ore developed in the areas to be amalgamated was at December 1st, 1910, 647,000 tons, of which 532,000 tons, of a value of 8·11 dwt. per ton over the milling width, are on the South Reef and 65,000 tons, of a value of 6·06 dwt. per ton over the milling width, are on the Main Reef. It is intended to reorganise the surface plant so that crushing operations will be concentrated at the Roodepoort Central Deep Mill, the plant to deal with at least 18,000 tons monthly.

The authorised capital is £325,000, in 325,000 shares of £1 each; 265,000 shares are issued and fully paid. The capital was increased in 1889 from £125,000 to £150,000; reduced in 1890, by reconstruction, to £80,000; increased in 1894 to £165,000; 80,000 of the new shares being issued at par and 5,000 at £3 each. During 1908-9, 100,000 shares were taken up by A. Goerz & Co, Ltd., at par. In June, 1904, the directors were authorised to increase the capital to £325,000.

There are £12,580 six per cent. mortgage debentures (part of £60,000 created and issued to A. Goerz & Co., Ltd., at par, in April, 1899, and offered by them to shareholders *pro rata* at 105 per cent.); interest is payable on January 2nd and July 1st, and the bonds are redeemable at 108 per cent. by twelve annual drawings in January for redemption on July 1st.

Dividends declared (paid about seven weeks after declaration): For 1897, 10 per cent.; 1899, 7½ per cent.; 1908, 10 per cent.; 1909, 20 per cent.; 1910, 20 per cent. (10 per cent. June 22nd and 10 per cent. December 17th).

The accounts for year ended December 31st, 1908, submitted in Johannesburg, March 31st, 1909, showed gold receipts £210,588 and a profit of £72,212, making with sundry revenue a sum of £75,037; deducting debit balance brought forward £25,321, dividend £21,000, depreciation £8,737, tax, interest, &c., £13,120, leaving £6,858 carried forward; cash assets in excess of liabilities £9,032.

The accounts to December 31st, 1909, submitted in Johannesburg March 16th, 1910, showed gold receipts £194,824 and a profit of £54,008 making with balance forward and sundry revenue a sum of £65,646; dividends absorbed £53,000, depreciation £5,494, tax, interest, etc., £5,190, leaving, £1,962 carried forward; cash assets in excess of liabilities £38,960.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 shares or part thereof. Warrants to bearer can be had for 1, 5, 10 and 25 shares; charge for conversion 1s. for five shares, and exceeding five 2s. 6d. per 100 or part of 100, also a fee of 1s. per warrant; charge for reconversion 2s. 6d. for first 100, and 1s. for every further 100 or part. This company was registered in the Transvaal April 29th, 1895, to acquire on lease the farm Witpoort No. 162, covering about 5,910 acres of coal-bearing land, situate in the district of Boksburg, Transvaal, about 25 miles east of Johannesburg, midway between the properties of the East Rand Proprietary, Van Ryn, and New Kleinfontein Companies. In April, 1896, the gold-mining rights over about 2,956 acres of the farm were acquired for 62,500 fully-paid shares, and that portion is now held freehold, the perpetual lease of the other part of the farm, formerly held at a rental of £400 per annum, being also included in the purchase. The company's gold mining area consists of a mynpacht of 828 claims, its position on the freehold having been relocated in 1904, by consent of the Government. (*See plan on opposite page.*)

Formed originally as a coal-mining proposition, prospecting for the Main Reef Series underlying the coal measures was undertaken after the war, and a series of boreholes put down at that time gave the following results:—Borehole in north-western corner intersected reef at 2,215ft., showing an average assay value of 26·8 dwts. over a stoping width of 48 in. Borehole in north-eastern corner intersected reef at 3,783 ft., showing an average assay value of 20·6 dwts. over 48 in. stoping width. Two shafts have been sunk. The reef was struck in No. 1 shaft at 2,730 ft. in February, 1908, and in No. 2 shaft at 2,924 ft. in February, 1910. The distance between Nos. 1 and 2 shafts is approximately 4,000 ft. Development operations are proceeding, and a main level is being

driven to connect the two shafts. When this is completed it is expected that development will be carried out much more rapidly. In certain sections of the connecting level high values were disclosed. It is intended to erect a crushing and treatment plant of large capacity, and, as the ore will be handled by an underground mechanical haulage system, mining costs are expected to be very low. The plant will be run by electrical power supplied by the Victoria Falls and Transvaal Power Co., Ltd.

The authorised capital is £757,500, in 757,500 shares of £1 each; 631,250 shares are issued and fully paid. The capital was formerly £150,000, 100,000 shares being issued to vendors and 37,500 subscribed at par. The capital was increased in 1896 to £250,000 in order to acquire the gold-mining rights, &c.; increased to £350,000 in February, 1903, when 100,000 shares were offered to shareholders at £1 10s. each, the issue being guaranteed; and increased to £400,000 in February, 1904, when 62,500 shares were issued at par to the General Mining and Finance Corpn., Ltd., with an option on a further 50,000 shares at par for two years and a

further 50,000 at par for three years, the administration and control of the company being taken over by that Corporation under agreement confirmed March 17th, 1904; the capital was increased from £400,000 to £505,000 as the options were exercised, the first 5,000 of the option shares were taken up in July, 1904, 50,000 in April, 1906, and a further 50,000 in March, 1907. In July, 1909, the capital was increased to present amount and 126,250 shares offered to shareholders at £2 each, at the rate of one for every four held; the issue was guaranteed by the General Mining and Finance Corpn., Ltd., at a commission of 1s. per share, together with an option for one year over 63,125 shares at 45s. and for two years over a similar number at 50s. each.

The accounts to December 31st, 1908, submitted in Johannesburg March 12th, 1909, showed £6,931 expenditure in excess of revenue, which was distributed amongst capital accounts; liquid assets in excess of liabilities £6,941.

The accounts for year to December 31st, 1909, submitted in Johannesburg March 11th, 1910, showed £10,624 expenditure in excess of revenue which was distributed amongst the capital accounts; liquid assets in excess of liabilities £171,507.

THIS company was registered in the Transvaal in 1894, under the title of the Amatola Estate and Gold Mining Co., Ltd. In May, 1895, a reconstruction was effected under the title of Klipfontein Estate and Gold Mining Co., Ltd. In June, 1909, the undertaking of the Rand Klipfontein Co., Ltd., was acquired for 127,280 fully-paid shares, and the name changed to present title. The property now consists of the entire unproclaimed farm Klipfontein No. 172, containing 3,451 morgen, adjoining the properties of the Modderfontein B, Cloverfield and Welgedacht companies in the Heidelberg district, Eastern Witwatersrand, Transvaal. Two five compartment shafts are being sunk, and at September, 1910, had reached depths of 506ft. and 546ft. respectively. The reef is expected to be struck at 1,900ft. depth. It is proposed to develop the property until the ore reserves total some 750,000 tons, and erect a crushing plant capable of dealing with 300,000 per annum. The company holds an interest in the Kleinfontein Power Association formed to erect a generating station on the property of the Kleinfontein Estates Co.

The authorised capital is £475,000, in 475,000 shares of £1 each; 432,336 shares are issued and fully paid. The capital was increased from £200,000 to £235,000 in July, 1899, the 35,000 new shares and 25,000 shares then in reserve being offered to shareholders at par, but only 968 were taken up. In February, 1903, 24,032 shares were disposed of at 45s. per share. In June, 1909, the capital was reorganised by cancelling 111,112 shares, thereby reducing the capital to £88,888, shareholders receiving four new shares for every nine shares held, fractions being paid off at the rate of 25s. per new share. The capital was then increased to £475,000 and 127,280 allotted to acquire the Rand Klipfontein undertaking; shareholders in both companies were then invited to subscribe for

216,168 shares at 25s. each, being share for share, subscribers having an option till February 28th, 1911, over one new share at 30s. for every two shares taken up; if, however, the shares are made up at 45s. each at two consecutive settlements of the London Stock Exchange, shareholders must exercise their right within thirty days after notice by the company or such rights will be void. The issue was guaranteed by the Anglo-French Exploration Co., Ltd., and others in consideration of an option until February 28th, 1911, over 108,084 shares at 30s. each. The directors have power to increase the capital to £650,000 to provide shares under the option rights. The cash provided under the scheme, including cash in hand, amounted to £294,210, and if the options are exercised the total will amount to £618,462.

The accounts to June 30th, 1910, submitted in Johannesburg September 21st, 1910, showed cash £220,661, debtors £620; creditors £4,026; share premium account £54,042; contingent liabilities £16,401.

A share register is kept in London; transfer form, common; fee, 2s. 6d. per 100 shares or part. The 17th November, 1909, was appointed settling day in shares Nos. 1 to 432,336, and November 18th, 1909, in option certificates for 216,168 shares. Prices, 1909: highest, $1\frac{7}{16}$; lowest, $\frac{11}{16}$; 1910: highest, $1\frac{5}{16}$; lowest, $\frac{7}{16}$. Latest price, $\frac{1}{2}$, $\frac{9}{16}$.

This company was registered in the Transvaal February 22nd, 1893, to acquire and deal with various mining claims in the Witwatersrand district, Transvaal, also the Mooifontein farm of 1,294 acres, south of Langlaagte, Witwatersrand. The founders and vendors reserved the right to 25 per cent. of all profits after payment of dividends amounting to 100 per cent.; but in August, 1899, this right, which had been transferred to the Proprietors' Reserve, Ltd., was surrendered to the company in exchange for 110,903 fully-paid £1 shares. The company has dealt with a large number of claims and properties, and has received blocks of shares in subsidiary and other concerns. Properties and holdings as valued in the accounts to December 31st, 1909:—

Claims (1300-41504) and Water Rights, at cost.—£68,547.

Freehold Farms.—Mooifontein, area of 612 morgen, situate south of the farm Langlaagte, at a distance of 5,000ft. to 6,000ft. from the outcrop of Main Reef series; in anticipation of its proclamation as a public goldfield, the company has secured a mynpacht area of 217 claims and three "owners'" claims Langlaagte, area 236 morgen and Driefontein 245 morgen.—£15,558.

Freehold and Leasehold House Properties.—General manager's house, Jeppestown property, &c., £28,550.

Reservoirs.—Natal and Booysen's Spruit Dams and Pumping Plants, at cost, £171,550, for supplying water to subsidiary companies.

Shareholdings at Cost.—£3,193,033, also £18,900 debentures in Village Main Reef G.M. Co., Ltd.; the following are particulars of the holdings in the various companies:—

This company was registered in the Transvaal March 26th, 1907, to acquire and take over the entire undertakings and assets of the West Randfontein, Mynpacht Randfontein, and Block A Randfontein Gold Mining Cos.', Ltd. (*see vol. for* 1907). The property taken over comprised 477 claims on farm Uitvalfontein, West Rand, Transvaal, about 19 miles west of Johannesburg. In April, 1909, the following undertakings were acquired:—Ferguson Randfontein Gold Mining Co, Ltd., for 139,584 fully-paid shares; Van Hulsteyn Randfontein Gold Mining Co., Ltd., for 139,583 fully-paid shares; Johnstone Randfontein Gold Mining Co., Ltd., for 139,593 fully-paid shares; East Randfontein Gold Mining Co., Ltd., for 206,250 fully-paid shares. The Randfontein Estates Gold Mining Co., Ltd., received 346,250 fully-paid shares for 136 claims on Uitvalfontein and 71 claims on Waterval and in settlement of the total indebtedness of the four companies as at March 31st, 1909, and the Waterval Trust, Ltd., received 200,000 fully-paid shares in consideration for the grant of a further 25 years' lease from January 13th, 1919, to January 12th, 1944, of the entire mynpacht No. 452 on Waterval No. 74, upon which the leasehold properties of the Ferguson, Van Hulsteyn, and Johnstone Randfontein companies were situated. The total area now comprises 1,124 claims in one compact block on farms Uitvalfontein and Waterval, West Rand, Transvaal. Five shafts have been sunk and a crushing plant consisting of 600 stamps (1,650lbs. each), 16 tube mills (equal to another 300 stamps), and cyanide and slimes plant is being erected having a capacity of 160,000 tons monthly. The plant will be electrically driven from a power station situated on the southern portion of the property. Development work is in progress, and at March 31st, 1910, the ore reserves were estimated at 2,458,704 tons, of which 2,100,000 tons were valued at 7·7dwts., or 32s. 4d. per ton, over a milling width of 30 ins.; at September 30th, 1910, 3,107,779 tons, of which 2,609,031 tons were valued at 7·5dwts., or 31s. 10d. per ton over a milling width of 30ins. It is proposed to acquire the undertaking of Randfontein South Gold Mining Co., Ltd. (*See Appendix*).

The authorised capital is £2,250,000, in 2,250,000 shares of £1 each: 2,000,000 shares are issued and fully paid. The capital was increased from £1,105,000 in April, 1909, to acquire the undertakings above. To provide funds for the development and equipment of the property, a loan of £2,000,000 has been arranged with the Randfontein Estates Gold Mining Co., Witwatersrand, Ltd, upon the following terms, namely:—Interest at the rate of 6 per cent. per annum, and repayment by annual instalments commencing March 1st, 1914, and ending 1st March, 1933.

The accounts for year to December 31st, 1909, submitted in Johannesburg February 7th, 1910, showed cash (in hands of Randfontein Estates G. M. Co, Ltd.,) £1,255,337, debtors £3,175; creditors £400,118, mortgage bond in favour of Randfontein Estates G. M. Co., Ltd., £2,000,000.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 shares or part of 100. The 19th February, 1908, was appointed settling day in shares Nos. 1 to 828,750, and July 13th, 1909, in Nos. 828,751 to 2,000,000.

THIS company was registered in the Transvaal in April, 1889, to acquire 31,726 acres of land in the Western Witwatersrand district, measuring 19 miles from northern to southern boundary, and consisting of eight farms and portion of farm. Three of the farms, having an area of 15,011 acres, are proclaimed as public gold-fields—viz., Randfontein, Uitvalfontein, and Waterval; the remaining five, known as Rietfontein, Drooghenvel, Middelvlei, Gemsbokfontein, and Panvlakte, total area 16,715 acres, are unproclaimed; all the farms are freehold except Waterval, which is held on lease with full owner's rights. A large area of the estate has been planted with trees and the "Randfontein" township has been formed.

RANDFONTEIN ESTATES GOLD—continued.

The company has received as vendors large blocks of shares, and has also subscribed for various shares and debentures, and at December, 1909, held shares valued at £4,750,819; also £2,832,500 debentures.

The property still held includes 1,398 claims on the proclaimed farms, eighteen bewaarplaatsen, eight machine stands, mynpachts area 320 acres, and water rights. The Randfontein South Gold Mining Co, Ltd., is working the southern portion and the Randfontein Central Gold Mining Co., Ltd., the central portion.

The authorised capital is £3,000,360, in 3,000,360 shares of £1 each; all the shares are issued and fully paid. The capital was increased from £2,000,000 to £3,000,000 in March, 1899, 500,000 of the new shares being offered to shareholders at £3 each; in 1902, 200,000 shares were allotted to shareholders at £3 15s. each, and the remaining 300,000 were sold privately.

There are £1,999,200 six per cent. first mortgage debentures in bonds of £10 and £20 each, being balance of £2,000,000 offered to shareholders for subscription at par in February, 1909. The debentures are secured as a first charge on the assets of the company, and entitle the holder for a period of three years, from March 1st, 1909, to March 1st, 1912, to exchange into fully-paid ordinary shares of £1 each, at the rate of nine shares for each £20 debenture, or 45 shares for each £100 debenture. The debentures are redeemable at par in 20 annual instalments, commencing March 1st, 1914, the company reserving the right to redeem, at any time after March 1st, 1912, the whole or any part of the debentures outstanding at a premium of 3 per cent. upon giving not less than three months' notice. The issue was unwritten at 95; shareholders applied for £687,300, leaving the underwriters to take up the balance of £1,312,700. Debentures for £800 have been converted into shares.

A bonus distribution of one Porges Randfontein share for every five Randfontein Estate shares took place in June, 1896, and in January, 1907, shareholders received by way of dividend one fully-paid Randfontein Estates Trust, Ltd, share for every ten shares held.

The accounts for year to December 31st, 1908, submitted in Johannesburg March 29th, 1909, showed general revenue £61,250 and by dividends £22,939, and a profit of £66,599, making with balance forward £2,531,719; sundries absorbed £399, leaving £2,531,719 carried forward.

THIS company was registered October 1st, 1895, to acquire 86 claims on farm Waterval, Krugersdorp district (West Rand), about 25 miles west of Johannesburg, Transvaal. The consideration was £150,000, in fully-paid shares. The company also owns a farm on the Vaal River, equal to 1,400 claims, also 100 claims on Tweefontein in the Heidelberg District, 95 copper minging claims in the Rustenburg District and 40 gold mining claims in the Lydenburg District.

RANDFONTEIN EXTENSIONS—continued.

The authorised capital is £200,000, in 200,000 shares of £1 each; 172,140 shares are issued and fully paid, including vendors'. The accounts to January 28th, 1910, submitted July 27th, 1910, showed general expenditure £9,513; cash £5,246, loan £8,000; creditors £557.

Transfer form, common; fee, 2s. 6d. The 16th April, 1902, was appointed a settling day in shares Nos. 1 to 170,490. Latest price, $\frac{7}{8}$, 1.

Extracts from report made by Wm. C. Bowman, M.E., and dated October, 1908, upon the Tweefontein Claims,—This property comprises a block of 100 claims situated upon the farm Tweefontein, Heidelberg district, Transvaal, The property has been systematically prospected and developed, exposing three banket reefs, all three being payable, and outcropping throughout the whole of the property, they are well situated for economical working. The first or South Reef is of a width of about 20 inches, and has gold contents of from 8 to 16 dwts., and in places even 20 dwts. to the ton. The second or Central Reef has a width of about 5 feet, of a fair average value of, say, 8 to 8½ dwts. The lower part of the reef is much richer, 30 inches of this section yields 12 to 13 dwts. to the ton. The third or North Reef is well defined, of about 5 feet in width, 3 feet of which yield 9 dwts. to the ton. Incline shafts have been sunk on the South Reef, and the Central Reef can be connected with these shafts by means of crosscuts. Incline shafts have also been sunk on the North Reef. Water is abundant on the property. Coal is within five miles of the claims. The railroad runs within five miles of the claims, and is connected by good roads. In conclusion, owing to the great reduction in the working cost of the Witwatersrandt Mines, 15s. 6d. per ton should cover the working costs including development, and taking into consideration the known values, I consider that this is one of the best and safest ventures that I know of in the Witwatersrandt.

Extract from report made in August, 1908, by G. E. Regis, M.E., the General Manager, upon the Vulcan Copper Mine, situated on the farm District Hoeck, Rustenburg district, Transvaal.—The outcrop of the lode is very prominent and massive, forming a ridge which can be seen several miles distant. Ancient workings are very numerous. The width of the lode is from 45 feet to 75 feet, formed by quartz veins that are running through and across a doloritic body of rock, in a net form practically. The dip of the lode is practically vertical, with a slight tendency to the south. Deep trenches have been dug across the lode to expose the formation. The lode was found to be nearly 75 feet wide, and an average sample taken and assayed from the surface rock only, gave the result of 3·60 per cent. of pure copper. Near one of the cuttings a shaft has been sunk 30 feet deep on the middle of the lode. A sample of ore taken from the rock mined gave a return of 6·78 per cent. of pure copper. From all the ancient workings waste rock dumps ore can be taken which assay from 1 per cent. to 3 per cent. of copper. Water has been found on the property, and wood is very plentiful, and I am informed that coal can be had 18 miles east of the farm. Considering the enormous body of ore that can be dealt with, I do not hesitate to say that the District Hoeck Farm will turn out a very good copper-producing industry, equal, if not better, to the Cape Copper Mines of Namaqualand.

THIS company was registered in the Transvaal March 15th, 1895, as the Robinson Randfontein Gold Mining Co., Ltd., to acquire from the Randfontein Estates Gold Mining Co., Witwatersrand, Ltd., and others, a block of 277 claims on the farm Uitvalfontein, Western Witwatersrand, Transvaal. The purchase consideration was £450,000, in fully-paid shares. A portion of the property was afterwards resold to the Block A Randfontein Gold Mining Co., Ltd., for £400,000 in fully-paid shares.

In July, 1909, the name was changed and the undertakings of the following companies acquired: Porges Randfontein Gold Mining Co., Ltd., for 500,000 fully paid shares; South Randfontein Gold Mining Co., Ltd., for 301,000 fully paid shares; Stubbs Randfontein Gold Mining Co., Ltd., for 174,000 fully paid shares; North Randfontein Gold Mining Co., Ltd., for 495,000 fully paid shares; also 123 reef claims from the Randfontein Estate Gold Mining Co., Ltd., for 200,000 fully paid shares. The property now comprises 1,026 claims held under Mynpacht, and claim title, situate on farms Randfontein and Uitvalfontein, Randfontein district, Transvaal. For amalgamation scheme, *see Appendix*.

Crushing commenced October, 1897, with a 60-stamp mill and cyanide works, and a further 40 stamps, making 100, also three tube mills were added. On the acquisition of the above mentioned undertakings in July, 1909, a further 300 stamps and tube mills were acquired, making a total of 400 stamps, 13 tube mills and cyanide plant, with a capacity of 1,120,000 tons per annum; this is to be enlarged by the addition of a further 160 stamps and tube mills, which will

bring the crushing capacity up to 1,600,000 tons per annum. Estimated ore reserves at December 31st, 1908, 2,450,329 tons, value 8·4dwts. per ton; at December, 1909, 2,683,233 tons value 7·8dwts. per ton over 30 inches; at September 30th, 1910, 2,717,795 tons. For 1909, 1,121,224 tons yielded £1,564,136; profit £519,042 or 9s. 3·11d. per ton. For 1910 1,168,641 tons yielded £1,625,005; profit £542,750. For crushings *see table at commencement of volume.*

The authorised capital is £2,250,000, in shares of £1 each; 2,000,000 shares are issued and fully paid. The capital was originally £600,000 in £1 shares and 450,000 fully-paid shares were allotted to the vendors and 124,500 were sold at a premium, realising £133,875. In July, 1909, the capital was reduced to £330,000, shareholders receiving 11 for every 20 shares held; it was then increased to present amount and 1,670,000 shares issued to acquire the undertakings as above.

There are £832,500 five per cent. debentures (part of £975,000) issued during 1903 by the Porges, South, North and Robinson Randfontein Companies, repayable by ten annual instalments, commencing January, 1910, or at company's option at any time at 103 per cent upon giving six months' notice. THIS company was registered August 19th, 1910, and is a reconstruction of a company of the same name registered November 30th, 1904. The company owns 1,690 claims known as Rhodesia Broken Hill, North Western Rhodesia, about 374 miles from the Victoria Falls, also an area of 35 square miles surrounding the Broken Hill property. There are within the area a number of kopjes, principally composed of lead and zinc ores, which present distinct metallurgical problems. Development work has been chiefly directed to Nos. 1 and 2 kopjes. No. 1 kopje reaches a height of 65ft., and covers an area at ground level of 62,000 square feet. It is estimated that there are in sight above water-level about 140,000 tons of ore. The deposit has been proved by boreholes to a depth of 100ft. from the surface. The average assay value of the ore already exposed is 26·08 per cent. lead and 22·27 per cent. zinc. The height of No. 2 kopje is about 90ft. It contains large bodies of zinc ores associated with iron ores and limestone and small quantities of lead. It is estimated that from 300,000 to 320,000 tons of ore are already exposed; average assay value about 32 per cent. zinc. The question of ore treatment is under consideration, and it is proposed to form a company to acquire the Rhodesian rights of the Bradley-Williams Ore Treatment Co., Ltd.; one half the capital of the proposed new company to be subscribed by the Rhodesia Broken Hill Development Co., Ltd.

The authorised capital is £350,000, in 1,400,000 shares of 5s. each; 625,000 shares are issued and fully paid, including 500,000 credited as fully paid and 125,000 taken up at par in August, 1910. 250,000 shares are under option at par to September, 1912. Transfer form, common; fee, 2s. 6d.

THIS company was registered in Rhodesia July 10th 1909, and is a reconstruction of a company of same name registered in Rhodesia July 27th, 1903, (*see vol. for* 1909). The properties comprise mining claims in the Mazoe and Abercorn districts of Rhodesia, about 506,435 acres of land; 33 town stands in Bulawayo, Salisbury, New Umtali and Victoria; shares, &c. In addition the company owns 150 claims (copper mining), near Headlands, south-east of Salisbury, also the right under certain conditions to resume possession of a further 142,000 acres. In February, 1910 the company floated the Insiza Mines, Ltd., to acquire and work the Nelly Mine and owns the entire issued capital. A large interest is held in the Falcon Mines, Ltd., Sabi Gold Mining Co., Ltd., Mazoe Mines, Ltd. and Zambesia Copper Co., Ltd. The copper properties are being developed with a view to flotation. In addition to the above, the mining assets of the Salisbury Synd. have been acquired for £53,000 cash, 65,000 fully-paid shares in Falcon Mines, Ltd., and 300,000 Rhodesia Consolidated shares credited as 1s. paid. The property taken over comprised 260 mining claims in Rhodesia, amongst which is the Athens Mine; this property is to be sold to the Falcon Mines, Ltd., for 65,000 fully-paid shares in that company.

The authorised capital is £700,000, in 1,400,000 shares of 10s. each; 1,094,675 shares (£547,387 10s.) are issued; 94,675 being fully paid and 1,000,000 credited

as 7s. 6d. paid and 2s. called making 9s. 6d. paid. Shareholders were offered one share credited as 7s. 6d. paid for every old fully paid share held. Debenture-holders (£78,890 issued) agreed to accept 40 per cent. in cash and 60 per cent in fully-paid shares. The subscription of £70,000 was guaranteed by the Share Guarantee Trust, Ltd., for a commission of six per cent. The capital was increased from £550,000 in December, 1910.

Transfer form, common; fee, 2s. 6d. The 17th November, 1909, was appointed settling day in shares Nos. 1 to 1,094,675, and March 31st, 1910, in Nos. 850,001 to 1,000,000. Latest price, 8s. 6d., 9s.

Additional particulars officially supplied:—Among the properties either owned or controlled by Rhodesia Consolidated, Limited, are:—The Falcon Mine, which now includes the adjoining Atheus Mine, and promises to become one of the largest and most important mines in Rhodesia. (*See page* 263.) In the Darwin district of Mashonaland the Company owns 520 claims, and in addition has secured options to purchase another 500 claims. In one set of claims at the first level across the face of a drive, a value is shown of between 5 and 12 dwts. of gold. The Headlands Copper properties consist of 150 claims, and 24,000 tons have already been developed of a value of £48,000. The Sabi claims on which excellent results have recently been reported, have been sold to Messrs. Lewis & Marks at a price showing a large profit to the Company. The Company holds a large interest in Mazoe Mines, Limited, which owns some 50 claims in the Mazoe District, and on which active development is proceeding with excellent results. The Company has a substantial interest in the Zambesia Copper Company, Limited, which owns or has options on a number of copper properties near the Zambesi, a short distance north of Tete. A shipment to Europe of 25 tons of ore raised from one of these properties during development returned 9 per cent. of copper. This property is within a few miles of large coal measures, and near a navigable tributary of the Zambesi. Active work is now in progress. In addition to the mining assets referred to above the Company has over 400 other claims, including the "Ajax" in the Abercorn district on which extensive development is now taking place. Another asset of the Company is its very important land holding, amounting to 506,435 acres of well selected agricultural and pastoral land and 33 building stands in Salisbury, Bulawayo, &c.

shares. The agency business carried on by the Gold Fields of Matabeleland, Ltd., in Rhodesia, has also been acquired. In 1903, the assets of the Filabusi (Charterland) Goldfields, Ltd., were purchased for 1,000 shares. In December, 1906, it was decided to extend the company's operations outside Africa. In September, 1910, the following undertakings were acquired; Rhodesian Banket Co., Ltd., for 288,801 fully-paid shares; Etna Development Co., Ltd, for 96,759 fully-paid shares; Rhodesian Abercorn Shamva Trust Co., Ltd., for 204,953 fully-paid shares; and the Gold Schists of Rhodesia, Ltd., for 203,455 fully-paid shares. The F.S.A. Synd., Ltd., L. & J. Synd., Ltd., and London and Johannesburg Trust, Ltd., were also absorbed. The properties now held comprise 3,400 mining claims, about 640,000 acres of land, building stands in Salisbury, Buluwayo and Tati, and large share interests in the Shamva Mines, Ltd., Eldorado Banket, Antelope, Cam and Motor, Bell Reef Development, Athens Rhodesia Development, Gaika, Thistle Etna, Selukwe Columbia and other companies. Development work is in progress on the Schists properties in the Enterprise district, about 25 miles from Salisbury, work being chiefly concentrated to the opening up of the Slate, Arcturus and Grand Mines, and the Homestead and Ct'njie claims. The Ayrshire mine is under examination. Work is also being carried on at the Skipper copper property, situate near the Gaika mine, and also on the Honey Bird claims, in the Hartley district.

The authorised capital is £2,000,000, in 2,000,000 shares of £1 each; 1,567,495 shares are issued and fully paid. The capital was formerly £100,000; 16,411 reserve shares were offered to shareholders in 1898 at £5 5s. each, and 1,532 were sold at £5 1s. 9d. The capital was increased to £150,000 in 1899, and to 175,000 in 1901; 25,000 shares were issued to shareholders at £4 10s. each in 1900, and 27,135 at £4 10s. in 1901. In 1902 the capital was increased to £225,000, the 50,000 new shares being offered to shareholders at £5 each; and in 1904 increased to £252,000; in 1906 to £257,000; in 1908, to £280,000; in 1909, to £300,000; and to £450,000 in October, 1909, 50,000 shares being offered to shareholders at £2 5s. each, subscribers having an option over one further share at £2 10s. for two years; the issue was guaranteed by Sir Abe Bailey, in consideration of a call for two years over 50,000 shares at £2 10s. each. The capital was increased to present amount in September, 1910, and 860,821 shares issued credited as fully paid, to acquire the undertakings as above, and in October, 1910, in accordance with the terms of amalgamation, shareholders were invited to apply for one new share at £2 5s. in respect of every five shares held, the issue being guaranteed by Sir Abe Bailey, free of commission.

Dividends paid: for year 1899-0, 10 per cent. in cash and 40 per cent. in fully-paid shares of the Bulawayo Market and Offices Co., Ltd., distributed February, 1900; for year 1901-2, 10 per cent. in cash and 25 per cent. in fully-paid shares of Gatling Hill Co., in February, 1902, and five per cent. in December, 1902, making 40 per cent. for year; for 1902-3, 20 per cent. in cash and 25 per cent. in fully-paid shares of the Bulawayo Market and Offices Co., 1903-4 to 1907-8, nil; 1909, 15 per cent.; 1910, 20 per cent. (10 per cent. June and 10 per cent. January, 1911).

This Company was registered in Rhodesia July 10th, 1909, and is a reconstruction of a company of same name registered in Rhodesia, February 14th, 1905 (*see vol. for* 1909). The company owns 80 gold mining claims in the Hartley district, 80 in the Umtali district, 40 in the Mazoe district, 30 in the Abercorn district, and 56 in the Gatooma district, all in Southern Rhodesia. Options have been acquired over 50 claims in the Mazoe district, 100 claims in the Abercorn district, 20 claims in the Gwelo district, 134 in the Salisbury district, 340 in the Gatooma district, Rhodesia, and also over a concession of a large gold bearing area known as Muende and containing 75 gold mining claims situated about four miles from Chifumbazi in Portuguese East Africa. The Turk

claims in the Hartley district and the Elgin claims in the Umtali district are let to and are being worked by tributees. Negotiations are in progress for leasing the Bodlonfa claims in the Umtali district on tribute.

The company has sold to Shamva East, Limited, 38 claims in the Abercorn district (adjoining the Shamva mine) for £80,000, payable wholly in fully-paid shares. The company also holds numerous share interests in various other companies.

The authorised capital is £200,000 in 400,000 shares of 10s. each; 241,930 shares are issued and fully paid. Shareholders were offered one new share credited as 5s. paid for every old fully-paid 10s. share held. In August, 1909, shares not taken by the shareholders were offered for sale by tender by the liquidator of the former company.

Transfer form, common; fee, 2s. 6d. The 1st June, 1910, was appointed settling day in shares No. 1 to 136,000, and an application is being made for a settlement in the balance of the shares allotted since 1st June. Latest price, 9s., 10s.

Additional particulars officially supplied:—Operations are being conducted by the Company on the following properties. The Mangwe (40 claims) in the Mazoe district, is a promising property with a good and almost continuous line of old workings for about 900 feet in length. Six shafts have been sunk to water level with good results, and some 500 feet of strike exposed. It is now intended to erect steam plant for the development at the lower levels. The values obtained in development vary from 4¼ ozs. over 12 inches at No. 3 shaft to 3 dwts. over 20 inches, the average assay value being 10 dwts. over 24 inches. Cachara (50 claims) is 200 yards north of the Mangwe, which it parallels, and carries a strong quartz lode enclosed in granitic rock, the strike having been proved by four shafts and various trenches for about 1,000 feet, whilst the ancient workings extend very considerably beyond this. Developments show that the gold, as in the case of the neighbouring "Hay" Mine, occurs in the granite also, and generally the property shows every promise of proving a valuable one, the values obtained in the, at present, shallow workings averaging 15 dwts. over 26 inches. A steam plant for development in depth has been authorised and will soon be in position. The "Giantess" and "Marigold" (134 claims within three miles of Salisbury) on which development work has been carried by means of several shafts to the 100 feet level, show ore widths of from 12 to 30 feet and assays up to 23 dwts. Both properties are expected to develop large bodies of good grade ore. A pumping and hauling plant is in course of erection. The "Fintry" group (170 claims) in the Gatooma district shows a length of strike of which over 1,000 feet has been proved, averaging 18 dwts. of gold per ton; also in the same district the "Rouge Schists" (170 claims) which is surrounded by gold-bearing schist claims owned by other leading Rhodesian mining houses. The Muende claims which are being developed under the supervision of a resident mining engineer, according to the most recent information, give an assay value of 33 dwts. over 8 feet of lode, and there are some 40,000 tons of ore at surface available for treatment from the fallen-over outcrop estimated to have a value of 6 dwts. gold per ton. The London Reef (20 claims) in the Gwelo District is also being developed, and a hauling and pumping plant has been erected.

THIS company was registered in the Transvaal in 1887, to acquire a lease of a portion of the farm Turffontein, Witwatersrand, with a mynpacht of about 220 acres on the Main Reef. In 1889, the property of the Kambula Syndicate, comprising six Main Reef claims and 100 acres of the mynpacht was acquired for £15,500 in cash and 3,375 shares of £1. In 1891, the company acquired the freehold of the mynpacht for £15,000. In 1893, 30 southern claims were acquired for £120,000 cash. In 1898, 6·16 claims were sold to the Robinson Central Deep Ltd. (now Crown Mines), for 45,089 fully-paid shares and the right to subscribe for 15,030 shares at £2. During 1909 freehold rights over 6·2 claims were acquired from the Paarl Ophir Gold Mining and Milling Co., Ltd., for 4,300 fully-paid Crown Mines shares. The extent of the property is now 127 claims. Arrangements have been made with the Rand Mines Power Supply Co., Ltd., for the supply of electrical energy and compressed air.

Up to April, 1889, 10 stamps were working; 30 were then added, and a further 20 in 1891, 10 in 1894, 50 in 1895, 20 in 1898, 60 in 1902, 10 in 1905, and 40 in 1909, making 250 in all; cyanide and slimes works and five tube mills are also erected. During 1909, 550,176 tons yielded £1,286,048, or 46s. 9d. per ton; profit £940,911, or 34s. 2d. per ton; costs 12s. 6d. per ton. During 1910 638,900 tons yielded £1,326,696; working profit £936,783. For crushings *see table at commencement of volume*. Ore reserves at December 31st, 1908, 2,788,362 tons, value 11·3dwts. per ton (Main Reef Leader and South Reef) and 1,856,014 tons, value 4·7dwts. (Main Reef); at December 31st, 1909, 1,945,243 tons, value 11·3dwts. per ton (Main Reef Leader and South Reef) and 400,000 tons in upper levels on both reefs, also 2,763,972 tons, value 4·4dwts. (Main Reef).

Estimated life, treating 650,000 tons yearly, 11 years from January, 1911.

The authorised capital is £2,750,000, in 550,000 shares of £5 each; all the shares have been issued and are fully paid. The capital was originally £50,000 in £1 shares, 45,000 being allotted to the vendor as purchase consideration; in February, 1889, the capital was increased to £53,375, the 3,375 new £1 shares being allotted to the Kambula Synd., as above. A few days later the capital was increased to its present amount in £5 shares, shareholders receiving ten fully-paid shares of £5 each for every £1 share; 10,000 shares were sold at par in August, 1889, and the remaining 6,250 were sold at par in February, 1894.

This company was registered in the Transvaal June 15th, 1895, and owns 189 main reef claims on the farm Roodepoort, No. 43, nine miles west of Johannesburg, Transvaal, adjoining the property of the Durban Roodepoort Deep, Ltd., with water rights equal in area to 16 claims. The consideration was £124,806. The main reef and the south reef underlie the whole area, and at December, 1909, the main reef remained intact, but the south reef was worked out in 48 claims, leaving 141 intact. The main reef which underlies the south reef at a depth of 90 ft. is being tested by means of boreholes. It is proposed to sell the undertaking to the Princess Estate and Gold Mining Co., Ltd. (*see that company*).

A 50-stamp mill and cyanide plant are erected. Crushing commenced May 1899; after the war crushing was resumed in December, 1902. During 1909, 103,962 tons yielded £158,849; profit £31,166, or 6s. per ton; during 1910 94,578 tons yielded £129,654; estimated working profit £8,331. For crushings *see table at commencement of volume.* Ore reserves at December, 1908, 281,852 tons, value 7·9dwts. per ton, and 15,305 tons, value 5·4dwts.; at December, 1909, 288,009 tons, value 7·6dwts. per ton, and 18,646 tons, value 5·3dwts.

Estimated life, south reef only, treating 105,000 tons yearly, about 11 years from January, 1911. Prospects will be greatly enhanced if Main Reef is made payable.

The authorised capital is £325,000, in 325,000 shares of £1 each; all the shares are issued and fully paid; 100,000 shares were subscribed at par, 30,000 were issued to shareholders at £2 15s. each in 1899 (guaranteed by A. Goerz & Co., Ltd., for 2s. 6d. per share), and 44,018 at £2 15s. each in 1902, and 15,610 shares were taken up at par by A. Goerz & Co., Ltd., in June, 1909.

There were £150,000 six per cent. first mortgage debentures issued at par to A. Goerz & Co., Ltd., in November, 1898, shareholders having the right to subscribe *pro rata* at 105 per cent.; interest payable January 2nd and July 1st, and bonds redeemable at 110 per cent. by twelve annual drawings, commencing January, 1901, for redemption in July. Owing to conversion into shares (option now expired) and redemption, debentures have been reduced to £25,280, and a further £12,300 have been drawn for redemption on July 1st, 1911. At December, 1909, there were loans amounting to £5,049, the lenders, A. Goerz & Co., Ltd., agreeing to advance further sums up to £50,000 (including interest); the loans are subject to three months' notice on either side.

The accounts for year ended December 31st, 1908, submitted in Johannesburg March 24th, 1909, showed gold receipts £166,068 and a profit of £37,599, making with balance forward and sundry revenue a sum of £63,457; written off depreciation £14,295, taxes, debenture interest, premium on debentures redeemed, etc., absorbed £8,590, leaving £40,572 carried forward.

The accounts to December 31st, 1909, submitted in Johannesburg March 23rd, 1910, showed gold receipts £158,849 and a profit of £31,166, making with balance forward and sundry revenue a sum of £72,833; written off depreciation £14,574

This company was registered in Pretoria in 1887, to acquire 54 main reef claims on the farm Roodepoort No. 153, Western Witwatersrand. The purchase consideration was £56,000. In July, 1895, a portion of the adjoining property of the Evelyn and East Roodepoort Companies, comprising 37 claims (26 on the reef), was acquired from the Claim Trust, Ltd., for 20,000 fully-paid shares. In 1898, the company acquired for 100,000 fully-paid shares, the property of the Roodepoort Deep, Ltd., comprising 50 claims, adjoining the Roodepoort United's central block, detached blocks of 82 deep level claims (*since sold see below*) and 23 water-right claims on the deep levels, together with about £32,000 cash, and a 40-stamp mill with the usual equipment. In February, 1909, the property of the Roodepoort Gold Mining Co. was acquired for £153,300 cash and 52,200 fully-paid shares. The area acquired comprised 450 claims (340 reef-bearing), also the freehold on which the claims were situated. During 1910, the deep-level claims were sold to the New Steyn Estate Gold Mines, Ltd., for £18,000 cash.

Summary of Property.—The company's mine contains the outcrop of the main reef series, and is situated on the farm Roodepoort No. 153, nine miles from Johannesburg, in the western section of the Witwatersrand Goldfields, and consists of 604 claims, of which 465 are reef claims; also water rights and bewaarplatsen, equal to 79 mining claims. The main reef series which underlies the whole of the claims consists of the main reef, main reef leader and south reef. The south reef is the chief producer. The main reef has, however, been largely opened up during past year, and about 33 per cent. is now being crushed. The Main Incline shaft on the Roodepoort Gold property has been widened from three to five compartments and a new shaft is being sunk on the eastern portion. (*See plan on opposite page.*)

Crushing commenced in 1888 with 20 stamps, in 1892, 10 were added, a further 20 in November, 1894, and 20 in September, 1895, making 70 in all, with cyanide plant; an additional 40-stamp mill (since rebuilt) was acquired with the Roodepoort Deep property. After the war crushing was resumed in May, 1902. The full complement of 110 stamps and two tube mills, also cyanide and slimes plant (which are erected on the old property) were at work up to August, 1910, when the new mill (which has been erected on the new property acquired in 1909) consisting of 100 stamps (1,900 lbs. each), five tube mills and cyanide plant, started work. The plant is driven by electrical power supplied by the Victoria Falls and Transvaal Power Co. Ltd. During 1909 212,197 tons yielded £313,628; profit £97,425 or 9s. 2d. per ton. During 1910 250,642 tons yielded £268,679; estimated profit £32,532. For crushings *see table at commencement of volume.* Payable ore reserves at December, 1908, 278,900 tons, value 9·1dwts. per ton; at December, 1909, 312,300 tons, value 7·7 dwts. per ton.

The authorised capital is £460,000, in 460,000 shares of £1 each; all the

and four tube mills. On the acquisition of the Glen Deep, Ltd., undertaking in November, 1909, a further 100 stamps, three tube mills, &c., were acquired, the reduction plant now consisting of 300 stamps, seven tube mills and cyanide and slimes plant with a capacity of 765,000 tons per annum. A contract has been made with the Rand Mines Power Supply Co., Ltd., for the supply of electrical and compressed air power for a period of twenty years from December, 1910, or for the life of the mine should it be less. During 1909, 472,800 tons, yielded £617,810; working profit £248,522 or 10s. 6·1d. per ton. During 1910, 756,500 tons yielded £934,153; estimated working profit £315,185. *For crushings see table at commencement of volume.* Estimated ore reserves at December 31st, 1909, 3,496,265 tons, value 6·2dwts. per ton, also 501,880 tons, value 2·7dwts.

Estimated life of property treating 765,000 tons yearly, 12 years from December, 1910; this will be extended by the profitable mining of ore at present below the limit of payability.

The authorised capital is £700,000, in 700,000 shares of £1 each; all the shares are issued and fully paid. The capital was originally £400,000; 100,000 shares were subscribed by vendor companies, 25,000 were issued to shareholders in March, 1895, at £4 5s. each, and 45,000 in August, 1897, at £4 10s., the latter issue being guaranteed at £4 5s. In August, 1898, the capital was increased to £425,000, and the 25,000 new shares were offered to shareholders at £6 5s. each, the issue being guaranteed at £6. The capital was increased to present amount in December, 1909, to acquire the undertaking of Glen Deep, Ltd. During June 1910, 5,000 shares were sold for £21,250.

Dividends declared (paid in London about seven weeks after declaration): for 1898, 40 per cent.; 1899, 40 per cent.; 1902, 10 per cent.; 1903, 22½ per cent. 1904, 30 per cent.; 1905, 25 per cent.; 1906, 20 per cent.; 1907, 27½ per cent.; 1908, 37½ per cent.; 1909, 50 per cent. (25 per cent. June 16th, and 25 per cent. December 10th, 1909); 1910, 40 per cent.; (20 per cent. June 17th and Dec. 14th).

The accounts for year ended December 31st, 1908, submitted in Johannesburg March 16th, 1909, showed gold receipts £557,407 and a profit of £208,132, making with balance forward and sundry revenue a sum of £257,157; dividends absorbed £179,375, expended on capital account £4,083, taxes £16,046, leaving £77,653 carried forward, being cash and cash assets in excess of liabilities.

The accounts to December 31st, 1909, submitted in Johannesburg March 16th, 1910, showed gold receipts £617,810 and a profit of £254,034, making with balance forward and £65,453 cash taken over from Glen Deep, Ltd., a sum of £397,141; dividends absorbed £280,000, taxes £20,424, amalgamation expenses £15,024, expended on capital account £853, to reserve gold £11,011, leaving £69,830 carried forward.

THIS company was registered in Natal in 1886, to work 6½ claims on the Main Reef, Turffontein, Witwatersrand, Transvaal. In January, 1890, the company acquired the Empress Block of 8½ claims on the south dip, for £110,000 in shares. In 1892 the second deep-level claims, known as the Gem Block, were purchased for £20,000. The company acquired a half-interest in a block of 35 deep-level claims

SALISBURY GOLD—continued.

upon the surface of which the joint battery of this company and the Jubilee Co. is erected; on the 18th August, 1898, it was resolved to sell this half-interest (except surface rights) for 33,312 fully-paid shares of the Village Main Reef Co. On the 25th October, 1898, it was resolved to purchase 5½ claims from the Jubilee Co. for £10,000 cash and 8,000 of the Village Main Reef shares received as above. Another property, known as the Klipriversberg freehold mynpacht, held jointly with the Jubilee Co., was sold to the South City, Ltd. (now City Deep, Ltd.), this company receiving 20,139 fully-paid South City shares for its half-interest. The company now owns, in addition to its outcrop property of 18¼ claims, a half-interest in a further 23 deep-level claims freehold on Klipriversberg, two claims and a water right equal to four claims on Wemmer Pan, and 3½ claims water right and bewaarplaatsen south of Meyer and Charlton property.

Crushing commenced in October, 1887, and the company has now 60 stamps (forming three-fifths of a joint battery owned by this company and the Jubilee Co.), also cyanide and slimes plant. During 1908-9, 91,330 tons yielded £102,476; costs 15s. 2·5d. per ton; during 1909-10, 95,057 tons yielded £96,293; costs 20s. 4d. per ton. Estimated ore reserves at June 30th, 1909, 233,070 tons; at June 30th, 1910, 162,289 tons. For crushings *see table at commencement of volume.*

Estimated life, four years from January, 1911. A three-eighths interest in the Claremont Mines (Rhodesia), Ltd., is held (*see that company*).

The authorised capital is £140,000, in 140,000 shares of £1 each; 135,000 shares are issued and fully paid. The capital was increased from £15,000 to £22,000 in March, 1888, from £22,000 to £25,000 in February, 1889, and further increased in January, 1890, to £400,000, when the Empress property was acquired, holders of the 25,000 shares then receiving 250,000 new shares, or ten for each share held. Further allotments increased the number of shares issued to 352,500. In June, 1891, the capital was reduced to £100,000, shareholders receiving one new share for every five held, and 20,000 new shares were offered to shareholders at £2 each. In 1894, 5,900 reserve shares were sold at a total premium of £8,576. THIS company was registered July 2nd, 1894, to acquire and develop the territory lying between the Shashi and Macloutsie Rivers, Rhodesia, over 4,000 square miles in extent, known as the "disputed territory." The necessary permission to commence prospecting has not been obtained from the Colonial Office and, in consequence, work has not yet commenced. The British South Africa Co. has agreed to find all working capital, and receives half the net profits.

The authorised capital is £500,000, in 500,000 shares of £1 each; all the shares have been issued (credited as fully paid) in equal proportions to the Bechuanaland Exploration Co., Ltd., the Exploring Co., Ltd. (since wound up), the United Concessions Co., Ltd. (now merged in the British South Africa Co.), and the holders of a concession from King Lobengula of Matabeleland. The accounts to December 31st, 1909, submitted February 11th, 1910, showed general expenditure £60; creditors £60. Transfer form, common; fee, 2s. 6d.

THIS company was registered in the Transvaal July 4th, 1904, and is a reconstruction of a company of same name registered in London October 18th, 1887 (*see vol. for* 1904), to take over the property of the Sheba Reef Gold Mining Co., Ltd., of Barberton, South Africa, consisting of 20 claims, situated in the Lydenburg district of the Transvaal, and about 160 miles west of Delagoa Bay. In October, 1889, the company took over 12 adjoining claims from the Sheba Low Level Gold Mining Co., Ltd., for £10,000 in cash and £10,000 in fully-paid shares. In August, 1893, the company purchased the adjacent property of the Oriental and Sheba Valley United Gold Mining Co., Ltd., consisting of 65 claims and a steam tramway, for £150,000 in fully-paid shares, and at the same time certain dip claims adjoining were acquired from Messrs. Lewis and Marks for £50,000 in shares. In May, 1894, the adjoining Edwin Bray claims, seven in number, were acquired from the Edwin Bray Gold Mining Co., Ltd., for £26,580 in cash and 9,684 fully-paid Sheba shares. In January, 1897, the Zwartkopje and other blocks, in all 173 claims, adjoining the Sheba mine, were acquired, the consideration being £175,000 in fully-paid shares. A further 62 claims were acquired in 1905 for £9,331. In 1907, an additional 10 claims were acquired for £1,000, also one-half undivided interest in the Woodbine property, comprising 33 claims, 20-stamp mill, &c., on Moodies Concession, De Kaap Goldfields, Transvaal, and formerly the property of the Woodbine Gold Mining Co., Ltd. (*see vol. for* 1905). During 1909, a half-interest in the Rosetta block of claims also on Moodies Concession was acquired for £1,500; the Woodbine machinery is erected on this property and crushing commenced in June, 1910. During 1910 a further 48 claims were pegged out. Properties now owned by the company:—

Sheba, 21 claims; Sheba Low Level, 12 claims; Oricntal, 8 claims; Oriental Deep Level, 8 claims; Edwin Bray, 7 claims; Golden Quarry Deep Level, 5 claims; Nil Desperandum and Nil Desperandum North, 32 claims; Annie's Fortune and Agatha East and West Blocks, 24 claims; Cocking's Blocks, Nos. 1, 2 and 3, 33 claims; Annie's Fortune West Blocks, Nos. 1, 2 and 3, 30 claims; I X L Block, No. 1, 12 claims; and I X L Block, No. 2, 12 claims; Zwartzkopje Blocks, 126 claims; Zwartzkopje Deep Level, 12 claims; Glenifer, 6 claims; Southern Cross, 16 claims; Phœnix Block, 9 claims; Art Block, 17 claims; Primrose Block, 24 claims; Science Block, 13 claims; Golden Vein Extension Block, 8 claims; Kallikrates, 6 claims, Tit Bits and Homestead, 10 claims; Last Hope, 17 claims; Jack's Dream, 3 claims; and Sheba North-East, 28 claims; total, 499 claims, also half interest in the Rosetta claims (as above).

Crushing was commenced (by the old company) in 1886. The company has now 120 stamps working, also cyanide, chlorination and slimes plants. After the interruption caused by the war, crushing was resumed in August, 1902. For 1907-8, 90,650 tons, average 6·53dwts. per ton; working costs 23s. 7d. per ton. For 1908-9, 96,100 tons, average 6·1dwts. per ton; working costs 23s. 3d. per ton. For 1909-10, 40,750 tons, average 8·8 dwts. per ton; working costs 25s. 11d. per ton. For crushings *see table at commencement of volume.*

The authorised capital is £1,200,000, in 1,200,000 shares of £1 each; 1,078,954 shares are issued and fully paid.

The issued capital of the former company was £1,079,300 in fully-paid £1 shares, also £168,550 debentures; for each share held, one new share credited as 14s. paid was offered, and of the liability of 6s. the final call of 1s. was made payable February 21st, 1905; the scheme included the paying off of the debentures in cash. This company was first formed in the Transvaal in 1887 as the Simmer and Jack Gold Mining Co., Ltd., and acquired 36 main reef claims on the farm Elandsfontein, No. 11, Witwatersrand; also a freehold estate on the same farm, including the township of Germiston; further claims acquired made a total of 334. In 1894, the company purchased from the Consolidated Gold Fields of South Africa, Ltd., for 98,000 fully-paid shares, a further 534 deep-level claims, comprising the South Simmer Consolidated, Salmon, and Block Victoria. In 1895, portions were sold for 145,505 fully-paid Simmer and Jack East shares, 90,897 Simmer and Jack West shares, 93,070 Rand Victoria shares, and 30,000 Rose Deep shares. The company was then reconstructed and registered in the Transvaal March 19th, 1896, under the present title. In 1898, 148 claims were sold to the South Geldenhuis Deep, Ltd., for 237,000 fully-paid shares, and 103 claims to the South Rose Deep, Ltd., for 160,037 fully-paid shares. The company now owns 624·27 claims, of which 246 are situated to the north of the outcrop, six water rights, and the freehold estate of about 2,680 acres and townships of Germiston and North Germiston, and two-thirds interest in West Germiston and East Germiston townships, also seven machine stands (five of which are leased to the Victoria Falls Power Co., Ltd.) and four diggers' stands (three of which are let). The mining rights of 3·4 claims and the surface rights of 11·5 claims have been leased to the New Primrose Co.

Crushing commenced in September, 1888, and up to August, 1890, 25 stamps, and from then to February, 1891, an average of 90 stamps were at work; from March 1st, 1891, 100 stamps were working until 1897, when the old mill was closed down, and in November, 1897, a new mill of 140 stamps was started, a further 140 new stamps being added by January, 1899, and 40 since, making 320 stamps in all, with cyanide and slimes plant, also six tube mills. Crushing was suspended in October, 1899, owing to the war, and resumed in April, 1902. During 1908 9, 831,040 tons yielded gold value £1,234,724; profit £694,186 or 16s. 8·4d. per ton; costs 13s. 0·1d. per ton; during 1909-10, 821,400 tons yielded gold value £1,080,459; profit £555,529 or 13s. 6·3d. per ton; costs 12s. 9·3d. per ton. For crushings *see table at commencement of volume.* Ore reserves at June 30th, 1909, 2,500,000 tons, value 6·5dwts; at June 30th, 1910, 2,690,000 tons value 6·3dwts. per ton.

In addition to the above the company held British Government securities value £47,783, and sundry South African and miscellaneous securities £15,225, value of the quoted portion, the remainder having no market quotation; also a small interest in two unfloated South African properties.

The authorised capital is £1,000,000, in 500,000 preference and 500,000 ordinary shares of £1 each; all the shares are issued and fully paid. The preference are entitled to a cumulative dividend of 6 per cent. per annum, with no further participation in profits; they rank in priority for return of capital. There are debentures, as below.

The capital was formerly £250,000 in ordinary £1 shares, of which 170,000 were issued credited as fully paid to shareholders in the old company, in the proportion of 1½ for every two ordinary old shares (10s. paid), and three for each fully-paid old founder's share; the purchase of the Mines Trust, Ltd., absorbed a further 42,637, the balance being subsequently allotted. In January, 1895, the capital was increased to £500,000 by the creation and issue of 250,000 preference shares, 125,000 of which were offered for public subscription in January, 1895. In July, 1900, the capital was increased to present amount; the 250,000 new preference and 150,000 of the new ordinary shares were issued (fully paid) as consideration for the Trust Français undertaking as above, and the remaining 100,000 new ordinary were offered to ordinary shareholders at £5 each.

There are 5½ per cent. debentures amounting to £120,000, in bonds of £100, part of £250,000 issued at par in November, 1894, constituting a floating first charge upon the assets (except uncalled capital); as additional security for the holders, stocks held by the company of a market value of £500,000 were transferred into the names of the trustees; the bonds are redeemable at par by annual drawings of £10,000, which commenced on 1st July, 1898.

Debenture interest and preference dividend are paid January 1st and July 1st.

Dividends paid previous to reconstruction:—For 1889, 10s. per ordinary and 35s. 9d. per founder's share; for 1892, 1s. per ordinary and 5s. 3d. per founders'; and for 1893, 1s. per ordinary and 5s. 3d. per founders' share.

THIS company was registered in the Transvaal March 9th, 1903, and has acquired 43 freehold farms covering 190,423 acres in the Bloemhof, Middelburg, Waterberg, Lydenburg and other districts of the Transvaal, and the Orange River Colony. The properties include the eastern portion of the freehold farm Witpoort No 162, East Rand district, adjoining the Rand Collieries, Ltd., and East Rand Central Mines, Ltd., and farms Kameelpoortnek No. 354, Brakfontein No. 249, Gemsbokfontein No. 65, and Vlaklaagte No. 39 on the Bushveld Tin Fields, Pretoria district. Tin was discovered on the last-named farm and a ten per cent. interest held by the discoverers was purchased in 1905 for 25,000 fully-paid shares; the company erected a 10-stamp mill and crushing commenced in February, 1906, but was suspended in August, 1906. Prospecting is in progress.

In March, 1909, an agreement was made with R. R. Hollins, whereby he was granted the right to prospect farm Witpoort, No. 162, by means of boreholes, and for twelve months after completion of boring operations has the right to form a company to purchase Witpoort with a nominal capital of £350,000 divided as follows: to the vendors, £350,000 shares, working capital, 300,000 shares, and in reserve 200,000 shares. Of the 350,000 vendors' shares 275,000 are to accrue to this company and 75,000 to Mr. Hollins, who guarantees the subscription of the 300,000 working capital shares, of which 199,500 are to be offered at par to shareholders of this company. The 200,000 reserve shares of the proposed company will be under option to Mr. Hollins for eighteen months at 25s. per share. For a further period of twelve months Mr. Hollins is granted the right to call upon the proposed company to increase its capital by 125,000 £1 shares and to purchase such shares at 25s. per share. Boring operations are in progress.

The authorised capital is £399,000, in 399,000 shares of £1 each; all the shares are issued and fully paid. The capital was increased from £340,000 to present amount in July, 1905, 34,000 shares being offered to shareholders at £2 15s. each; the guarantors of the issue received an option for six months over 26,000 shares at £3 10s. each, and 25,000 shares were issued in payment for interest in two farms as above.

The accounts for year ended December 31st, 1909, submitted in Johannesburg March 22nd, 1910, showed sundry expenditure debit balance £23,427, cash £2,198, debtors £723, creditors £265. The share premium account (£60,670) was written off expenditure on Vlaklaagte.

A share register is kept in London. Transfer form, common; fee 2s. 6d. per 100 shares or part. The 28th December, 1905, was appointed settling day in shares Nos. 125,001 to 225,000 and 251,039 to 374,000, and July 11th, 1906, in vendor's shares Nos. 1 to 125,000, 225,001 to 251,038 and 374,001 to 399,000. This company was registered June 8th, 1900, and is a reconstruction of a company of the same name registered September 11th, 1895 (*see vol. for* 1900). The company holds, under concession from the German Government, mineral rights over about 30,000 square miles in the Bondelzwarts, Zwartmodder and Veldschoendrager territories, in the southern portion of German South-West Africa, and right to select freehold farms representing an area of 2,700,000 acres. At May, 1908, 2,060,000 acres had been surveyed and 581,000 acres registered in the company's name. Some of the farms have been sold and others, with an area of 512,556 acres, have been let on lease. Prospecting and trading are in progress. The company is making a claim for a second grant of 128 farms, equal to 2,700,000, which they are advised they are entitled to under the original concession. In August, 1909, an option of mining rights over 30,000 square miles was granted to the Kharas Exploration Co., Ltd., in consideration of £150,000 debentures, 200,000 fully-paid shares, and 10 per cent. of net profits each year.

The authorised capital is £500,000, in 500,000 shares of £1 each; 482,328 shares have been issued and are fully paid. One share credited as 17s. paid was offered for each fully-paid £1 share of the old company, and holders of old debentures received £15 cash and £62 10s. in fully-paid shares for each £50 bond. During 1909, 9,500 shares were issued at par.

The accounts for year ended June 30th, 1908, submitted May 11th, 1909, showed a profit of £695, increasing credit balance to £6,697, which was carried forward.

The accounts for 15 months to September 30th, 1909, submitted June 13th, 1910, showed a profit of £2,837, increasing credit balance to £9,534, which was carried forward; cash £26,851, investments £351,076, debtors £4,769; bill's receivable (since paid) £10,703: creditors £3,302.

Transfer form, common; fee, 2s. 6d. The 21st November, 1900, was appointed settling day in shares, Nos. 1 to 473,763; and September 28th, 1909, in Nos. 473,764 to 482,328. Latest price, 9s. 3d., 10s. 3d.

This company was registered in the Transvaal January 27th, 1899, to acquire three mynpachts, equal to 189·46 claims, including the Rosettenville Township, situate on the farm Turffontein, south-east of the Turf Club area, Witwatersrand. The northern boundary is about 2¼ miles south from the outcrop of the main reef series. The purchase consideration was £493,334 in fully-paid shares. In August, 1904, Freeman Cohen's Consolidated, Ltd., agreed to surrender its holding of 90,000 partly-paid shares, together with 439 claims on farm Klippoortje, South-East Rand, and a sum of £14,706 cash which was on loan to the Bantjes Deep Ltd., the company accepting the same in full discharge of the amount owing by Freeman Cohen's Consolidated, Ltd., on the 90,000 South Village shares. The claims on Klippoortje have been abandoned. Operations are suspended pending a favourable opportunity to reconstruct. A revenue is derived from the township, the freehold title of which was secured in 1909.

The authorised capital is £633,333, in 633,333 shares of £1 each; 503,334 shares are issued and fully paid, 493,334 (vendors') being issued credited as fully-paid and 10,000 subscribed at £2 each. In March, 1899, 200,000 shares were offered to the public in Johannesburg at £2 each, 100,000 being guaranteed by Freeman Cohen's Consold., Ltd., but 90,000 have since been surrendered as above.

The accounts for year ended December 31st, 1909, submitted in Johannesburg June 2nd, 1910, showed cash balances £5,919, investments £13,071 (Village Deep shares and Randfontein debentures), sundry debtors £693; creditors £40.

THIS company was registered August 18th, 1892, to acquire concessions in Damaraland, South-West Africa, and elsewhere. A concession in Damaraland, granted by the German Government, was acquired for £92,500, in fully-paid shares, also rights under the Lewis concession from the Damaraland Co., Ltd., for £32,500, in fully-paid shares. In 1898 the concessions were rearranged, to cover mineral rights over about 22,000 square miles (including about 4,500 square miles freehold) in Damaraland, also mining rights over 23,000 square miles in Ovamboland. Other properties and rights have been acquired, including interests in the Mossamédès Co., Hanseatic Co., Kaoko Co., Damara and Namaqua Trading Co., &c.; in 1898 the whole of the share capital of the South African Co., Ltd., was acquired for £5,000 cash and 247,500 fully-paid shares, but in 1910 the company transferred 150,000 of the South African Co's. shares to the Mossamédès Co., in consideration of the latter granting extended rights to the South African Co. The Otavi Mines and Railway Co. was formed to deal with 1,000 square miles of the mineral rights, and to construct a railway, &c.; the railway has been completed and extends from Swakopmund to Tsumeb, a distance of 351 miles, and a branch line has been constructed from Otavi to Grootfontein, a distance of 57 miles. Both these lines have been acquired by the German Government. The De Beers Consolidated Mines, Ltd., has acquired the pre-emptive right (subject to certain royalties) to all diamond mines discovered in the company's territories.

At May 4th, 1910, the company owned (1) about 20,000 square miles of mining rights in the Damaraland Concession; (2) 4,500 square miles of freehold land contained within the Damaraland Concession territory; (3) one-half interest in 23,000 square miles of mining rights in Ovamboland; (4) a large portion of the capital of the Kaoko Land and Mining Co., owning 37,000 square miles of freehold land carrying the mining rights; (5) nearly one-half interest in the Hanseatic Mining Co., owning about 15,000 square miles of mining rights; (6) two-thirds of the issued capital of the South African Co., Ltd., owning about 66,000 square miles of mining rights in Portuguese Angola; and (7) a large interest (about 93,219 shares) in the Companhia de Mossamedes, owning extensive privileges in Portuguese Angola, granted by the Portuguese Government; (8) a quarter interest in Otavi Mines and Railway Company, and (9) small interests in the South-West African Mining Syndicate, the Otavi Exploring Syndicate, Ltd., and the Angola Exploring Syndicate, Ltd. The company is selling farms to settlers. Prospecting operations are being carried on.

The authorised capital is £2,000,000, in 2,000,000 shares of £1 each; 1,750,000 shares are issued and fully paid. The capital was increased from £300,000 to £400,000 in January, 1893 and to £500,000 in April, 1893. In January, 1895, 200,000 shares were offered for public subscription. The capital was further increased to £1,000,000 in 1898; and to present amount in 1902. 200,000 of the shares were underwritten at par (with option to underwriters on 200,000 at par until April 30th, 1910), and offered to shareholders in September, 1906, all taken up. During 1909, 50,000 shares were taken up at 25s., and in 1910, a further 50,000 were taken up at 27s. 6d. each.

Dividends paid: for 1908, 5 per cent.; for 1909, 5 per cent. and bonus of 2½ per cent. May 11th, 1910.

The accounts for eighteen months to December 31st, 1908, submitted May 3rd, 1909, showed a profit of £102,053; dividend May, 1909, absorbed £82,500, leaving £19,553 carried forward. THIS company was registered October 9th, 1893, and is a reconstruction of Spitzkop, Ltd. (*see vol. for* 1899). The company owns the Spitzkop freehold farm, 7,000 acres, with water rights, situate in the Lydenburg district of the Transvaal. A 10-stamp mill is erected, besides hydraulic machinery. The mill was kept working during 1897, 3,264ozs. of gold being obtained during the year ending September 30th. For ten months to July, 1898, 9,983 tons yielded bullion value £7,513, being 15s. or 3·53dwts. per ton, and £1,501 was obtained by hydraulicing; the mill was then shut down. An option has been granted to prospect the property and form a company to acquire and work same.

The authorised capital is £145,000, in 145,000 shares of £1 each; 143,223 shares are issued and fully paid. Shareholders were offered one share, 19s. paid, for each £1 fully-paid old share.

The accounts for year ended June 30th, 1910, submitted December 15th, 1910, showed revenue account debit balance £39,984; cash £635, investments at cost £4,441, debtors £391; creditors £33; share premium account £6,875.

This company was registered in the Transvaal August 7th, 1895, to acquire 483 claims on the farms Droogebult and Noycedale, including the Oscar and the adjoining blocks, situate west of the Nigel mynpacht, Heidelberg district, Transvaal. The purchase consideration was £200,000 in fully-paid shares. A further block of claims was afterwards acquired, making 526, also a water-right on the farm Bultfontein No. 28. In March, 1899, it was resolved to acquire 160 claims from the Nigel Deep, Ltd., and others, for 164,000 fully-paid shares, and also to acquire for 236,000 fully-paid shares the property (in all about 175 claims on the dip of the Nigel Reef, farms Droogebult, Varkensfontein, and Noycedale) and assets (including cash balance) of the French Western Nigel, Ltd., (*see vol. for* 1899). In December, 1909, the undertaking of Nigel Deep, Ltd. (*see vol. for* 1910), was acquired for 147,580 fully-paid shares. The property taken over comprised 514 claims, two water rights, 30-stamp mill, tube-mill, and cyanide and slimes plants. The company now owns 1,375 claims on Varkensfontein No. 217, Droogebult No. 350 and Noycedale No 71, all situated in the Heidelberg District, Transvaal and four water-rights attached to the said claims. In addition the company owns a 17·3 per cent. interest in 15·9 claims and two water rights taken over from Central Nigel Deep, Ltd. (in liquidation).

Crushing commenced December 18th, 1909, on taking over the reduction works of Nigel Deep, Ltd. (as mentioned above), and to June 30th, 1910, 23,693 tons yielded gold value £38,066, or 32s. 2d. per ton; costs 35s. 9d. per ton; loss 3s. 8d. per ton. Development has not proceeded sufficiently to allow of any reliable estimate being made of ore reserves.

The authorised capital is £475,000 in 475,000 shares of £1 each; 431,580 shares are issued and fully paid. The capital was increased from £350,000 to £700,000 in March, 1899, and reduced to £224,000 in December, 1909, by issuing 32 new shares for every 100 shares. It was then increased to present amount, and 147,580 shares issued to acquire the Nigel Deep, Ltd., and 60,000 shares

THIS company was registered June 23rd, 1903, and acquired the Bowarti and Tambuk concessions, 78 and 118 square miles respectively, in the Sudan, 25 to 35 miles from the port of Suakin. The consideration was £150 cash and 40,000 shares credited as 7s. 6d. paid. The Sudan Government subsequently extended the concessions to 5,000 square miles. In December, 1904, the company acquired the assets of the Waitekauri Gold Mining Co., Ltd. (registered May 6th, 1895, *see vol. for* 1905), comprising properties covering 390 acres in the Waitekauri district, New Zealand, with 3 mills (90 stamps), &c.; consideration 58,834 fully-paid shares. The Sudan concession has been abandoned, and the plant on the New Zealand properties has been realized. Ten government leases of copper deposits at Holmholmen, Norway, have been acquired, also eight tin mining leases, area 1,200 acres, near Hayle, Cornwall. The Gurlyn Consolidated Tin Mines (Cornwall) Ltd., was formed to acquire the tin leases, and the Norwegian property has been sold to the Holmholmen Copper Co., Ltd.

The authorised capital is £100,000, in 200,000 shares of 10s. each; 118,834 shares (£59,417) are issued and fully paid. The capital was increased from £40,000 to present amount in December, 1904.

(since sold, *see below*), town stands in Bremersdorp, &c. The consideration was £251,790 in fully-paid shares. In 1902, by agreement with African and European Agency, Ltd. (now African and European Investment Co., Ltd.), the company acquired further properties and £100,000 cash working capital in exchange for 148,210 fully-paid shares. The property of the Forbes Reef Gold Mining Co., Ltd. (*see vol. for* 1906), consisting of mineral rights over 52,944 acres in Swaziland, held until 1932 with developed gold mines thereon and three batteries and a Huntingdon mill, was purchased in 1902 for £35,000. In October 1908, the rights to forfeited concessions and unallotted mineral rights, also the banking and other concessions, were expropriated by the Government in consideration of payment of £40,757 cash. The company now owns 48,030 acres freehold and mineral rights over 410,145 acres. The Daisy and another mine on the Horo Concession and four mines on the Forbes Reef Concession are being worked on tribute, also alluvial flats in the Mhlosheni Valley.

The authorised capital is £200,000, in 400,000 shares of 10s. each; all the shares are issued and fully paid. The capital was reduced from £500,000, in £1 shares, to present amount in March, 1909, by cancelling 100,000 unissued shares and writing 10s. per share off 400,000 shares.

The accounts to September 30th, 1910, submitted December 14th, 1910, showed net cash assets £25,631.

This company was registered August 11th, 1903, being a second reconstruction of a company of the same name registered January 31st, 1889, with £150,000 capital, and first reconstructed in March, 1897 (*see vol. for* 1903). The property comprises a concession of mining rights over 44,265 acres of land in Swaziland, South Africa. The concession was granted by the Swazi King for a period of 50 years from February 20th, 1887, renewable for a similar period at a progressive rental not exceeding £300 per annum, and a further payment of £3,000 on the erection of machinery for working a payable gold reef. Operations are suspended and the reconstructions have been effected to raise funds for current expenses pending some arrangement for dealing with the property.

The authorised capital is £3,000, in 1,000 preference and 2,000 ordinary shares of £1 each; all the preference and 1,641 ordinary shares are issued, the preference having 10s. paid and the ordinary being fully paid. The issued capital of the former company was £1,498; for each share held, one new fully-paid ordinary share was offered subject to payment of £1. In February, 1910, the capital was increased from £2,000 by creation of preference shares, which were offered to shareholders *pro rata*. The accounts for fifteen months to December 31st, 1909, submitted March 11th, 1910, showed cash £9, debtors, £31; creditors £90.

THIS company was registered January 20th, 1899, to acquire a concession granted by the British South Africa Co., conferring the right to locate an area of 2,000 acres in Northern Rhodesia, to include the terminus at the south end of Lake Tanganyika of the railway from the Cape to Cairo, and to establish a township upon such area, subject to certain conditions (*see vol. for* 1903).

Also to acquire the right of (1) locating and registering, within a period of two years from November 24th, 1898, an area of 2,000 square miles in any part of the British South Africa Co.'s territories north of the Zambesi, and within the area so registered to have the exclusive right of prospecting for a period of two years from the date of registration of the area; and (2) of pegging off 1,000 claims on any open ground in the British South Africa Co.'s territories north of the Zambesi, either within or without the boundaries of the above area, in which the British South Africa Co. will retain a 35 per cent. interest. The purchase consideration was £60,000 in fully-paid shares, in addition to a sum of £12,000 payable to the Zambesia Exploring Co., Ltd., out of the first net profit since settled (as below).

An extensive gold-bearing area has been discovered near the Congo Free State boundary, also a large ancient copper and gold mine known as Kansanshi, in North Western Rhodesia; various groups of claims have been pegged off, and expeditions are at work. The Kansanshi property has been developed and smelting

commenced March, 1908. This property is now owned by the Rhodesia-Katanga Junction Railway and Mineral Co., Ltd.

Owing to the above discoveries, a mineral concession of 60,000 square miles in the Congo Free State has been acquired from the Katanga (Belgian) Special Committee, who retain the right to 60 per cent. of profits; the concession was for five years' exploration with the right to work any mines for 30 years, and to extend, upon terms, such period to 89 years (since extended); the consideration was 30,000 fully-paid shares. This concession has been extended, on terms, and is being explored.

In July, 1902, an extension of the Katanga Concession and an interest in the Benguella Railway were purchased for 10,000 fully-paid shares (further interest in latter since acquired).

The mineral discoveries in the Congo Free State consist of a copper belt about 200 miles in length, containing more than 100 known copper deposits, a tin belt nearly 110 miles long, the Ruwe Gold Mine, and iron deposits. The Union Minière du Haut-Katanga has been formed to acquire all these rights (*see that company*).

The company now owns the following:—45 per cent. of the shareholding, of the Mineral Company of Katanga (Union Minière du Haut-Katanga); shares and debentures in the Rhodesia-Katanga Junction Railway and Mineral Railway Co., Ltd.; coal areas in N.W. Rhodesia (acquired in 1908 from the Zambesia Exploring Co., Ltd., for 100,000 fully-paid shares); half of the stand in the terminus township to be located at Kansanshi; the sole ownership of the Benguella Railway and Mineral Concession, with the exception of 10 per cent. owned by the Portuguese Government, which concession carries with it the sole right to prospect for minerals over about 120,000 square miles of Portuguese Angola until 1912, and a 40 per cent. interest in the Katanga Railway, owning the right to construct all railways within the areas of the Katanga concessions.

In 1908, agreements were signed whereby it was agreed to construct a railway of 1,020 miles from Lobito Bay to the Ruwe mine, the Benguella Railway Co, agreeing to finance 620 miles, and the Lower Congo Railway Co., 400 miles; the extension of the Rhodesian Railways from Broken Hill to Maybaya on the Congo Frontier, has been carried out by the Rhodesia Kantanga Junction Railway and Mineral Co., Ltd., the Compagnie du Chemin de Fer Katanga (Katanga Railway Co.) agreeing to finance the extension from there to Star of Congo Mine and eventually to the Ruwe Mine. In order to enable the scheme to be carried out the directors were authorised to deal with 75,000 of the shares reserved to meet the conversion rights of holders of £600,000 debentures, the holders agreeing to waive their rights to conversion for a period of three years. The railway reached the Star of Congo Mine on October 1st, 1910. The Tanganyika Co. has guaranteed the interest for 20 years from 1910 on £860,000 debentures in the Benguella Railway Co., and for 20 years from June, 1909, on the debentures of the Rhodesia Katanga Junction Railway and Mineral Co., Ltd.

The authorised capital is £1,000,000, in 1,000,000 shares of £1 each; 808,581 shares are issued and fully paid; 10,000 are under option until December 31st, 1911, at £4.

In February, 1899, 20,000 shares were offered for subscription at 30s. per share, and allotted. The capital was increased from £100,000 to £184,000 in December, 1901, 30,000 fully-paid shares being issued in payment for Katanga Concession, 34,000 shares issued to Zambesia Exploring Co., Ltd., at £2 each (to settle debt of £56,000 and £12,000 formerly payable out of first profits), and 20,000 shares issued to shareholders at £2 each; in 1902, the capital was increased to £194,000, and in 1903 to £264,600. In 1904, 20,000 shares were offered to shareholders at 50s. each, the issue being guaranteed for 5 per cent. In April, 1905, the capital was increased to £450,000, 88,200 shares being offered to shareholders at £4 each; the capital was increased to £525,000 in July, 1905, the 75,000 new shares being issued as consideration for the remaining half-interest in the Benguella Railway concession, acquired from the Zambesia Exploring Co., Ltd., and to present amount in November, 1906, to provide for conversion of debentures and option over 100,000.

There were £2,275,248 five per cent. debentures in bonds of £8 each, issued at June 30th, 1910; £2,000,000 were offered for public subscription in November, 1906, shareholders in this and Zambesia Exploring Cos. having prior right of allotment. The bonds are redeemable at par on January 1st, 1917, or on or after December 31st, 1911, at option of company on six months' notice, holders having the option until

TANGANYIKA CONCESSIONS—continued.

December 31st, 1911, to convert into fully-paid shares at the rate of one fully-paid share for each debenture (£8) held. The company has the right to December 31st, 1911, to satisfy the interest accruing on the debentures by allotment of further debentures carrying same rights. The proceeds were to be applied in providing working capital for the Union Minière du Haut-Katanga, and for constructing further sections of the Benguella Railway, &c. The issue was under-written for a commission of five per cent. and an option for five years over 100,000 shares at £10 each.

The accounts for year ended June 30th, 1910, submitted December 16th, 1910 showed £131,320 loss, which was deducted from share premium account, leaving, that account at £339,272. There was a sum of £213,078 due to Zambesia Exploring Co., Ltd.; this is to be liquidated by issue of fully paid shares at £5 each (subject to certain conditions), and the Zambesia Exploring Co. agreed to further finance the company up to a sum not exceeding £100,000, to be secured by a third debenture. A sum of about £120,000 (secured by second debenture), which had been advanced by Mr. Leyland, is to be paid off, £10,000 in September, 1911, and the balance by annual instalments of £20,000.

Next accounts to be made up to September 30th, 1911.

THIS company was registered December 29th, 1900, as the Taquah and Abosso Gold Mining Co. (1900), Ltd., and is a second reconstruction of the Taquah and Abosso Gold Mining Co., Ltd., registered May 26th, 1888, and first reconstructed in 1889 (*see vol. for* 1900). The name was changed in January, 1908. The leases, taken over comprised (1) the Abosso Mine, situate on the Wassau Banket formation, adjoining the Adjah Bippo Mine, Gold Coast Colony; (2) the Taquah Mine, equal to 1,400 claims, six miles from the Abosso, on the same formation, and including the Taquah township situate on the property; and (3) 30 miles of the Ankobra River, with mining rights for 500 yards on each side also some six other properties. The Abosso and Taquah Mines are held on lease for 99 years, renewable. In June, 1901, the Abosso Mine was sold to the Abosso Gold Mining Co., Ltd., for 250,000 shares, but 100,000 of these have since been given up for the benefit of the Abosso Co.; at June 30th, 1909, the company owned 137,142 shares. The Ankobra (Taquah and Abosso) Development Synd., Ltd. (*see vol. for* 1908), was formed to deal with the Ankobra River rights and the outlying properties, but in April, 1907, that company was absorbed in consideration of 20,000 fully-paid shares; the purchase included two dredgers. In July, 1909, the dredging concessions with dredgers were acquired by the Ancobra Exploration and Dredging Co., Ltd, the company's holding being 353,133 shares and £6,680, seven per cent. debentures. The company is working the Taquah property. Depth of main shaft at August, 1910, 1,381 feet. Driving on the lower levels is in progress. Pending the erection of a new crushing plant, ten stamps of the mill taken over from the old company were re-erected, and cyanide plant added and crushing commenced in September, 1905; the new mill of 50-stamps, with cyanide plant, started work August, 1907. Crushing suspended July, 1910, until further development on a large scale has been carried out and the ore reserves placed on such a basis as will warrant an extension of the present milling plant, necessary funds being provided by Oceana Consolidated Co, Ltd. For 1907-8, 48,144 tons crushed yielded gold value £162,244; for 1908-9, 56,793 tons yielded gold value £157,905; costs £2 7*s.* 8d. per ton (including redemption development). Estimated ore reserves at June 30th, 1908, 233,941 tons, including 176,971 tons, value 21·6dwts. per ton; at June 30th, 1909, 141,187 tons, value 15 5dwts. per ton. For crushings *see table at commencement of volume.*

The authorised capital is £500,000, in 500,000 shares of £1 each; 350,000 shares are issued and fully paid. 40,980 reserve shares were sold at 30s. each in November, 1905. The capital was increased from £350,000 in February, 1909, There are £37,500 income bonds entitled to dividends and to assets on winding up, as if they were 37,500 fully-paid shares.

The issued and paid-up capital of the former company was £237,788, in 16,000 preference, 97,980 preferred ordinary, and 123,808 ordinary fully-paid £1 shares, also £20,600 first debentures and £29,387 second debentures; terms of reconstruction scheme: one new fully-paid share for each old preference share, 75 for every 100 old preferred ordinary shares, and one for every ten old ordinary shares (absorbing in all 101,866 new shares); holders of first debentures received new first debentures, in addition to £1 of income bonds for every £2 debentures and an option on shares at par, and holders of second debentures received new second debentures and 5,878 fully-paid shares for arrears of interest. The new debentures have since been converted into shares or paid off.

For 1908-9, a dividend of 2s. was paid January 15th, 1909.

The accounts for year ended June 30th, 1908, submitted Dec. 17th, 1908, showed gold receipts £165,157 and a profit and loss credit balance of £56,748.

The accounts to June 30th, 1909, submitted January 28th, 1910, showed gold receipts £159,663 and a profit of £24,832, making with £12,000 dividend received on Abosso Gold shares held a sum of £36,832; £22,860 was written off depreciation, leaving £13,972, which with balance forward made £70,720; dividend absorbed £38,747, reserve for gold tax £4,260, leaving £27,712 credit balance carried forward; cash £1,946, gold £4,693, debtors £5,145, shares held £38,514; creditors £20,671, bills payable £3,147, loan £19,500, share premium account £4,030 (£15,000 having been written off permanent works and £382 duty on increase of capital).

THIS company was registered February 27th, 1909, to acquire from F. O. Abrahams, T. E. Williams and W. C. Johnson, the Eduapriem Concession, area 1,234 acres, situate on the Tarkwa banket range, West Africa, adjoining the property of the Wassau West Amalgamated Mines, Ltd. The consideration was £22,500 in fully-paid shares. During 1910 the Idnapriem Concession adjoining was acquired for £5,000. *See map opposite.* Development work is in progress.

The authorised capital is £150,000, in 600,000 shares of 5s. each; 187,500 shares are issued and fully paid. The capital was increased from £45,000 in January, 1910.

The accounts to March 31st, 1910, submitted July 27th, 1910, showed mining and general expenditure £5,168; cash, £4,960; debtors, £2,282; loan, £16,981; calls in arrear, £1,500; creditors, £561. Share premium account, £7,481.

Transfer form, common; fee, 2s. 6d. The 17th November, 1909, was appointed settling day in shares Nos. 1 to 47 and 90,048 to 130,000, December 28th, 1909, in Nos. 130,001 to 143,750, February 9th, 1910, in Nos. 155,001 to 180,000, June 9th, 1910, in Nos. 48 to 90,047, and August 30th, 1910, in Nos. 180,001 to 187,500. The following particulars are officially supplied: Development by adits and shafts is now in active progress. The banket formation has been proved for a distance of about 8,000 ft. on line of reef, and several hundred thousand tons of ore is available above water level by adits. The reef is a continuation of that which runs through the Wassaw West Amalgamated and Tarkwa Banket Syndicate Co.'s concessions, the outcrop being in some places from 20 ft. to 40 ft. in width. Of the numerous samples of ore taken from the adits and drives now in course of construction, a large proportion indicate a satisfactory average ranging from 4dwts. to 14dwts. per ton. In December, 1909, a new discovery of banket was made on the property and traced for a distance of some 2,000 ft., which has largely enhanced the value of the property. Prospecting on this new line of reef is being actively carried out, and satisfactory results have been obtained.

On Idnapriem developments have disclosed a rich zone of payable banket, extending for several hundred feet along the strike and consisting of very friable ore, the average value of which, over the full width of the West drive, gives 13 dwts. per ton. From cyanide experiments carried out it has been shown that this ore can be economically treated direct without previous fine crushing.

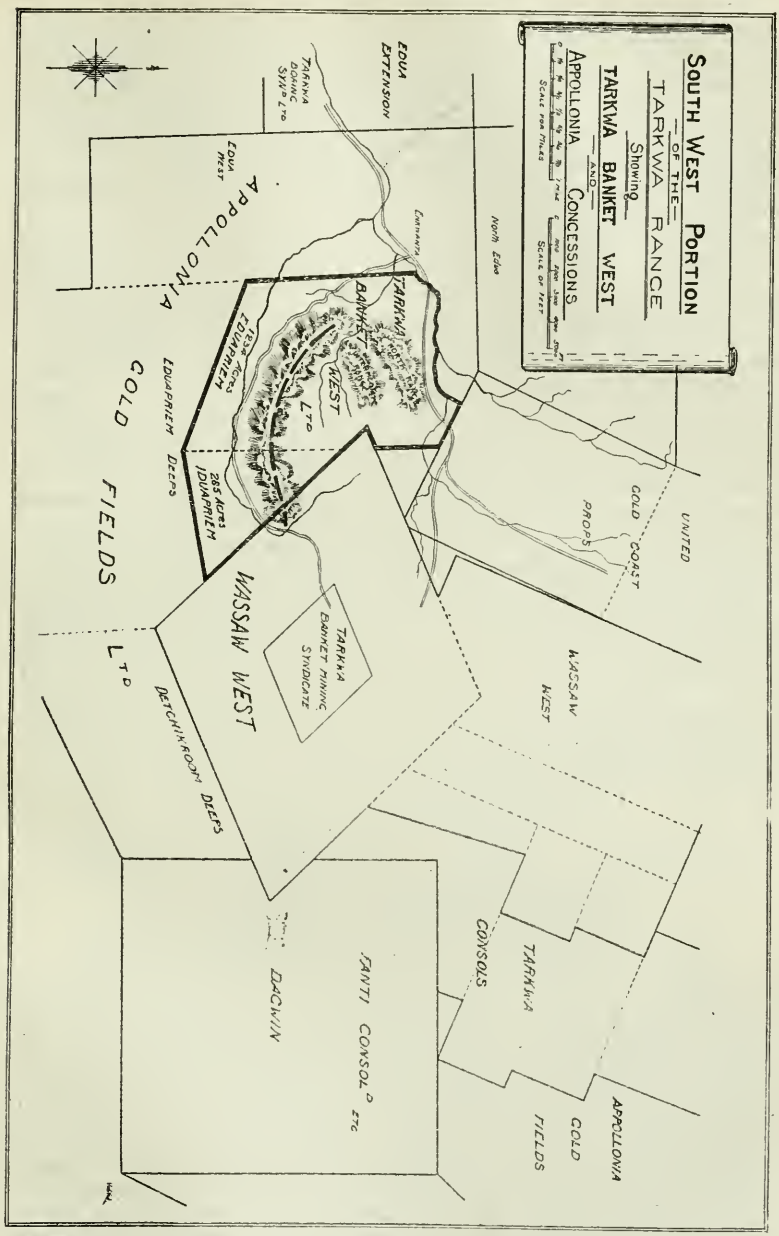
THIS company was registered March 27th, 1907, as Cornish Adventurers, Ltd., to acquire the undertaking of Tarkwa Consols, Ltd., registered April 16th, 1901 (*see vol. for* 1907). The name was changed to present title in March, 1909. The company owns three gold mining leases in the Gold Coast Colony adjoining the properties of the Taquah Mining and Effuenta Companies, a twenty per cent.



TARKWA CONSOLS—continued.
interest in the Wheal Sisters group of tin mines, St. Ives, Cornwall, and an interest in the Botallack Mines, Ltd., and Ancobra Exploration and Dredging Co., Ltd. A gold mining concession near Axim has been exchanged for a one tenth vendor interest in the concessions owned by the Appollonia Goldfields, Limited.

TARKWA CONSOLS—continued.

The authorised capital is £60,000, in 240,000 shares of 5s. each; 213,563 shares (£53,390) are issued and fully paid. Shareholders in Tarkwa Consols, Ltd., received one fully-paid share for each old fully-paid £1 share held.

The accounts to September 30th, 1910, submitted December 23rd, 1910, showed cash £235, debtors £120, investments £5,339; expenditure on Intiri Aisikaim Lease £2,749 (now represented by 20,000 fully-paid shares in Appollonia Gold Fields, Ltd.); creditors £643, loan account £3,001.

Transfer form, common; fee, 2s. 6d. The 16th October, 1907, was appointed settling day in shares Nos. 1 to 181,486, and February 24th, 1910, in Nos. 181,487 to 203,963. Latest price, 1s., 2s.

Additional particulars officially supplied:—The company own three concessions about three-and-a-half square miles, situate near Tarkwa, for which certificates of validity were granted in 1903. The Sekondi and Tarkwa Railway runs through a portion of the property. Prospecting operations have been carried out on No. 1 lease to the extent of 1,112ft., proving the banket formation dipping south. Drilling operations: Four boreholes have been put down; No. 1 to prove the exact dip of the banket formation, and this was encountered at depths of 108ft. to 234ft., when the footwall country was reached. No. 2 was put down to a depth of 745ft. At 615ft. brecciated reef was met with for a thickness of 5ft. 6ins., where boring ceased. At 467 feet a narrow seam of banket was passed through, value 4 dwts. per ton, and at 502 feet another of the same value. On completion of No. 2 borehole further boreholes on No. 1 lease, immediately south of the centre shaft were commenced, to cut the reef at between 200ft. to 300ft. Various seams of banket formation were met with dipping south. Besides other property and shares, the company owns one-tenth of the vendor interest in the properties owned by Appollonia Gold Fields, Limited.

At the general meeting held December 23rd, 1910, it was stated that the four boreholes put down had proved that the reefs in the property dipped to the south in the contrary direction to those of the main Tarquah Range, which dip to the north, and that in one borehole the southern dip of the country had been proved down to 700 feet. On the adjoining Tarkwa Banket property they had a reef 3½ inches wide very near the surface dipping south, going about 5 dwts. per ton. With regard to the values shown by the bores no importance should be attached to the mineral values as the object was to prove whether the country was dipping south or not. Further developments on surrounding properties are awaited.

This company was registered March 14th, 1895, to acquire the undertaking of the Tati Concession Mining and Exploration Co., Ltd., formed in 1888 under the laws of Cape Colony. The company owns a concession known as the district of the Tati, in the south-western portion of Matabeleland, with the mineral and mining rights, grazing, forestal, agricultural and trading rights within the boundaries of the concession. The limits of the Tati district are as follows:—From where the Shashi river rises to its junction with the Tati and Ramoqueban rivers thence along the Ramoqueban river to where it rises, and thence along the watershed of these rivers. The length of the concession from the junction of the Ramoqueban and Shashi rivers in a direction towards the N.N.W. is about 90 miles, the total area of the concession being about 3,000 square miles. The entire district of the Tati now forms part of Bechuanaland, but is subject to certain exceptions and reservations as to laws. The concessions granted to this company by Lobengula have been confirmed by Government, and the company is now recognised as owners of all the lands within the district of the Tati; the making of laws and the civil administration of the Tati territory is vested in the Crown. As purchase consideration shareholders in the old company received six fully-paid new shares for each old share held, with the option of subscribing at par *pro rata* for the working capital of about £107,000.

TATI CONCESSIONS—continued.

The company has established various stores and carries on a general trading business. A township (Francistown) has been laid out and stands sold. A revenue is also obtained from prospecting and claim licences. Mines have been sold to the Premier Tati and Durham Prospect companies.

The authorised capital is £500,000, in 500,000 shares of £1 each; 394,125 shares are issued and fully paid. There are £100,000 five per cent. registered debentures in bonds of £10, £20, £40, and £100, which were offered to shareholders at par in March, 1899, the whole issue being guaranteed; interest payable March 1st and Sept. 1st. The debentures are repayable March 28th, 1911, at 105.

The accounts for year ended June 30th, 1909, submitted December 15th, 1909, showed a profit of £348 increasing credit balance to £3,924. The accounts to June 30th, 1910, submitted November 3rd, 1910, showed a loss of £799, reducing credit brought forward to £3,125, cash £2,002; investments at cost £55,227, debtors £8,516, investment suspense account £178,107; creditors, £2,381.

THIS company was registered in the Transvaal October 15th, 1889, to acquire the freehold farm Weltevreden, known as Brakpan, 1,917 morgen in extent, in the Eastern Witwatersrand district of the Transvaal. In 1893 the company acquired the assets of the Prosecutor Estate Co., Ltd., for £13,000 in fully-paid shares and £3,000 in cash, the property comprising the freehold farm De Rietfontein, about 8,000 acres in extent. The company has also acquired the freehold farms Kleinzuikerboschplaats No. 37, 642 morgen, and portion of freehold farm Oogiesfontein No. 286, 200 morgen, in Middelburg district. The gold mining rights of Brakpan have been sold to the Brakpan Mines, Ltd.,

TRANSVAAL COAL TRUST—continued.

for 260,000 fully-paid shares. In 1905, options over additional farms in the Middelburg district, with an area of three square miles, were acquired; boreholes were sunk and coal proved, the estimated contents (including farm Oogies and Kleinzuikerboschplaats) being 46,000,000 tons. During 1907, the coal rights over a portion of farm Grootpan, adjoining Kleinzuikerboschplaats, were acquired, and in 1908, coal rights over Zaaiwater No. 184, area 162 morgen and Goedgevonden No. 23, area 162 morgen.

The De Rietfontein property was tested by boreholes by the Eastern Exploration Synd., the main reef being struck at 3,478 ft. and 3,617 ft., and in April, 1909, the Gold Mining rights were acquired by Springs Mines, Ltd., for 300,000, fully-paid shares, of which 50,000 were handed to the Eastern Exploration Synd., Ltd.; Transvaal Coal Trust shareholders were invited to subscribe for 330,000 Springs Mines shares at 30s. each, being three for every five held, to provide working capital.

The company is working collieries on De Reitfontein, and Oogies; the Brakpan colliery was closed down February, 1908. Contracts for the supply of coal have been entered into with the Victoria Falls and Transvaal Power Co., Ltd., and with the Central South African Railways. Coal output for 1906, 391,038 tons; for 1907, 343,817 tons; for 1908, 355,513 tons; for 1909, 405,312 tons.

The authorised capital is £550,000, in 550,000 shares of £1 each; 545,760 shares are issued and fully paid. The capital was formerly £1,000,000, but in 1892 was reduced to £450,000. In July, 1895, 10,035 shares were sold at a total premium of £11,076. In April, 1899, the capital was increased to £500,000 and in May, 1909, to present amount to provide shares under debenture-holders' rights. In October, 1906, £100,000 five-and-a-half per cent. first mortgage debentures were offered to shareholders at par; £91,120 were converted into fully paid shares, and £8,880 paid off.

THIS company was registered in the Transvaal on the 18th March, 1892, to acquire the properties of eight syndicates, comprising about 440 farms covering a total area of about 2,357,550 acres of land in the districts of Pretoria, Heidelberg, Rustenburg, Waterburg, Middelburg, Lydenburg, and other districts of the Transvaal, with the mining rights connected therewith; also certain town properties in Pretoria and other towns in the Transvaal. The vendors received 420,121 fully-paid shares. In 1895, five additional farms, covering about 22,000 acres, in the Waterburg district, were acquired at a total cost of £1,813, and in 1896, two other farms and a portion were acquired at a cost of £1,289. In November, 1898, it was resolved to purchase a further 1,262,277 acres in various districts for £219,214 in fully-paid shares. The properties now cover 3,354,186 acres, and mineral rights are held on a further 45,792 acres. A number of farms have been let for grazing and agricultural purposes, the mining rights being reserved to the company. The company's farm Holfontein No. 227, area 9,500 acres, situate at Klipfontein, in the East Rand district, has been prospected by boreholes, the Van Ryn and Modderfontein reefs being cut. A seam of coal has been found and a shaft has been sunk. The Mount Morgan mine, 32 claims, Barberton district, has been leased from Moodie's Gold Mining and Exploration Co., Ltd., for 76 years from 1905, at a royalty of 2½ per cent. on gold won; the ore is very refractory and the question of ore treatment is under consideration. The Groenfontein tin mine on farms Groenfontein, Roodepoort and Sterkwater in the Waterburg district, is being worked, and a 10-stamp battery, Huntington mill and Elmore Vacuum plant erected. During 1909, 22,732 tons produced tin, value £96,807; profit £58,394. During 1910 (to September 30th), 9,564 tons produced tin, value £59,835; profit £26,196.

In the latter part of 1904 the company acquired 47,292 £1 shares in the Braamfontein Co., Ltd., for 189,168 Transvaal Consolidated shares; a further 601 shares have since been acquired, making £47,893 now held, being the entire issued capital. The Braamfontein Co. is the owner of a freehold estate known as Parktown, comprising 2,776 acres within the municipal area of Johannesburg.

The authorised capital is £1,000,000, in 1,000,000 shares of £1 each; 971,214 shares are issued and fully paid. 14,879 shares were sold in July, 1895, at 50s. each. The capital was increased from £500,000 to £800,000 in November, 1898, in order to acquire the additional properties, the vendors guaranteeing 40,000 shares at 30s. each to be taken up within two years. In 1902, 15,000 reserve shares were sold for £90,918 net. In September, 1904, the capital was increased to present amount in order to acquire the Braamfontein shares.

The accounts for year ended December 31st, 1908, submitted in Johannesburg April 2nd, 1909, showed credit balance increased from £100,083 to £142,665, which was carried forward.

The accounts to December 31st, 1909, submitted in Johannesburg April 8th, 1910, showed credit balance increased to £193,035, which was carried forward; cash £108,807, tin concentrates £37,591, mortgage bonds and other advances £200,705, debtors £10,500, Braamfontein shares £191,572; creditors £7,678, reserve fund to meet possible losses £46,003; share premium account £137,422.

Duplicate share registers are kept in London and Johannesburg. Transfer form, common; fee, 2s. 6d. per deed of 100 shares or part of 100. The 26th April, 1899, was appointed a special settling day in shares Nos. 1 to 748,300; December 28th, 1901, in Nos. 748,301 to 760,388; March 12th, 1902, in Nos. 760,389 to 775,388, November 10th, 1904, in Nos. 775,389 to 961,890, March 29th, 1905, in Nos. 961,891 to 970,314, and July 13th, 1910, in Nos. 970,315 to 971,214. Warrants to bearer are issued for 1, 5, 10, 20, or 25 shares; fees for conversion: 2s. 6d. per 100 or part of 100 shares, and 1s. per warrant; fees for reconversion: 5s. per 100 shares and 1s. per certificate. In February, 1902, 100,000 shares were issued at 6s. each to shareholders of the New Balkis Eersteling, Ltd. A further 520,000 fully-paid shares were issued to shareholders of New Balkis Eersteling, Ltd. (*see vol. for* 1901), in payment for that undertaking, and 50,000 shares are subject to an option at 7s. 6d. per share. In June 1910, £50,000 six per cent. debentures were offered to shareholders at par, but owing to insufficient applications being received the issue was not proceeded with. Efforts are being made to place the debentures, and if unsuccessful a meeting will be convened to reconsider the position.

The accounts for year ended December 31st, 1908, submitted June 30th, 1909, showed a loss of £676 increasing debit balance brought forward to £18,994. The accounts to December 31st, 1909, submitted September 28th, 1910, showed a profit of £38, decreasing debit balance brought forward to £18,956; cash £642, loans £7,468, investments at cost £105,886; debtors £8,710; creditors £265, contingent liability on shares held £11,140.

Transfer form, common; fee, 2s. 6d. The 27th July, 1899, was appointed settling day in shares Nos. 1 to 100,000 and 145,626 to 146,750; February 22nd, 1900, in Nos. 100,001 to 144,374; March 13th, 1901, in Nos. 144,375 to 145,625; June 27th, 1901, in Nos. 146,751 to 591,453; September 10th, 1902, in Nos. 591,454 to 725,463, 725,501 to 764,012, and 780,001 to 1,404,000, and September 29th, 1903, in Nos. 764,013 to 779,335. This company was registered in the Transvaal on May 20th, 1895, as the Lydenburg Mining Estates, Ltd., to acquire mining property in the Lydenburg district of the Transvaal. The purchase consideration was £50,000 in fully-paid shares. In August, 1895, the company purchased a neighbouring property from the Jubilee Mines, Ltd., for 50,000 fully-paid shares; also the Lydenburg properties of the Pilgrim's Mining and Estate Co., Ltd., for 40,000 fully-paid shares; and the property and assets of the New Clewer Estate Co., for 50,000 fully-paid shares.

TRANSVAAL GOLD MINING ESTATES—continued.

This Clewer property comprises the mineral rights of the freehold farm Morgenzon, about 2,000 acres in extent, situate in the Lydenburg district, with 20-stamp mill and cyanide plant. In 1896, the property and assets (except cash) of the Transvaal Gold Exploration and Land Co., Ltd., first registered in 1882 (*see vol. for* 1900), were purchased for 300,000 fully-paid shares, and the name of the company was then changed. In October, 1905, 37 claims on farm Graskop were acquired, and during 1908, 64 claims at Peach Tree and 10 claims on Vaalhock were acquired. Property now owned comprises freehold farms with an area of 174,832 acres, mineral rights over 75,202 acres, and 378 mining claims, also water rights, etc. The company is working mines known as Theta, Clewer, Jubilee, Graskop (adjoining Jubilee), Elandsdrift, Vaalhock and Peach Tree; farms Nooitgedacht, and Desire, near the Jubilee mine, are being worked by tributors. Operations are being carried on at farm Vaalhoek No. 1,451, about ten miles from Pilgrim's Rest, the ore reserves being estimated at March 31st, 1910, at 63,945 tons, value 12dwts.; a 10 stamp battery is erected, and started crushing May, 1910.

An electrical power station is being constructed near the Blyde River, the waters of which will be utilised. The works are situate about 20 miles from the mines, and are expected to be in operation about March, 1911. To provide the necessary funds debentures were issued (*see below*).

Three batteries were taken over with the various properties. A new central mill of 60 stamps and cyanide and slimes works are erected, and two tubes were added during 1909. During 1909-10, 94,230 tons yielded £282,457; profit £163,325 or 34s. 7d. per ton. During 1910-11 (to Dec., 1910), 86,855 tons yielded £281,936; estimated working profit £173,202. For crushings *see table at commencement of volume*. Ore reserves at March, 1909, 354,792 tons, value 16·15dwts. per ton; at March 31st, 1910, 398,466 tons, value 16·8dwts. per ton.

The authorised capital is £640,000, in 640,000 shares of £1 each; 604,225 shares have been issued and are fully paid. The capital was formerly £200,000, of which the vendors received 50,000 shares, and 100,000 shares were subscribed at £2 each, to provide £200,000 working capital. The capital was increased in order to acquire the additional properties and undertakings as above.

There are £124,000 five per cent. first mortgage debentures in bonds of £100, £20 and £4 each, offered to shareholders at par *pro rata* in March, 1910, holders having the option to October 1st, 1912, to convert into fully-paid shares at £4 each; debentures not converted to be redeemed at par by annual drawings of £15,000, the first payment to be made on April 1st, 1913. The issue was guaranteed for a commission of five per cent. Interest is payable October 1st and April 1st.

Dividends declared (paid about seven weeks after declaration):—1898-9, 2s.; 1899-1900, 2s.; 1905 6, 2s.; 1906-7, 2s.; 1907-8, 2s.; 1908-9, 1s. 6d.; 1909-10, 4s. 6d. (2s 6d. September, 1909, 2s. March, 1910); 1910-11, 3s. September 19th, 1910 (interim).

Accounts made up to March 31st, and submitted at Johannesburg in October. The London Committee also hold an annual general meeting in London about July, but any resolution passed must be confirmed in Johannesburg. The accounts for year to March 31st, 1909, submitted in London July 28th, 1909 and in Johannesburg September 24th, 1909, showed gold receipts £265,305, and a net profit of £142,039, making with balance forward and sundry revenue a sum of £199,435; dividend absorbed £45,317, written off depreciation £8,289, taxes £11,131, expenditure on flood repairs, &c., £9,671, leaving £125,025 carried forward; share premium account £101,750.

The accounts to March 31st, 1910, submitted in London July 28th, 1910, and in Johannesburg October 14th, 1910, showed gold receipts £282,457 and a net profit of £168,935 making with balance forward a sum of £293,960; dividends absorbed £135,997, taxes £13,817, expenditure on flood repairs £3,130, debenture issue expenses £288, depreciation £63, leaving £140,664 carried forward; share premium account £101,750.

Duplicate share registers are kept in London and Johannesburg. Transfer form, common; fee, 2s. 6d. per transfer of 100 shares or part of 100. Share warrants to bearer may be had for 1, 5, 10, or 25 shares; fees, under 5 shares, 1s., over 5 shares, 2s. 6d. for every 100 shares or fraction thereof, with 1s. for each warrant; reconversion fee, 5s. per 100 shares or part, with 1s. for each certificate. THIS company was registered December 18th, 1888, to acquire 87 farms, total area about 520,000 acres, situate in the Transvaal. The consideration for the property was £149,915, payable £70,000 in cash and £79,915 in fully-paid shares. In 1897 the company sold the agricultural rights of the farm Raatskraal for £2,000, reserving the mineral rights. In 1902 three farms in the Waterberg district were sold for £7,311, the mineral rights being reserved to the company. In 1908 two farms were let for agricultural purposes and a prospecting option granted over another farm, and in 1909 four more farms were leased.

The authorised capital is £250,000, in 249,915 ordinary shares of £1 each and 680 founders' shares of 2s. 6d. each; 231,440 ordinary and all the founders' shares are issued, the founders' and 96,218 ordinary being fully paid, and 135,222 ordinary 16s. paid. Future calls are not to exceed 2s. 6d., at one month's notice; the last call made was 1s. payable March 2nd, 1908. There were originally 85 founders' shares of £1 each, but in 1889 each share was subdivided into eight shares of 2s. 6d. The ordinary are first entitled to a dividend of 10 per cent., the remaining profits in any year to be divided in two equal parts between the ordinary and founders' shares.

The accounts for year ended December 31st, 1909, submitted July, 1910, showed debit increased to £69,993.

The accounts to December 31st, 1909, submitted July 5th, 1910, showed debit increased to £69,993; cash £603, debtors £3, investments £3,705; creditors £333.

This company was registered May 3rd, 1910, to acquire from B. P. Harris, 80 gold mining claims, situate about 1½ miles to the west of Leydsdorp, Zoutpansberg District, Transvaal. The consideration was £180,000 in fully-paid shares. Development work is in progress.

The authorised capital is £200,000, in 200,000 shares of £1 each; 180,000 shares are issued and fully paid. Transfer form, common; fee, 2s. 6d.

Additional particulars officially supplied:—The property is situated about 1½ miles to the West of Leydsdorp, in the Zoutpansburg district, consisting of a block of 80 gold claims. The extension of this area, namely 3,000 claims to the East, and 2,000 claims to the West, have been secured by the Eckstein and Bailey interests. The railway line from Delagoa Bay to Pietersburg will be completed this year, and will pass close to the property. Developments.—Messrs. Williams and Barclay, the well known mining experts, have reported most favorably on the claims. From the report of the latter the following particulars have been gleaned: There are four different reefs on the property. No. 1 is 2 ft. thick, assaying about 1 oz. 15 dwts. to the ton. No. 2 measures 7 ft., assaying 18 dwts., and it continues its size along the strike. No. 3, North of No. 2, is 12 ins. thick, assaying 1 oz. all through, and No. 4, 4 ft. thick, consists of white quartz giving 10 dwts. to the ton. These reefs traverse the whole length of the claims, striking East and West, and dipping slightly North at an angle of about 85 degrees. They have been exposed by cuttings and small shafts from which the numerous samples were taken. There is not the least doubt that these reef formations belong to the Azoic System, and run high in gold and other mineral values. Assays.—Samples taken from all the different parts of the property were assayed by independent analysts with the following results:—

	ozs.	dwts.	grs.
No. 1 assayed by the Standard Bank of South Africa	1	0	12
„ 2 „ „ the Consolidated Gold Fields Co.	0	10	20
„ 3 „ „ „ „ „	1	0	13
„ 4 „ „ Mr. Lacken	1	2	9
„ 5 „ „ Mr. T. S. Tolly, Assayer to Jubilee, Salisbury ...	2	14	8
„ 6 „ „ Mr. Robert Wilson, Assayer to East Rand Properties	1	15	0
„ 7 „ „ Mr. A. Johnson, Assayer to Cons. Gold Fields Co. ...	1	0	6
	9	3	20

Average, 1 oz. 6 dwts. 6 grs.

Life of Mine and Ore Values.—Taking a conservative measurement of the four reefs on these claims, the aggregate width being 9 feet, allowing for any dykes, breaks, and faults, the whole of the reef might be called 6 feet, going 1 oz. over the plates. Twenty stamps running for 24 working days per month, at 4 tons per 24 hours per stamp, would crush during that period 1,920 tons for 1,920 ozs. gold of the value of £7,440. The development up to the present time has opened out sufficient ore to run a 20-stamp mill for five years, which shows the following results:—

1,920 ozs. at £3 17s. 6d.		7,440	0 0
less costs of mining and milling at 15s. per ton ...		1,440	0 0
Net profit per month		6,000	0 0
Yield from tailings, about	2,712 10 0		
less costs	212 10 0		
Net profits from tailings		2,500	0 0
		£8,500	0 0

Annual net profit, therefore, £100,000.

This company was registered April 26th, 1898, as the Nigel Extension, Ltd., being a reconstruction of a company of the same name registered March 7th, 1895 (*see vol. for* 1899). The property included the freehold of the proclaimed Farm Tweefontein No. 98, in the Heidelberg district of the Transvaal, covering 6,465 acres; in 1901 this was sold to the Transvaal Exploring Land and Minerals Co., Ltd., for 134,000 Transvaal Exploring shares. The name was changed in 1902. The company now owns farms covering 45,000 acres, one adjoining the town of Pietersburg, Northern Transvaal.

The authorised capital is £150,000, in 150,000 shares of £1 each; 65,268 shares are issued and fully paid. The capital, formerly £80,000 in 10s. shares, was increased and altered in July, 1902, shareholders receiving one £1 share, 18s. paid, for two 10s. shares, 9s. paid.

The accounts to March 31st, 1910, submitted July 11th, 1910, showed cash £501, investments at cost £67,621; loans and creditors £5,617, mortgages and interest £82,523.

Transfer form, common; fee, 2s. 6d. Warrants to bearer are issued for one and five shares; fee, 2s. 6d., including stamp duty.

This company was first registered in the Transvaal December, 1891, as the Treasury Gold Mining Co., Ltd., to acquire 1½ claims on the Main Reef, Witwatersrand, formerly the property of the Royal Gold Mining Co., Ltd., and one adjoining claim forming part of the property of the New Grahamstown Co. In February, 1893, the company acquired the property and assets of the Geldenhuis West Gold Mining Co., Ltd., for 21,000 shares, and shortly afterwards acquired a half-interest in the Pluto Block of 12 claims on the dip of the Geldenhuis Estate, Geldenhuis West, and Jumpers Claims, at a cost of £5,758. The other half of the Pluto property was acquired in 1894 at a cost of £8,815. In April, 1895, the company agreed to transfer four claims and 23,000 fully-paid shares to the Jumpers Deep Ltd., in exchange for 9¼ claims of the Jumpers Deep property. On the 24th June 1895, it was resolved to acquire a further 9½ claims from the Geldenhuis Estate Co., for 35,000 fully-paid shares, and the company was at the same time reconstructed under the present title, being re-registered in the Transvaal in July, 1895. One other claim has since been purchased to enable a new shaft to be sunk. The property now consists of 31·3 claims, of which 28·7 are reef claims.

TREASURY GOLD—continued.

A new 40-stamp mill and cyanide works were started in March, 1896, in place of 15 old stamps, and 20 stamps have since been added, making 60 in all; a slimes plant and tube mill have also been added. During 1909-10, 109,235 tons yielded £135,972; profit £24 877, or 4s. 6·6d. per ton. During 1910-11 (to October, 1910) 66,030 tons yielded £83,397; profit £16,481. For crushings *see tables at commencement of volme.* Ore reserves at March 31st, 1910, 201,580 tons, value 5·6 dwts.; at September 30th, 1910, 136,221 tons.

In December, 1910, an agreement was adopted with the Jumpers Gold Mining Co., Ltd., whereby it is provided *inter alia* that the Jumpers Co. shall take over the entire management of the mine and works of the Treasury Co., and work same in conjunction with the mine and works of the Jumpers Co. All ore, sands, concentrates, &c., to be mined and treated jointly, and the net profits of the joint working of the two mines to be apportioned as to two-thirds to the Jumpers Co., and one-third to the Treasury Co. The Jumpers Co. is to be entitled to the use of such buildings, plant and machinery of the Treasury Co. as may be necessary, the Treasury Co. to be at liberty to remove and deal with the balance. The Jumpers Co. to purchase 20 stamps of the Treasury Co. at a valuation, the price to be paid upon termination of the agreement. The Jumpers Co. to set aside monthly £400 out of their share of profits until the Treasury Co.'s share of profits amounts to £53,500. If on the termination of the agreement the Treasury Co's. profits have not amounted to £53,500, the amount so set aside by the Jumpers Co. to be devoted to making up deficiency in so far as it goes. Agreement to remain in force until both mines are completely worked out, provided, however, that if no profits are made on the joint working, the Treasury Co. will be entitled on giving one month's notice, to terminate the agreement, but in such event the sale of the 20 stamps shall remain unaffected.

The authorised capital is £540,000, in 135,000 shares of £4 each; all the shares are issued and fully paid.

The capital was originally £15,000, in £1 shares, of which 7,000 fully-paid shares were allotted to the East Anglian Co. for the Royal property, and 5,000 to the New Grahamstown Co. for their one claim; 2,500 shares were jointly subscribed by the two companies at 10s. per share. In February, 1893, the capital was increased to £40,000 in order to acquire the Geldenhuis West property. In 1894, 4,000 reserve shares were sold at 26s. each. The capital was further increased to £60,000 in September, 1894, the 20,000 new shares being allotted to the Consolidated Gold Fields of South Africa, Ltd., at 22s. 6d. per share, and again increased to £100,000 in April, 1895, in order to acquire the Jumpers Deep Claims, when 8,300 new shares were offered to Treasury and Jumpers Deep shareholders at 70s. each. The next increase was in June, 1895, when the company was reconstituted with its present capital, shareholders receiving one new fully-paid share of £1 in exchange for each £1 share held.

This company was registered December 21st, 1900, and is a reconstruction of a company of the same name registered July 14th, 1892, to take over the undertakings of the Waterberg (Transvaal) Land Trading and Prospecting Co., Ltd., registered October 24th, 1889, and the Oriental (Transvaal) Land and Exploration Co., Ltd., registered September 30th, 1889 (*see vol. for* 1900). The company owns 42 farms, of which 28 are in the Waterberg district, two in the Lydenberg district, nine in the Middelburg district, two in the Rustenberg district and one in the Zoutspanberg district; also six town sites at Belfast, on the Delagoa Bay Railway; total extent of properties about 221,300 acres, all in the Transvaal. The old company opened up a colliery on the farm Eikeboom, about 12 miles from Middelburg, and in 1895 the coal-mining rights under this and two adjoining farms were sold to the United African Collieries, Ltd., but were repurchased in 1900. A tramway to connect the collieries with the Delagoa Bay Railway is partly constructed. Some of the farms are being prospected. It is proposed to amalgamate or reconstruct.

The authorised capital is £500,000, in 1,000,000 shares of 10s. each; 802,488 shares (£401,244) have been issued and fully paid, 171,432 credited as fully paid. The issued capital of the former company was £315,528, and for each fully-paid £1 share two shares credited as 8s. paid were offered.

The accounts for year to September 30th, 1910, submitted December 16th, 1910, showed profit and loss debit balance £23,734; cash £468, debtors £106, loans and investments £2,337, calls unpaid £619; creditors £7,358.

Transfer form, common; fee, 2s. 6d. The 18th September, 1901, was appointed a special settling day in shares Nos. 171,426 to 661,699, 682,482 to 697,812, 1 to 48,138, 64,901 to 134,591, and 802,482 to 802,488, and March 12th, 1902, in Nos. 48,139 to 64,900, 134,592 to 171,425, 661,700 to 682,481, and 697,813 to 802,481. This company was registered February 11th, 1898, to acquire from F. Mack 900 gold mining claims in the Abercorn, Umfuli, Lo-Magondi, and Lower Umfuli districts of Mashonaland, Rhodesia. The consideration was £170,000, paid £10,000 in cash and £160,000 in fully-paid shares. Further claims were afterwards acquired and others abandoned. The company purchased 4,500 ordinary and 185 founders' shares of the New Rhodesia District Development Co., Ltd., and arranged with that company to develop some of the claims, as a result of which 212 claims were sold to the Battlefields (Rhodesia), Ltd., for £42,574 in fully-paid shares, and in December 1904, 20,000 Battlefields shares were offered to shareholders at par. Claims now held, 135, some let on tribute.

The authorised capital is £87,500, in 350,000 shares of 5s. each; 229,050 shares are issued and fully paid, 169,050 being issued credited as fully paid. The capital was increased from £250,000 to £350,000 in July, 1900, and reduced to present amount in November, 1907, by writing off 15s. per share, being capital lost or unrepresented by assets.

Dividends paid: For 1907-8, 15 per cent.; 1908-9, 10 per cent. July 1st, 1909.

The accounts to June 30th, 1909, submitted December 2nd, 1909, showed £3,737 profit, making with balance forward £5,728; dividend absorbed £5,439, leaving £289 carried forward. The accounts to June 30th, 1910, submitted December 19th, 1910, showed credit balance increased to £1,307 which was carried forward; cash £2,135, loans £10,174, investments £15,978; creditors £28.

THIS company was registered in Natal November, 1888, to take over the property of the Ivy Reef Gold Mining Co., Ltd., consisting of five claims on the Ivy Reef, De Kaap district, Transvaal, also other adjoining claims on Moodie's Reserve. The purchase consideration was £33,400. In June, 1894, the adjoining Woodward and Walker claims, with battery and water-rights, were purchased for £2,000. In July, 1895, the adjoining 22 claims of the United Ivy Extension Gold Mining Co., Ltd., were purchased for 27,000 fully-paid shares. The company now owns 46 claims, all held on lease from Moodie's Gold Mining and Exploration Co., Ltd. Crushing commenced in 1889, with 5 stamps; 5 were afterwards added, and a further 10 in 1896, making 20 in all, with cyanide plant. For crushings *see table at commencement of volume.*

The property is being worked by John Whidborne Watts (the mine manager), the company receiving a royalty of 2s. 6d. per ounce of gold produced, with a minimum of £52 10s. per month, the lessee having the right to purchase the property for £30,000 cash. Negotiations are in progress for the sale of the assets.

The authorised capital is £100,000, in 100,000 shares of £1 each; 89,000 shares have been issued and are fully paid. The capital was increased from £45,000 to £60,000 in June, 1894, and to £100,000 in June, 1895. There are £3,522 debentures in bonds of £6 each, part of £6,000 offered to shareholders in 1903; interest (10s. per bond per annum) is payable January 1st, and the bonds are redeemable at £7 each. There are also £2,000 debentures issued to lessee.

Dividends paid: 2½ per cent. each in April, May, June, and August, 1892, January, July, and October, 1893, January and April, 1894, and May 1st, 1896.

The accounts for year ended May 31st, 1910, submitted in Durban June 30th, 1910, showed credit balance increased from £3,587 to £4,010.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per deed of 100 shares or part of 100. Shares transferred from London to Colonial register, and *vice versâ*, free of charge.

Extracts from circular dated December 17th, 1910, issued to shareholders in VAAL RIVER GOLD FIELDS, LTD.:—

Crushing operations with the subsidiary battery, which has been removed from the old site to the northern workings, are expected to commence at an early date. The developments which have been taking place during the past two years on the property, are of such a satisfactory nature that there is no doubt that the mine will prove to be a payable proposition. The subsidiary plant erected on the new site will be able to treat about 700 tons of ore per month, and in order to conduct operations on a much larger scale, it will be necessary not only to remove the remainder of the forty stamps to the new site, but also to increase the crushing plant and carry on development work on a much larger scale than hitherto attempted. To do this a considerable amount of additional working capital will be required, and to provide these funds in a manner that would not necessitate any further call on the shareholders. Satisfactory arrangements have been made with the Oceana Development Company, a well-known and substantial South Africa land and finance company, to take over the entire management on the following terms:—A new company to be at once registered in England, with a capital of £350,000, in 2,800,000 shares of 2s. 6d. each. Of these 1,400,000 shares to be allotted fully paid up to the present shareholders, being one share for every share held. The remaining 1,400,000 shares to be issued credited with 1s. 9d. per share as paid up, leaving a liability of 9d. per share to provide working capital Shareholders to have the right to apply for one contributing share for each share now held. Arrangements have been made to underwrite the whole of the 1,400,000 shares for a commission of 7½ per cent., and 2½ per cent. brokerage, thus ensuring a cash capital of £52,500. £5,000 will be payable to the old company in order to repay loans advanced by the Oceana Development Company, and the payment of other outstanding liabilities, so that after allowing for underwriting commission, legal registration and other expenses (estimated at £2,000) there will remain £40,250 available for working capital. The chairman of the new company is proceeding to Klerksdrop on January 7th, in order to take over the property, appoint a new local board, and place the management under the organisation of the Oceana Development Company, Limited. The scheme is one which will recommend itself to the shareholders, as it not only reserves them a share per share interest in the new company without any assessment, but ensures the provision of a sufficient amount of working capital to develop the mine on a large scale. It also ensures the provision of highly efficient management both in London and South Africa, as it will have at its disposal the experienced staff of one of the oldest South African land and finance companies.

THIS company was registered June 22nd, 1894, and is a reconstruction of the Van Ryn Estate and Gold Mining Co., Ltd. (*see vol. for* 1896). The property now owned is situated on the farm Vlakfontein No. 442, in the Eastern district of the Witwatersrand Gold Fields, and is 7,944 acres in extent, in addition to an unproclaimed area of 534 morgen recently acquired. The mining area on the Van Ryn reef, the ore body which is being worked, consists of some 134 intact reef claims after allowing for the ground exhausted, while the company's water-rights cover 351½ acres.

Crushing commenced in February, 1892, and in October, 1896, a new 80-stamp mill and cyanide plant were started. Another 80-stamp mill was acquired with the Van Ryn West property, and a further 20 heavy stamps added during 1909, making 180 stamps. A new slimes plant has been added, also six tube mills, bringing the crushing capacity to 45,000 tons per month. Crushing was suspended in October, 1899, and during the war the machinery was damaged by the Boers, but this has been replaced, and crushing was resumed in June, 1903. During 1908-9, 358,230 tons yielded £551,138; profit £273,470 or 15s. 3d. per ton; costs 15s. 6d. per ton. During 1909-10, 392,911 tons yielded £560,772; profit £271,943, or 13s. 10d. per ton. For crushings *see tables at commencement of volume*. Ore reserves at June, 1909, 1,419,430 tons, value 6·53dwts., and 337,090 tons partially developed, value 6·31dwts.; at June, 1910, 1,590,711 tons, value 6·39dwts., and 202,811 tons partially developed, value 6·93dwts., also 851,258 tons below 4dwts.

The authorised capital is £500,000, in 500,000 shares of £1 each; all the shares are issued and fully paid. The capital was formerly £160,000, one fully-paid share being given for every two shares of old company; in 1895 the capital was increased to £200,000, 10,000 shares being issued to shareholders at £6 each; 10,000 taken up at £6 each under an option, and 20,000 issued credited as fully paid in payment for the undertaking of the Van Ryn North Co. In 1898 the capital was increased to £400,000, 50,000 shares being issued in payment for the Van Ryn West undertaking and the remainder being taken up at 30s. each. The capital was increased to present amount in November, 1901; the 100,000 new shares were issued to shareholders in February, 1902, at £2 15s.

Dividends paid: 1894-5, 4s. per share; 1904-5, 4s; 1905-6, 4s.; 1906-7, 6s.; 1907-8, 7s.; 1908-9, 9s. (4s. 6d. January 9th, 1909, and July 10th, 1909); 1909-10, 9s. (4s. 6d. January 10th, 1910, and July 9th, 1910); 1910-11, 4s. 6d. (interim), January 10th, 1911.

The accounts for year to June 30th, 1909, submitted December 15th, 1909, showed a profit of £279,386, making with balance forward a sum of £390,712;

This company was registered in Rhodesia October 17th, 1906, to acquire the preferential right to develop 250,000 E.H.P. (electrical horse power), at the Victoria Falls, on the Zambesi River, South Africa, and the exclusive right to deliver power from the falls to the Transvaal Colony. These rights have been granted for a period of 75 years from December, 1906, by the British South Africa Co., to the vendors. The consideration was £1,120,000, payable £120,000 cash and £1,000,000 in fully-paid ordinary shares. The company also acquired as a going concern the entire undertaking of the General Electric Power Co., at Driehook, near Germiston, Transvaal, including contracts for the lighting of the township of Germiston, and the supply of electrical energy to various mines on the Witwatersrand. The company was promoted by the vendors, the African Concessions Syndicate, Ltd. The undertaking of the Rand Central Electric Works, Ltd. (*see vol. for* 1908), comprising a 3,550 h.p. steam-driven station at Brakpan, Eastern Witwatersrand, was subsequently acquired as a going concern as from February 1st, 1907, for £175,000 in debentures and £175,000 in fully-paid preference shares. Contracts have been entered into to supply power to the mines under the control of the following groups: Consolidated Gold Fields of South Africa, Ltd., General Mining and Finance Corporation, Ltd., S. Neumann & Co., Consolidated Mines Selection Co., Ltd., Lewis & Marks, and others.

A 9,700 h.p. station has been erected at Brakpan, a second station of 27,400 h.p. at Simmer Pan, a third station of 84,000 h.p. at Roshervilie, and it is proposed to erect a 53,600 h.p. station at Vereeniging. The total capacity of the plant when erected will be 155,100 h.p., and in addition 16,000 h.p. steam turbine-driven air-compressors, capable of supplying 500,000,000 units of electric power per annum.

In June, 1909, the company formed the Rand Mines Power Supply Co., Ltd., and owns the entire share capital.

The authorised capital is £3,000,000, in 2,000,000 preference and 1,000,000 ordinary shares of £1 each; 1,838,000 preference and all the ordinary shares are issued and fully paid. There are £1,700,000 five per cent. first mortgage debentures (part of £3,000,000) redeemable after January 1st, 1917, at a premium of 10 per cent. During 1909, £900,000 debentures (making as above) were issued at 94 per cent. to the Dresdner Bank, Berlin, and Deutsche Bank, Berlin. The preference shares are entitled to a cumulative dividend of 6 per cent. per annum in priority to the ordinary shares, and share *pro rata* with

the ordinary shares in the surplus profits distributed in any year until they have received a total dividend of 10 per cent. for such year. The British South Africa Co. paid interest at the rate of 5 per cent. per annum during the construction period ending December 31st, 1908. In December, 1906, 625,000 preference shares were offered for public subscription, and in April, 1909, a further 900,000 preference shares were offered for public subscription; the last issue was underwritten by L. Hirsch & Co. for a cash commission of $5\frac{5}{6}$ per cent. and a brokerage of 6d. per share.

The accounts for year to December 31st, 1909, submitted in London July 15th, 1910, showed £135,398 balance of revenue over expenditure; cash £185,296, debtors £21,162, on deposit with Transvaal Government £1,305, on deposit with manufacturers of plant £272,399; creditors £37,880.

THIS company was registered November 28th, 1890, to take over the property of a South African company of the same name (formed in December, 1888), comprising 20 main reef deep level claims on the farm Turffontein, Witwatersrand district, Transvaal, being the dip claims of the Jubilee and City and Suburban Companies' properties. In October, 1892, the company acquired 72 claims, adjoining on the south and west for 37,000 fully-paid shares. In 1896 a block of 11½ claims was sold to the Wemmer Company for 25,000 fully-paid Wemmer shares and £6,500 cash. In 1898, the company purchased from the Rand Mines, Limited, and Salisbury and Jubilee Companies, a block of 61 claims (except surface rights on 35) adjoining on the south, for 116,816 fully-paid shares. The freehold of about 100 of the claims was purchased in 1906 for £31,500.

In March, 1906, the undertaking (as from January 1st, 1906) of the Wemmer Gold Mining Co., Ltd. (*see vol. for* 1906), comprising 31¾ main reef claims and water rights and 11 claims bewaarplaatsen adjoining the Village Main property, also 60-stamp mill and cyanide plant, was acquired for 72,000 fully-paid shares, the company's holding (20,000 Wemmer shares) being cancelled. It was estimated that the milling ore remaining in the Wemmer mine at October 31st, 1905, was 324,775 tons, valued at 42s. 5d. per ton. The assets also included 34,926 fully-paid Village Deep shares. The freehold of the Wemmer claims has been purchased for £43,000. Total claims now held, 172.

Crushing commenced in January, 1892, with 10 stamps, afterwards increased to 40. In 1898, a new mill of 100 stamps was erected and 60 stamps were added in 1899, and 60 acquired with Wemmer property in 1906, making 220 now at work, also six tube mills and cyanide and slimes plant. Arrangements have been made with the Rand Mines Power Supply Co., Ltd., for the supply of electrical and compressed air power as from October, 1910. During 1909, 513,800 tons yielded gold value £787,162; working profit £392,820 or 15s. 3d. per ton; costs 15s. 4d. per ton; during 1910, 493,300 tons yielded gold value £860,840; estimated working profit £455,820. For crushings *see table at commencement of volume.* Payable ore reserves at December 31st, 1908, 2,831,727 tons value 7·02dwts. per ton; at December 31st, 1909, 2,886,532 tons value 6·8 dwts. per ton.

Estimated life, treating 500,000 tons yearly, seven years from January, 1911.

The authorised capital is £472,000, in 472,000 shares of £1 each; all the shares are issued and fully paid. The capital was first increased from £100,000 to

THIS company was registered October 10th, 1893, to acquire the freehold of one half of the farm Vogelstruisfontein, No. 338, seven miles west of Johannesburg, Witwatersrand, Transvaal, formerly owned by the Vogelstruis Gold Mining Co., Ltd., but purchased by the debenture-holders of that company in 1893 for £10,000 cash, and subsequently sold to this company for £100,000 in fully-paid shares. The property is about 3,200 acres in extent, and includes a mynpacht of 42 outcrop, and 140 deep level main reef claims and various water rights. The township of Hamburg is situate on the estate, and the company receives a proportion of rents paid for stands, and also one-half of the amount paid by other parties for claim licences on its freehold.

A mill of 80 stamps and cyanide works were started in December, 1896, but stopped in 1897; the mine has since been developed in the deeper levels, and crushing was resumed in September, 1899, but, owing to the war, was suspended after nine days' work. Crushing was again resumed in March, 1903. A slimes plant started work February, 1910. During 1908-9, 127,688 tons yielded £164,761; costs 20s. 10d. per ton; during 1909-10, 107,291 tons yielded £136,850; costs 20s. 3d. per ton. For crushings *see table at commencement of volume.*

This company was registered January 17th, 1908, to acquire from G. H. Bonas (1) the concession for a railway from Vryheid to Holbane Colliery, Natal, about 17·6 miles in length with the right to extend same for a further 20 miles to or near Parys; (2) the Holbane Colliery and adjoining coalfield, comprising 41,000 acres, and (3) options over farms, containing iron and manganese deposits, near Parys, comprising 18,000 acres. The consideration was £305,000, payable £50,000 cash, £175,000 in fully paid ordinary and £80,000 in fully paid preference shares. The company has power at any time before December 31st, 1912, to give notice of its intention to continue the railway from Holbane to a terminus at or near Parys. The Natal Government has agreed to guarantee interest at the rate of 3½ per cent. per annum upon the cost of construction of the extension (up to £140,000) if the company exercises its powers regarding same and reserves the right of expropriating the railway (and extension) on December 21st, 1931, upon payment to the company of the full cost of construction. The coal property was reported on by C. E. Rhodes & Son. The railway was opened for traffic March 1909. During 1910, the company acquired the running rights over a line owned by another company. Coal output for 1909, 70,861 tons. The coal output is about 2,600 tons weekly.

The authorised capital is £500,000, in 325,000 7½ per cent. cumulative preference and 175,000 ordinary shares of £1 each; 192,406 preferred and all the ordinary shares are issued and fully paid. In January, 1908, all the preference shares were offered for subscription; 112,594 preferred have been forfeited. The vendor guaranteed the full 7½ per cent. on the preference shares until January, 1910, all monies so paid by the vendor being repayable out of any surplus profits that may remain in any subsequent year after payment of the full prefer-

This company was registered June 4th, 1897, and is a reconstruction of the White Rose Gold Mining Co., Ltd., registered June 28th, 1895 (*see vol. for* 1900). The original property comprised 28 claims, about 14 being on the Botha's Reef, farm Luipaard's Vlei, Krugersdorp district, about 20 miles west of Johannesburg, Transvaal. Other claims have been acquired, including 18 acquired in 1907, for £27,000, and the company now owns 66, of which about 38 are reef claims, and 28 north of the reef.

A 20-stamp mill and cyanide plant commenced work in 1898, and a slimes plant in December, 1906. A tube mill was erected in 1907. During 1907-8, 30,459 tons yielded gold value £43,390 or 28s. 5·8d. per ton; costs 22s. 1·7d. per ton. During 1908-9, 35,260 tons crushed yielded £46,188 or 26s. 2·3d. per ton; costs 23s. 9·5d. per ton. For crushings *see table at commencement of volume*.

The authorised capital is £100,000, in 100,000 shares of £1 each; all the shares are issued and fully paid, including 76,880 issued credited as 15s. paid (one for each fully-paid share of the old company). The final call on 23,120 issued at par in May, 1902, was 5s., due August 6th, 1907. The capital was increased from £80,000 to present amount in 1902, the new shares being offered to shareholders; the issue was guaranteed by the Transvaal Exploring Land and Minerals Co., Ltd.

Dividends paid: 10 per cent. for 1903-4; 7½ per cent. for 1904-5.

The accounts for year ended September 30th, 1908, submitted March 17th, 1909, showed receipts £43,579 and a profit of £6,680, making with balance forward (less £310 tax) a sum of of £26,541; £2,023 was written off for depreciation leaving £24,518 carried forward. THIS company was registered in the Transvaal August 10th, 1903, and acquired 726 reef-bearing claims, and 3 water-rights, situate on farms Luipaards' Vlei No. 8, Rietvlei No. 113, and Uitvalfontein No. 2, West Rand, Transvaal, formerly owned by the General Mining and Finance Corporation, Ltd., S. Neumann & Co, A. Goerz & Co., Ltd., Weston Synd., Ltd. (*see vol. for* 1905), and others; also 216,696 shares in West Rand Mines, Ltd., at par, and 261,684 Violet Consolidated shares, at about £2 each. The total purchase consideration for claims and shares was £160,893 cash and 1,175,964 ordinary and 25,000 deferred fully-paid shares. In April, 1907, the adjoining undertakings of the Violet Consolidated Gold Mining Co., Ltd. (*see vol for* 1908) (owning 683 claims and 60-stamp mill and cyanide plant), and West Rand Mines, Ltd. (*see vol. for* 1908) (owning 669 claims), were acquired as from December 31st, 1906, for 553,460 fully-paid shares, payable 270,156 to the Violet Co. and 283,303 to the West Rand Mines, the company cancelling its holding of shares in those companies. The property now comprises 2,040 claims with water rights, &c., of which 1907-8 claims are on the main reef series (1,731 claims being in one compact block) and 715·5 are underlaid by the Battery Reef). (*See Plan opposite*). A new main shaft (East shaft) has been sunk to the reef, and connected with outcrop workings of Nos. 1 and 2 mines, and another shaft (West shaft) has been sunk and connected with the No. 3 mine outcrop workings in order to permit of development being carried out on a larger scale while active development is also taking place in the Battery Reef workings.

The reduction plant consisting of 80-stamps, two tube mills and cyanide plant commenced work September 1st, 1908, ; a further 20 heavy stamps (1,850lbs. each) and two tube mills were added during 1909, and the cyanide works extended, the whole having a capacity of 30,000 tons monthly. Development, however, is being pushed, so as to open up the different sections of the huge property and justify the installation of additions to the plant, so as to give a total capacity of about 100,000 tons per month. The plant is driven by electrical power. During 1909, 212,060 tons yielded £273,632; profit £70,652 or 6*s.* 8d. per ton. During 1910, 242,000 tons yielded £277,396; estimated profit £41,736. Estimated ore reserves at December 31st, 1908, 451,961 tons, value 7·41dwts. per ton; at December, 1909, 826,631 tons, of which 776,429 tons had a value of 6·3dwts. There were also about 390,000 tons partially developed, a considerable portion of which will prove payable. The ore reserves have since been largely increased, and at the end of 1910 were estimated at 1,500,000 tons. *For details of monthly returns see table at commencement of volume.*

The authorised capital is £2,025,000, in 2,000,000 ordinary and 25,000 deferred shares of £1 each; 1,979,424 ordinary and all the deferred shares are issued and fully paid, the deferred and 1,175,964 ordinary being vendors', 250,000 ordinary subscribed at £2 per share and 553,460 issued to acquire the Violet and West Rand Mines Cos. The capital was increased from £1,525,000 in May, 1907. The deferred are entitled to 25 per cent. of all profits after an aggregate dividend of 100 per cent. has been paid on the ordinary, also to subscribe for one-fourth of any future share issued ; the West Rand Trust, Ltd., holds all the deferred shares. In January, 1905, 500,000 fully-paid ordinary shares were offered for sale to the public by the General Mining and Finance Corpn., Ltd., at £2 2*s.* 6d. per share (issue over-subscribed). The directors have power to increase the capital to £2,275,000 to provide shares for debenture-holders' rights. In lieu of the right

THIS company was registered in the Transvaal April 4th, 1902, with the object of proving the continuation of the Randfontein or Main Reef series, and has acquired the following farms in the district of Krugersdorp, Western Witwatersrand, immediately south-west of Randfontein:—Freeholds: Gemsbokfontein No. 1, 3,890 morgen; Venterspost No. 27, 1,274 morgen; Uitval No. 26, 2,300 morgen; Libanon No. 28, 2,140 morgen; Blaauwbank No. 672, 2,784 morgen. Mineral rights: Venterspost No. 27, 3,890 morgen; Blaauwbank No. 41, 5,000 morgen—a total area of 21,279 morgen, equivalent to 45,038 English acres in freehold and mineral rights. In 1906, a half interest in mineral rights of adjoining farm Orange Grove No. 162 was sold to the Orange Grove Estates, Ltd., in which this company holds about five-twelfths of the shares.

All the properties, with the exception of Blaauwbank No. 672, are in one compact block, and extend from north-east to south-west over a distance of approximately 10 miles. *See plan next page.* Shaft sinking is in progress on Gemboksfontein and the reef is expected to be struck at 1,500 feet to 1,700 feet.

The properties have been tested by boreholes with the following results:—Borehole No. 4, 1,972ft. 7·5in. = 158dwts. leader; borehole No. 5, 2,009ft., 9·0in. = 11dwts. leader; borehole No. 7, 3,188ft. 9·0in. = 23dwts., west reef; borehole No. 8, 1,677ft. 12·2in. = 18dwts. leader. Average assay value over a width of 26in. = 16·4dwts. Borehole No. 9, 2,302ft. 8·0in, = 6·6dwts. No. 1 reef; Upper, 5·0in. = 12·6dwts. No. 2 reef; Lower, 7·5in. = 11·23dwts. No. 2 reef.

At the meeting held October 20th, 1910, the chairman stated that the Minister of Mines had now sanctioned the issue of the Mynpacht Brieven of the Mynpachts on Gemsbokfontein and Venterspost. The Mynpacht on Gemsbokfontein would be in extent 773 morgen, 17 square roods, and upon Venterspost 943 morgen, 429 square roods, together 1716 morgen, 446 Cape roods, equivalent to 2,472 claims. The Government had given notice of their

intention to proclaim the two farms in January 1911, and as there would be a large number of gold bearing claims available for public pegging the Company's share of claim licences should mean a very considerable revenue.

Two Sulzer pumps have been erected to deal with the influx of water and are capable of dealing with 3,000 gallons of water per minute. The shaft, a circular one, 17ft. 9in. clear in diameter, had already been sunk to a depth of about 80ft., and it was proposed to sink to about 1,700ft. Before reaching that depth, however, it is the intention to crosscut for the reef. In January, 1911, it was announced that the water difficulties had been overcome and sinking in dolomite was proceeding.

The authorised capital is £202,500, in 405,000 shares of 10s. each; all the shares are issued and fully paid. The capital, originally £108,000 in 5s. shares, was increased to £135,000 in April, 1902, Mr. D. J. Pullinger subscribing for 81,000 at 15s. premium and 27,000 at 25s. premium. In June, 1909, the shares were consolidated into 10s. shares, shareholders receiving one new for every two old shares, and the capital increased to £202,500 by creation of 135,000 shares of 10s. each; the new shares were offered to shareholders at 20s. each *pro rata*, the issue being guaranteed.

WESTERN RAND—continued.

The accounts for fifteen months to June 30th, 1910, submitted in Johannesburg October 20th, 1910, showed expenditure (less receipts) £94,943; cash £20,882; creditors £1,113, contingent liabilities £6,912. Share premium account £158,625.

A share register is kept in London. Transfer form, common; fee, 2s. 6d. per 100 or part of 100. WILLOUGHBY'S CONSOLIDATED—continued.

THIS company was registered December 13th, 1894, to take over the undertakings of Willoughby's Mashonaland Expedition Synd., registered August 13th, 1892, and the Mashonaland Development Co. (Willoughby's), Ltd., registered April 29th, 1893 (*see vol. for* 1900). The company has sold properties to the Matabele Central, (subseqnently re-acquired) Bulawayo Waterworks, Chicago-Gaika, Bonsor, Dunraven, Surprise, and Matabele Queen's companies.

At December 31st, 1909, the company owned 2,330 gold-mining claims and the right to re-peg 1,845 claims; 906,262 acres of land; 25 building sites in Bulawayo, 91 in Salisbury, 47 in Umtali, 36 in Victoria, 290 in Umganin, 9 in Selukwe, with half share in a further 297; interests in the Sengwe and Tuli coalfields; 5,000 shares, together with other interests in South African Option Syndicate, Ltd.; also an option to acquire from Sir J. C. Willoughby a five per cent. interest in the diamond grant held by him, the consideration to be 50,000 fully-paid shares; also sundry share and claim interests. The Umviga, Danga, West Queens, Emerald Reef, Mont d'Or Mines, Queen Adelaide, and Off Chance properties are let on tribute. The Eileen Alannah property in the Hartley district, in the vicinity of the Cam and Motor properties, was let on lease to November, 1911, but in September, 1910, the tributors' interest was acquired, also the Arizona claims (60) on the extension of the Eileen Alannah reef, the consideration being £55,000 cash. The purchase included a five-stamp mill. An eighth interest in this property is held by the Surprise Gold Mining Co., Ltd. Development work is in progress, the cost to be met out of the profits from working the small plant. A 10-stamp mill is erected on the Eiffel Blue, but crushing was suspended for six months from September 1st, 1910, in order to increase the ore reserves. For crushings *see table at commencement of volume.*

The authorised capital is £750,000, in 1,500,000 shares of 10s. each; 1,219,745 shares are issued and fully paid. The capital was originally £1,000,000 in £1 shares, and under the scheme of amalgamation 300,000 fully-paid shares were allotted to the syndicate and 208,500 fully-paid shares to the development company, and an issue of 200,000 shares was made at 22s. 6d. per share to shareholders of both. In December, 1897, shareholders were invited to take up about 100,000 reserve shares at 22s. 6d. each, and a further 116,040 were issued in 1898. In January, 1909, the capital was reduced to £500,000 by cancelling 10s. on each share; it was then increased to £750,000 by creation of 500,000 new shares of 10s. each, and 200,000 were offered to shareholders for subscription at par, in April, 1909, the issue being guaranteed. There are £63,200 six per cent. debentures in bonds of £100 (part of £250,000 authorised), £100,000 having been offered for public subscription at par in 1899, also a further £45,000 debentures issued as collateral security for loans; interest is payable January 1st and July 1st, and the bonds are redeemable at par by annual drawings of £9,100, commencing January, 1909, or at 105 at any time on six months' notice.

In June, 1898, a bonus distribution of one fully-paid share of the Bonsor Co., and one fully-paid share of the Dunraven Co., in respect of every 25 shares of this company, was announced.

The accounts for year ended December 31st, 1908, submitted July 19th, 1909, showed a profit of £10,113, making with balance forward a sum of £27,789, which was written off properties, &c.

This company was registered in the Transvaal November 9th, 1895, to acquire the assets of the East Rand Synd., Ltd., formed in January, 1893, comprising 275 claims, south of the Witwatersrand (Knight's) Mine, on farm Driefontein, Boksburg, Eastern Witwatersrand, Transvaal. The consideration was £286,500, in fully-paid shares; 65,000 shares were offered to shareholders of the syndicate at £2 10s., the issue being guaranteed by S. Neumann & Co. and H. Eckstein & Co. The company subsequently purchased 10 claims and a water-right on farm Klippoortje for £4,720 cash. In May, 1908, 125 deep level claims and about £40,000 cash were acquired from Driefontein Deep, Ltd. (*see vol. for* 1909), for 36,623 fully-paid shares. Total area now held, 416 claims on farm Driefontein, and nine claims and water right on Klippoortje. Two shafts are sunk, the West Shaft (vertical) and East Incline, and at December, 1909, had reached depths of 1,613ft. and 2,755ft. respectively.

Crushing commenced in November, 1902, with 60 hired stamps, and stopped in June, 1904; the company has erected its own 245-stamp mill with cyanide and slimes plant, also four tube mills, and crushing commenced in December, 1904. During 1909, 470,500 tons yielded £732 327; profit £360,107; costs 15s. 9·83d. per ton; during 1910, 474 660 tons yielded £707,490; estimated profit £323,411. For crushings *see table at commencement of volume*. Payable ore reserves at December 31st, 1909, 1,750,248 tons, value 7·19dwts., per ton; at September 30th, 1910, 1,658,593 tons.

Estimated life, treating 560,000 tons yearly, 18 years.

The authorised capital is £550,000, in 550,000 shares of £1 each; all the shares are issued and fully paid. THIS company was registered in the Transvaal November 29th, 1886, to acquire the farm Driefontein, Eastern Witwatersrand, 10,355 acres in extent, with a mynpacht of 300 claims. The vendors received £45,000 in cash and £150,000 in shares. In January, 1889, the company sold 36 claims for £210,000 in cash and £15,000 in shares of the Balmoral Main Reef Gold Mining Co., Ltd. In May, 1893, 12 claims adjoining the Glencairn property, with the corresponding 48 dip claims, making 60 in all, were sold to Barnato Bros. for £60,000. During 1909, 26 claims situate to the north were acquired for £1,500. The company now owns Mynpacht No. 320, 296 morgen in extent, equal to 427·5 claims, 102 prospecting claims, four water rights, a werf, and 4,780 morgen (freehold) on farm Drietfontein, No. 148, Boksburg district, Transvaal, and also derives a revenue of about £14,000 per annum from a residential estate of 4,892 acres, situate on the said farm to the north of the main reef series.

Crushing commenced in January, 1888, with a 50-stamp mill, and further 50 stamps were afterwards added, but crushing was suspended in 1891 and the mine has since been thoroughly developed and a new 120-stamp mill and cyanide plant erected, crushing being resumed in 1896. A further 100 stamps (making 220) and slimes plant have been added and are now at work. During 1909, 363,620 tons yielded £420,656; profit £155,466, or 8s. 6·6d. per ton, costs 14s. 7d. per ton (operations interfered with due to floods); during 1910, 426,890 tons yielded £482,940; estimated profit £215,576. This company was registered in the Transvaal November, 1895, having first registered in Cape Colony in November, 1887, as the Wolhuter Gold Mining Co., Ltd., to work 16 claims on farm Doornfontein, Witwatersrand, Transvaal. In 1892, three claims were sold to the Meyer and Charlton Co., for 5,000 shares. In February, 1893, 59 dip claims, known as the Ray Block, were purchased for 30,000 shares. In May, 1893, the freehold of the township portion of the property was purchased for £1,500, and in June, 1893, the freehold of the claims then held was acquired for £5,332. In 1894 a portion of the township property was sold to the Ford and Jeppe Estate Co., Ltd., for 4,000 shares. In April, 1895, 72 dip claims were purchased from the Rand Mines, Ltd., for £60,000 in shares. The company was reconstructed in November, 1895. In 1899, eight claims were sold to the Meyer and Charlton Co. for £105,000 cash, leaving 163 main-reef claims, also about 13 (reef) claims bewaarplaatsen and water right. The remaining freehold of the claims was purchased in 1905 for £6,500. Arrangements have been made with the Government for working the bewaarplaatsen and water rights, approximately 13 claims, the companies concerned receiving a fixed allowance of 2s. 6d. per ton and in addition 25 per cent. of net profits.

Crushing commenced in February, 1888. A new 50-stamp battery and cyanide plant were started in 1895, and 50 stamps were added in 1896, making 100, with cyanide and slimes plant. In August, 1905, the mill was destroyed by fire, and a new mill of 120 stamps has been erected, also cyanide works and two tube mills; crushing was resumed in February, 1906. During 1908-9, 280,120 tons yielded £350,754; profit £104,263 or 7s. 5d. per ton. During 1909-10, 304,360 tons yielded £388,085; profit £122,554. For crushings *see table at commencement of volume.* Ore reserves at October, 1910, 753,679 tons, value 6·4dwts., being an increase of 317,044 tons as at October, 1909.

Estimated life, about 20 years from January, 1911.

The authorised capital is £860,000, in 215,000 shares of £4 each; all the shares have been issued and are fully paid. The capital of original company was increased from £45,000 to £70,000 in 1888, to £130,000 in 1893, and to £215,000 in April, 1895, when 17,000 shares were issued at £5 5s., issue being guaranteed by Rand Mines, Ltd., in return for an option on 8,000 at £6 each (option exercised). By the reconstruction in November, 1895, the capital was increased to present amount, one new fully-paid £4 share being given in exchange for each old £1 share.

A dividend of 10 per cent. was declared in April, 1894, on the old capital

THIS is a Portuguese company, founded 20th May, 1892, under Royal Decree (with limited liability), and holds a concession for 30 years from April 19th, 1894, over about 155,000 square kilometres of land on either side of the Zambesi and Shire Rivers, extending eastwards of the latter to the coast and embracing the Ports of Quelimane and Chinde, Portuguese East Africa. Gold-bearing reefs have been discovered, also coal, copper and petroleum. Gold-mining concessions have been acquired by syndicates and companies, including: Obrist & Co., Zambezia Bergbaugesellschaft, Campell's Zambesia Minerals Co., Zambesia Goldfields, Ltd., Ca. do Luabo, &c., &c.

The authorised capital is reis 2,700,000$000, in 600,000 shares of 4,500 reis = £1 = 25 francs each; 450,000 shares (reis 2,025,000$000) are issued and fully paid (having no further liability). Dividends paid:—270 reis each for 1898 and 1899 The accounts to December 31st, 1909, were submitted at Lisbon November 4th, 1910. Transfers by endorsement on certificate, en-registered to head office. Bearer warrants are issued.

REGULATIONS AS TO TRANSFER OF MINING RIGHTS.

The Companhia da Zambezia holds from the Portuguese Government sole mining rights in the districts of Tete and Zambezia, west of the Licungo River.

Prospecting Licences are obtained and Registration of claims made at the company's mining office at Tete, the headquarters of the director of mines.

Mining concessions are received from the Portuguese Government, through the Mining Office, and are subject to conditions imposed by the company as follows:

Art I.—Every sub-concessionaire holding claims shall pay to the Zambezia Company in gold currency:—

(1) On receipt of his Title Deed:—

(*a*) For each claim for precious metals of the area of 100 m. × 100 m., or for each claim of precious stones of the area of 10 m. × 10 m. a fee of ... ... *1,000 reis.

(*b*) For each alluvial gold dredging claim of the area of 100 hectares† when located on the Zambezi River, below Caroabassa, or on the Luenha, Mazoe and Luia Rivers, a fee of ... ... 50,000 reis.

(*c*) For each alluvial gold dredging claim of the area of 100 hectares when located on any other rivers or ground fit for dredging a fee of ... ... 10,000 reis.

(*d*) For each claim of any other mineral substance of the area of 100 hectares a fee of ... ... 27,000 reis.

(2) The following annual rents:—

(*a*) For each claim of precious metals of the area of 100 m. × 100 m.:—
For the 1st, 2nd, 3rd and 4th years ... ... 2,250 reis.
For the 5th and 6th years ... ... 4,500 reis.
For the 7th and every following year. ... ... 9,000 reis.

(*b*) For each alluvial gold dredging claim of the area of 100 hectares when located on the Zambezi River below Caroabassa, or on the Luenha, Mazoe and Luia Rivers ... ... 200,000 reis.

(*c*) For each alluvial go'd dredging claim of the area of 100 hectares when located on any other rivers or ground ... ... 50,000 reis.

(*d*) For each claim of precious stones of the area of 10 m. × 10 m.:—
For the 1st year ... ... 1,500 reis.
For the 2nd and every following year ... ... 2,250 reis.

(*e*) For each claim of any other mineral substance, of the area of 100 hectares:—
For the 1st, 2nd and 3rd years ... ... 27,000 reis.
For the 4th and every following year ... ... 90,000 reis.

(3) Should the total amount of rent and participation in profits accruing from deposits of precious stones not amount to 75$000 reis per claim per annum, the rent per claim may in such case be raised by the Zambezia Company to this amount. In case, however, it should be proved that the claims are not being exploited so as to secure the benefit of the wealth contained in the deposit, this rent may be further increased to an amount to be fixed by the Zambezia Company.

Art. II.—No rents are chargeable in respect of the six months immediately following the date of Title Deed. The first rent shall fall due and be payable at the end of such period of six months and shall be assessed in proportion to the number of months that may thereafter elapse up to the 31st December following.

Subsequent rents must be paid within the first fortnight of the January of the year in which they fall due.

Art. III.—All companies or societies, however constituted, acquiring within the territories of the Zambezia Company's concessions any mining property, whether as direct concessionnaires or by purchase from other concessionaires, or by any other means whatever, shall in addition to the liabilities imposed by Art. I. pay to the Zambezia Company, 6% of their nominal capital, in fully paid-up shares of whatever class, or if the Company's capital is not divided into shares, a proportionate interest in the Company. This liability shall be payable at the time of acquiring the property and shall extend to any increase of capital, and any issue of debentures, that may from time to time be made by such companies or societies.

Should any of the companies or societies referred to in this Article transfer their claims to other companies or societies either wholly or in part, or should any of these companies or societies form other companies or societies to acquire or work their claims, they must

*Sterling = 4,500 reis. (†) 1 Hectare = 2·4 acres.

ZAMBESIA COMPANY—continued.

in their agreements with such companies or societies, stipulate for the payment to the Zambezia Company of 6% of their nominal capital, at the time of their formation, in fully paid-up shares of whatever class, or if the Company's capital is not divided into shares a proportionate interest in the Company. Such liability shall also extend to any increase of capital or any issue of debentures that may from time to time be made.

The percentage or proportion set forth in this Article shall be at the rate of 10% whenever the exploitation is in respect of deposits of precious stones.

(*a*) When a company or firm acquires any mining property, by any of the forms indicated in Art. III., and has, in the terms of this Article, made delivery to the Zambezia Company of the percentage of 6% or 10% of its capital, it (that is, the firm or company) is not compelled to pay over again a new percentage of 6% (or 10% respectively), for each new acquisition of mining property, except, first, in the case of an increase of capital, which will always carry with it (involve) the obligation to pay over a further 6% (or 10% respectively) on the increase; second, in the case of the new title of concession there being fixed a higher rate of percentage, paying over in that case the difference between the lower rate and the higher.

(*b*) When the companies or firms to which Art. III. refers are already carrying on the mining industry outside the territories reserved to the Zambezia Company, or carry on any other industry, the percentage indicated in Art. III. will devolve on the capital which by mutual agreement may be judged necessary for the working of the mining properties which they may possess or acquire in the territories of the Zambezia Company.

Art. IV.—The companies or societies referred to in the preceding Article may, during a period of two years counting from the date of the Title Deed, work the claims they may have acquired as direct concessionnaires without being liable to the provisions set forth in the first part of Art. III., but they are bound to comply with the provisions of Art. V.

(1) Should the companies or societies referred to in the present Article transfer their claims wholly or in part to other companies or societies, they must provide in their agreements of transfer for the conditions expressed in Art. III.

(2) Should the mining property at the end of the period of two years not be transferred, or should the companies or societies have failed to pay to the Zambezia Company the percentage or proportion fixed in Art. III., the concession they hold shall in such case be forthwith null and void.

Art. V.—Should one or more claims be worked otherwise than through the intermediary of a company or society, *i.e.*, by individual owners, the concessionnaire shall, besides becoming liable to the provisions set forth in Art. I., pay quarterly to the Zambezia Company:—

(*a*) When working a gold reef:—A percentage on gross amount of gold won, such percentage to be payable quarterly and the amount to be reckoned upon the quantity of ore treated in each period of 28 days, as per following table:—

Should the quantity of ore treated be less than 700 tons	2·5 %
Should it be 700 tons, or less than 1,000 tons	5·0 %
Should it be 1,000 tons, or over	7·5 %

(*b*) When working any mineral deposit of whatever nature other than gold or precious stones or when working any deposit of gold other than reef or vein gold, *e.g.*, alluvial gold or rotten reef "*in situ*," the percentage and amount payable to the Zambezia Company shall be based upon the total value of the output in each period of 28 days as per following table:—

Should the value of the output be less than 4,500,000, reis	2·5 %
Should it be equal to or over 4,500,000, but less than 9,000,000 reis	5·0 %
Should it be 9,000,000 reis, or over	7·5 %

(1) For the settlement of this percentage the concessionnaire shall furnish the Mining Department with a quarterly statement showing the quantity and value of ore treated during each month. Such statement to be furnished every January, April, July and October. Should the Director of Mines not accept the correctness of such returns, he shall give notice to the interested party, and after 60 days have elapsed, the amount to be paid, if not agreed, shall be settled by arbitration as per terms of (2) of present Article.

(2) The arbitrators referred to in the preceding paragraph shall be two; one to be appointed by the Zambezia Company, and the second by the concessionnaire.

Should they fail to agree, they must nominate a third arbitrator to give the casting vote, but should there be a disagreement on such nomination, then the Chamber of Mines, or pending the formation of a Chamber of Mines, the Governor of the district, shall be requested to appoint the third arbitrator.

There shall be no appeal against the decision of the arbitrators, and both parties shall be bound to conform to such decision.

Art. VI.—The percentage indicated in Art. III., IV., and V., may by mutual agreement be commuted for a fixed annual rent.

Art. VII.—Every agreement or contract by which the concessionnaires alienate or transfer the whole or any part of their claims shall, in accordance with the provisions of Art. IV., be submitted for the approval of the Zambezia Company, in order that this Company may ascertain whether such agreements or contracts sufficiently provide for the obligations and liabilities of the new concessionnaires towards the Zambezia Company.

Art. VIII.—In the case of the companies or societies aforesaid working mines in the territories of the Zambezia Company issuing debentures bearing interest at more than 8% per annum, they shall pay to the Portuguese Government 4% of the amount of debentures issued, as provided in Art. VII. of the Decree of the 19th April, 1894.

Art. IX.—All fees, taxes, yearly rents and percentages payable within the periods stated in Arts. I., II., III., IV., and V. together with all penalties and indemnities, as set forth in (2) of the present Article, shall, immediately on the granting of the concession, be guaranteed by the concessionnaire by means of a mortgage of the concession, as well as of all fixtures which the concessionnaire may have built or acquired within the area comprised in his concession, and also of any land he may have acquired for the exploitation of such concession.

ZAMBESIA COMPANY—continued.

(1) The concessionnaire shall have no right to the Title Deed in respect of his concession until the mortgage has been duly registered.

(2) Should the concessionnaire, within three months from date of being notified by the Zambezia Company to do so, fail to execute the mortgage of the concession and of any fixtures that he may have built or acquired within the ground of the concession, or of any land that he may have acquired for the exploitation of the concession, he shall pay to the Zambezia Company by way of penalty and indemnity a sum of 1,000 reis for each day's default, reckoned from the date of the notice, until such mortgage is duly executed. Such penalty shall be payable at the expiration of each period of 30 days.

(3) Arts. 161 to 174 inclusive of the decree of the 29th December, 1893, shall not be affected by the provisions of this Article.

Art. X.—The concessionnaire shall pay to the Zambezia Company all expenses of printing, publishing, posting notices, copying and stamping documents, pegging and beaconing, trench digging, registering, mortgaging, and any other similar matters incurred by the Zambezia Company.

Art. XI.—All survey expenses shall also be paid by the concesssionnaire, in accordance with the existing Law.

NOTES.

A.—A mining claim is undefined as to depth, vertical planes passing through the perimeter constituting the boundary. The area of a claim is:—

(*a*) For precious stones, 10 metres square.

(*b*) For precious metals, excepting gold alluvial deposits worked by dredging, 100 metres square.

(*c*) For alluvial deposits worked by dredging, a rectangle of 100 hectares, no side to be less than 250 metres.

(*d*) For other minerals, a rectangle of 100 hectares, minimum breadth when possible not less than 600 metres.

B.—Gold, coal, and iron concessions are not subject to any royalty payable to the Portuguese Government.

All other metals, etc., pay annually to the Portuguese Government a royalty, in addition to payments due to Zambezia Company, such royalty not exceeding 1·5% of the value of the metals extracted brought to the mouth of the mine.

The payment to the Government of the annual charge of 100 reis per hectare of demarcation is made by the Zambezia Company.

C. All mineral products are free of export duty.

Mining machinery, dredges and utensils used in mining and metallurgical work are free of import duty; but a guarantee must be given that such imports are solely for the purposes stated.

D.—For accurate interpretation of the Mining Law and Regulations reference must be made to the original Portuguese.

E.—The privilege of prospecting for and exploiting coal and mineral oils is vested in the Companhia Hulheira da Zambezia. To this company applications for sub-concessions may be made.

The **INVESTOR'S MONTHLY MANUAL** is by far the most complete periodical record in existence of the matters with which it deals. It is published at the beginning of each month (generally on the 2nd) following that to which the quotations refer, and gives the highest, lowest and latest prices during the month of all Stocks, Railway Shares, Banking Shares and other Securities, the mode in which their dividends are payable, their four last dividends, and the yield to investors on last year's dividend at the latest price, &c., &c. The **MANUAL** includes Stocks dealt in at the Provincial Exchanges as well as in the London Market. It also contains notes upon current topics of interest to investors. The June Double Number gives in addition to the above, the highest and lowest prices for four years and a half, and a statement of the half-year's results. The December Double Number, in like manner, contains the prices for five years, and a financial history of the year. The **Double Numbers** also give a quantity of information respecting the finance and commerce of Foreign States, the addresses of the various Companies whose securities are quoted, with the names of the Chairman and Secretary, and various other particulars.

THIS company was formed in the United States June 18th, 1895, to acquire various copper and silver mines situate in the State of Montana, mostly near the City of Butte. In March, 1910, owing to disputes with companies owning adjoining properties as to ownership of ore bodies at depth, a consolidation scheme was agreed to whereby the properties of the following companies were acquired:—Boston and Montana Consolidated Copper and Silver Mining Co., for 1,200,000 shares; Red Metal Mining Co., for 500,000 shares; Washoe Copper Co., for 380,000 shares; Butte and Boston Consolidated Mining Co., for 300,000 shares; Big Blackfoot Lumber Co., for 300,000 shares; Trenton Mining and Development Co., for 120,000 shares; Diamond Coal and Coke Co., 100,000 shares; Parrot Silver and Copper Co., for 9,000 shares and Alice Gold and Silver Mining Co, for 30,000 shares. The Original and Steward groups of mines adjoining were also acquired from Hon. W. A. Clark. In addition the company owns 51 per cent. of the Butte Anaconda and Pacific Railway Co.

During 1908, 2,730,489 dry tons were treated for 64,869,176lbs fine copper, 2,071,246ozs. silver and 8,395ozs. gold. During 1909, 3,517,386 dry tons were treated for 75,860 194lbs. fine copper, 2,363,184ozs. silver and 7,466ozs. gold.

The authorised capital is $150,000,000 (£30,000,000), in 6,000,000 shares of $25 (£5) each; 4,220,000 shares are issued and fully paid. The capital was increased from $30,000,000 in March, 1910, to carry through the scheme of amalgamation as above. The shares are in warrants to bearer (5, 20, or 50 shares), with coupons attached, but can be registered by endorsement.

THIS company was registered February 1st, 1906, and has acquired from R. H. Morris an option until February 9th, 1911, to purchase three gold mining properties known as Jibutil, Ramagiri and Dod (Big) Buruju, area 2,447 acres, near Ramagiri, Dharmavaram Taluq, Anantapur district, Madras Presidency, India. The consideration for the option was £660. In 1908, the interest of the vendor in the properties and prospecting licenses under which they are held, was acquired for £5,000 cash and 5,000 fully-paid shares. Additional interests were subsequently acquired and the mining area now extends over 6,231 acres. The properties were reported on by Thomas Richards. In June, 1908, a portion of the Dod Buruju Block, one square mile in extent, was sold to the North Anantapur Gold Mines, Ltd., for £40,000, payable £25,000 in fully-paid shares and the balance in cash or shares. An option for two years from December 1st, 1908, over the South Jibutil Block has been granted to the Nundydroog Co., Ltd.; the consideration was £2,000 cash, and £85,000 in cash and in fully-paid shares in a company to be formed with £220,000 capital. The area has been extended northwards and the option period continued to May 31st, 1911, on payment of £2,150 for cost of work incurred by the Anantapur Gold Field, Ltd. on the new area. Development work is in progress on the remaining properties.

The authorised capital is £60,000, in 60,000 shares of £1 each; all the shares are issued, 38,903 being fully paid, and 21,097 having 17s. paid. In February, 1906, 28,600 shares were offered for public subscription. The capital was increased from £30,000 in May, 1908, and in June, 1908, 20,833 shares were offered for public subscription at par; the subscription of 15,000 shares was guaranteed by Mysore Reefs (1905) and Explorers, Ltd., and 4,518 shares by shareholders for a commission of 20 per cent. in fully-paid shares.

Dividends paid: For 1908-9, 60 per cent. payable in fully-paid shares of the North Anantapur Gold Mines, Ltd., November 16th, 1908.

THIS company was registered August 5th, 1884, to take over the property of a company of same name registered August 11th, 1882. Besides various groups of copper mines and smelting works in Arizona, U.S.A., the company owns the Arizona and New Mexico Railroad, extending from Clifton (Arizona) to Lordsburg (New Mexico), over 70 miles, and the Lordsburg and Hachita Railroad, an extension of 39 miles, from Lordsburg to a junction with the El Paso and South-Western Railway at Hachita, New Mexico. In 1901 the company sold certain surplus mining claims for £154,000 cash.

Production of copper for year 1905-6, 13,864 tons; 1906-7, 13,702 tons; 1907-8 16,971 tons; 1908-9, 15,981 tons; 1909-10, 13,662 tons.

The authorised capital is £755,000, of which £736,504 is issued, as follows, £40,000 in 160,000 A preference shares of 5s. each, upon which no calls have been made, but £7,480 10s. is paid up in advance; £316,530 (part of £320,000) in fully-paid preference stock; £379,974 (part of £395,000) in 1,519,896 fully-paid ordinary shares of 5s. There are £175,210 terminable five per cent. debentures.

In July, 1888, there were 160,000 preferred shares of £5 and 75,000 deferred shares of £1, and the preferred were reduced to £4 each to wipe off losses, &c.; in March, 1894, the capital was increased by creation of the A preference shares which were issued without any call, but with option of paying up in advance at time of issue; in July, 1901, the capital was rearranged by private Act of Parliament, and 31,444 deferred ordinary £1 shares were issued at £8 each to preferred ordinary shareholders. The preferred ordinary and deferred ordinary were sub-divided from £1 into 5s. shares in June, 1904, and consolidated into ordinary shares in June, 1909.

The profits are distributed in the following order: A cumulative preferential dividend on the nominal amount of the A preference shares at the rate of 10 per cent. per annum less interest at the rate of 5 per cent. per annum on so much as may not have been paid up thereon; a cumulative preferential dividend on the preference stock at the rate of 7 per cent. per annum; after payment of before-mentioned dividends, balance to be distributed among ordinary shares.

The dividend on preference shares and stock is paid half-yearly, shares in April and October and stock May and November, and has been paid to date. On the old preferred ordinary shares 1s. per share was paid in 1895, 3s. in 1896, 5s. in 1897, and 7s. 6d. in 1898. On the old ordinary 2s 3d. was paid in 1899, 7s. 6d. in 1900, and 9s. in 1901. Dividends paid on preferred ordinary and deferred ordinary shares: (per £1 share) for 1900-1, 16s. 6d. (and 9s. extra on deferred, being dividend for year to 30th September, 1900, on these shares), for 1901-2, 9s. 6d.; for 1902-3, 12s., for 1903-4, 3s., for 1904-5, 3s. 9d.; for 1905-6, 5s. 3d.; for 1906-7, 3s. 9d.; 1907-8, 2s. 6d. (1s. 3d. July 30th, 1908, and 1s. 3d. February, 27th, 1909).

Dividends paid on ordinary shares—For 1908-9, 2s. 6d. per share (1s. 3d. July 29th, 1909, and 1s. 3d. February 28th, 1910); 1909-10, 1s. 3d., July 30th, 1910 (interim).

THIS company was registered on December 7th, 1896, and is a third reconstruction of the Balaghât-Mysore Gold Mining Co., Ltd., registered January 28th, 1886, the first reconstruction being in March, 1890, and the second in March, 1894 (*see vol. for* 1896). The company first acquired the mine, mill, and other property of the Balaghât Gold Mining Co., Ltd., of Madras, situated in the Colar district of Mysore, India, and held on a sub-lease from the original concessionnaire for 30 years from 1881, subject to land tax of about 20s. per annum and a royalty of 5 per cent. on gold obtained. In 1891 the company acquired from the Gold Fields of Mysore, Ltd., the mining rights over about 90 acres adjoining on the western boundary. In February, 1902, the company obtained a renewal of its leases for 30 years from March 22nd, 1910, terms of existing leases remaining unchanged, except that an additional royalty of 2½ per cent. upon dividends distributed is payable. In October, 1906, the property of the Nine Reefs Co., Ltd. (*see vol. for* 1906), was acquired for £10,000, together with buildings, plant, &c.; the property consists of 360 acres and adjoins the Balaghât Mine to the north. In 1907, 230 acres, lying to the south, formerly the property of the Coromandel Co., were acquired for £2,000 cash, and a further 655 acres were purchased in 1909 from the Road Block Company, for £1,000. The total area now comprises 1,451 acres. An interest in the Anantapur Gold Field, Ltd., is held.

Crushing with 10 stamps commenced in December, 1898; a new 30-stamp mill and 15 older stamps and cyanide plant are now at work, and 10 older stamps are in reserve. Ore reserves at December, 1908, 40,354 tons; December, 1909, 29,353 tons.

THIS company was registered April 1st, 1864, to carry on coal and iron mining and smelting operations, &c. The properties include the Barrow Colliery, near Barnsley, Yorkshire, also iron ore mines in the Furness district, Lancashire and in Cumberland. In 1907 the Company entered into a conditional agreement for securing an interest in an iron ore mine in Algeria; this is now represented by shares in the Beni-Felkai Mining Co., Ltd.

The authorised capital is £916,965, in 377 eight per cent. cumulative first preference shares of £45 each (£16,965), 50,000 six per cent. cumulative second preference shares of £4 10s. each (£225,000), and 150,000 ordinary shares of £4 10s. each (£675,000); all the shares are issued and fully paid. There is £314,500 five per cent. debenture stock (part of £364,865) repayable at par July 1st, 1915, or at 102½ at any time after July 1st, 1910, on six months' notice from company; interest is payable January 1st and July 1st.

The capital was originally £150,000 in £100 shares, and was from time to time increased until in 1888 it stood at £2,037,700; it was then reduced to £1,528,275 by writing down each share 25 per cent.; in 1902, under a re-arrangement of capital in present form, ordinary and second preference shares were reduced from £7 10s. to £4 10s. and first preference from £75 to £45, the latter to receive the same cumulative yearly dividend as formerly, £2,262; the profits available for dividend are now applied as follows: £2,262 per annum to first preference shares, 6⅔ per cent. cumulative per annum to second preference and of balance ½ per cent. on the second preference for every 1 per cent. on ordinary; the first preference have ten votes, and the second preference and ordinary one vote, per share.

For 1890 and 1891, dividends of 2½ per cent. were paid on the ordinary shares. For 1892 and 1893 the preference dividends only were paid. Out of the profits of 1896, the first preference dividend for the years 1894, 1895 and 1896, and the second preference dividend for the year 1894, were paid (in March, 1897). Out of the profits of 1897 the first preference dividend for 1897 and the second preference for 1895, were paid in March, 1898; out of the profits of 1898 the first preference dividend was paid for 1898 and the second preference for 1896 in March, 1899. In August, 1902, all arrears of preference dividends were paid up, with 4 per cent. on reduced ordinary shares. For 1902, 3 per cent. was paid in March, 1903, on the ordinary shares, with an extra 1½ per cent. on the second preference; for 1903, only the preference dividends were paid; for 1904 the first preference and half of the second preference dividend was paid. For 1905, preference divi-

Description of properties:—

The Clarence Ironworks, consisting of twelve blast furnaces, with all the necessary appliances for the manufacture of pig-iron, are situated at Port Clarence, in the Port of Middlesbrough-on-Tees, on a freehold estate of about 367 acres. The coal properties consist of the South Brancepeth, Browney, Tursdale and Bowburn collieries, in the southern part of the county of Durham, within a short distance by rail from the ironworks. The ironstone is obtained from the Skelton, Skelton Park, Lumpsey, and Carlinhow Mines in the Cleveland district of Yorkshire, and limestone from Parson Byers Quarries, Weardale. The coal, ironstone and limestone properties are leasehold.

The authorised capital is £1,000,000, in 50,000 six per cent. cumulative preference shares of £10 each and 100,000 ordinary shares of £5 each; all the preference (£500,000) and 60,000 ordinary (£300,000) shares are issued, the preference being fully paid and the ordinary having £4 10s. per share paid up. The preference shares have no voting rights except as to winding up. There is £431,000 four per cent. debenture stock; interest is payable on January 1st and July 1st, and the stock is redeemable at 110 per cent. in the event of winding up or at any time after January 1st, 1910, at company's option on six months' notice. In January, 1899, 33,340 preference shares and £366,600 debenture stock were offered for public subscription and allotted.

The preference dividend is paid half-yearly in February and August. Dividends paid on ordinary shares:—30s. for period to December 31st, 1899; 40s. for 1900; 3s. for 1901; 8s. 6d. for 1902; 7s. for 1903; 5s. for 1904; 7s. 6d. for 1905; 9s. for 1906; 9s. for 1907; 5s. for 1908; 8s. for 1909; 4s. 6d. THIS company was registered August 9th, 1889, to acquire a lease of the Burrakur Ironworks property, 1,500 acres in extent, situate at Burrakur, Bengal, together with certain coal mining and other rights and properties connected therewith. The lease, the consideration for which was Rs.4,50,000 (about £31,500) in cash, is granted by the Secretary of State in Council of India for 999 years, at an annual rental (now merely nominal) and a royalty of six annas (about 6d.) per ton on all coal sold. The royalty on coal has been temporarily reduced to two annas per ton. The works and collieries are in full operation; additional coal property has recently been secured, also a mining lease for 30 years over iron ore deposits at Monharpore, which are being developed. It having been decided to commence the manufacture of steel, a plant has been erected at Burrakur, but owing to disappointing results this has since been closed down. Production of pig iron for 1905-6, 46,878 tons; 1906-7, 39,246 tons; 1907-8, 37,858 tons; 1908-9, 39,292 tons. Coal output for 1905-6, 43,981 tons; 1906-7, 71,703 tons; 1907-8, 107,376 tons; 1908-9, 101,336 tons.

The authorised capital is £375,000, in 15,000 preference shares of £10 each and 224,850 ordinary and 150 founders' shares of £1 each; 14,207 preference (£142,070) and 149,850 ordinary and all the founders' shares are issued and fully paid. The capital, formerly £150,000, was increased to £250,000 in March, 1902, by creation of 10,000 preference shares, and increased to £300,000 in March, 1904, by creation of a further 5,000. In July, 1909, the capital was increased to present amount by creation of 75,000 ordinary shares, to provide shares for conversion of debenture stock. The preference shares are preferential as to capital and entitled to a six per cent. per annum cumulative dividend without further participation. The founders' shares are entitled to one-third of the surplus profits after payment of a cumulative dividend of 10 per cent. on the ordinary shares. There is £160,300 five per cent. mortgage debenture stock, part of £200,000 created in January, 1905, of which £50,000 was offered to shareholders at par in July, 1909; subscribers have the right at any time before December 31st, 1916, of converting

into fully-paid ordinary shares. The debenture stock is redeemable at par January 1st, 1925, or after that date on any subsequent January 1st, on twelve months notice by the company or the holder.

The preference dividend (when available), is paid half-yearly, but is in arrear since Sept., 1908. Dividends paid on ordinary shares:—For 1889-90, 8 per cent.; 1890-1 and 1891-2, nil; 1892-3, 2 per cent.; 1893-4 to 1897-8, nil; 1898-9, 3 per cent.; 1899-1900 to 1902-3, 10 per cent. each year; 1903-4, 4 per cent.; 1904-5, 2½ per cent.; 1905-6, nil; 1906-7, 3 per cent.; 1907-8, 2 per cent.; 1908-9, nil.

Accounts made up to September and submitted about March; an interim report is issued in October.

The accounts to September 30th, 1908, submitted February 10th, 1909, showed £20,623 net profit, making with balance forward a sum of £23,857; preference and ordinary dividend absorbed £11,521, transferred to Steel Works sinking fund £5,000, placed to reserve £3,000, written off debenture issue charges £500, bonuses £1,047, leaving £2,789 carried forward. THIS company was registered November 6th, 1906, to acquire from the Cornish Consolidated Tin Mines, Ltd., the Botallack and Buzza Tin Mines, situate in the parish of St. Just, seven miles west of Penzance, Cornwall, comprising three setts, all adjoining, known as Botallack, 200 acres, Carnyorth, 150 acres, and Buzza, or Truthwall, 200 acres. The properties are held on lease for 21 years from September, 1906, at a rental merging into a royalty. The consideration was £40,000, payable in cash or fully-paid shares or partly cash and shares. The vendors also agreed to provide £20,000 at any time within three years, on six months' notice, such sum to be secured on the undertaking and assets. The property was extensively worked during the last century on the cost-book system. A 20-stamp battery is erected and commenced work June, 1908; a further 40 stamps are to be added. During 1909-10, 127 tons tin were produced, value £10,045.

It is proposed to reconstruct with £100,000 capital in £1 shares, ordinary shareholders to have the right to claim one new share, credited as 5s. paid for every two old shares held, and one fully-paid share to be issued for every four fully-paid A shares held. Holders of income bonds to exchange into fully-paid shares in new company.

The authorised capital is £150,000, in 119,160 A shares of 5s. each and 120,210 ordinary shares of £1 each; 100,000 ordinary shares are issued and fully paid, and 72 103 A shares are issued and 2s. 6d. paid. In November, 1906, the vendors offered 100,000 £1 shares for public subscription; the issue was underwritten. The A shares were created February, 1910, by conversion of 29,790 ordinary shares and 100,000 A shares were offered to shareholders for subscription *pro rata*, the remaining A shares being reserved for income bondholders. The A shares are entitled to a non-cumulative preferential dividend, to be paid by setting aside five per cent. of the proceeds of tin sales each year, and subject thereto to one-half the profits, the ordinary taking the remainder. In August, 1909, shareholders were invited to subscribe for £10,000 income bonds of £10 each; each bond carries the right to a bonus of £5 payable out of profits by yearly instalments of £1. Holders of income-bonds have the right to convert into fully paid A shares, or in the alternate for every five income bonds had the right to December 31st, 1910, to convert into a first mortgage 5 per cent. debenture for £50. The debentures carry the right until June 30th, 1911, to convert into 50 ordinary shares at par. Holders who do not convert their bonds into debentures are to have the same repaid by yearly instalments of £2 per bond, after payment of the bonus. The debentures will form part of a total of £50,000, and will be redeemable at 105 by annual drawings of one-tenth of the amount issued commencing May 31st, 1912. Holders converting into debentures will still retain their right to the bonus.

The accounts to March 31st, 1909, submitted August 13th, 1909, showed profit and loss debit balance £3,915. The accounts to March 31st, 1910, submitted July 21st, 1910, showed a loss of £6,158, increasing debit balance to £10,104: cash £275, debtors £423; creditors £26,607,

THIS company was registered June 25th, 1910, to acquire from the Brazilian Gold Exploring Syndicate, Ltd., the Gongo Soco hematite iron ore and gold property situated in the Province of Minas Geraes, Brazil, together with all the mining rights thereon, and comprising a total area of over 20 square miles, and a mineralised area of over six square miles. The consideration was £100,000, payable £60,000 in cash and £40,000 in either cash or shares, at the option of the company.

The authorised capital is £100,000, in 100,000 shares of £1 each.

Transfer form, common; fee, 2s. 6d.

Additional particulars officially supplied: The Gongo Soco mines have been worked on an extensive scale for gold, and it is on record that over a million pounds sterling worth of gold has been recovered. In the process of mining for gold a hematite iron deposit has been exposed of great extent and purity. Difficulties of transport and the comparative cheapness and abundance of hematite ore in localities more adjacent to smelting centres has hitherto prevented the development and working of this unique deposit, except for local purposes. The

BRAZILIAN IRON AND GOLD—continued.

Central Railway of Brazil is now, however, within a few miles of the property, and connects it with Rio de Janeiro, where there are ample shipping facilities. W. J. Henwood, F.R.S., F.G.S., reporting upon the deposit, confirms the conclusion that the Gongo Seco property is practically a huge mass of the highest quality of hematite iron ore.

The gold contents of the property are also very large. Apart from the gold which may be found *in situ*, it is agreed by all the engineers who have examined the property that large quantities of alluvial gold can be recovered from the lower portion without in any way interfering with the mining for iron ore.

THIS company was registered March 6th, 1906, as the Burma Mines, Railway and Smelting Co., Ltd., to acquire the undertaking of the Great Eastern Mining Co., Ltd. (*see vol. for* 1908), owning a group of ancient silver lead mines (including smelting and other plant and partly constructed railway) at Baudwen, in the Northern Shan States, Upper Burma, 60 miles from the frontier of the Province of Yunnan, China, and about 45 miles from Hsipaw station, on the Lashio Branch of the Burma railways. The property is held under licence from the Indian Government, and covers an area of 2,496 acres. The consideration was £309,993 (£259,993 for property, and £50,000 for smelter railway, &c.), payable £50,000 in debenture stock and £259,993 in fully-paid ordinary shares. The properties were reported on by Bewick, Moreing & Co., Sulman and Picard, and F. D. Chase. The name was changed in April, 1908. The railway, having a length of about 50 miles, conveys the ore from the mines at Baudwen to Manpwe Junction on the Burma Railways, and from thence is transported to the company's smelter at Mandalay. Smelting commenced February, 1909 and to December, 1909, 12,762 tons yielded 5,029 tons lead and 26,398ozs. silver, value £57,222.

The authorised capital is £100,650 8s., in 503,252 shares of 4s. each; 312,046 shares are issued, 25,538 being fully-paid, and 286,508 having 2s. paid. The capital was increased from £410,000 to £450,000 in November, 1907, and reduced to present amount in February, 1910.

There is £150,000 six per cent. first mortgage convertible debenture stock in multiples of £1, which was offered for public subscription in March, 1906, stock redeemable December 31st, 1915, or earlier at company's option at a premium of 5 per cent., holders having the right to convert their holding into shares at the rate of one share for each £1 debenture; until the whole of the stock has been redeemed or converted, the entire net profits are to be applied in redemption of stock by purchase or drawings; interest payable January 1st and July 1st. There is £30,560 (part of £40,000) second mortgage debenture stock which was offered to share and first debenture-holders at par in November, 1907, and is redeemable with 150 per cent. interest and bonus out of the net profits after first satisfying the requirements of the first debentures; subscribers have the right at any time prior to redemption to convert their holding into fully-paid shares at the rate of one share for each £1 debenture.

The accounts for year to December 31st, 1909, submitted July 13th, 1910, showed £123,201 to debit of profit and loss account; cash £1,662, debtors £1,482, bullion £11,748; creditors £39,972 (capital since re-arranged).

THIS company was registered February 26th, 1889, to acquire a licence or concession for certain ruby mines in Burma granted by the Secretary of State in

BURMA RUBY MINES—continued.

Council of India, for the Burma Ruby Mines, for seven years with certain provisions for renewal, at a rent of four lacs of rupees per annum, the Government also receiving one-sixth of net profits. The consideration was £55,000 cash. The lease has been renewed for 28 years from May 1st, 1904, at a minimum annual rental of Rs.200,000, and 30 per cent. of collections from licence-holders in excess of Rs.200,000 in any year, the Government share of the net profits being 30 per cent. In November, 1909, it was stated that on the company's request for the remission of arrears of rent and for a revision of the terms of lease, the Secretary of State had agreed as a temporary measure to accept, in lieu of the annual rent, payment of royalties actually collected by the company, less ten per cent. collecting commission.

The lease confers rights over unoccupied portions of an area of about 400 square miles known as the Mogok Stone Tract, in Upper Burma; the company's operations are chiefly confined to the Mogok Valley, where a drainage tunnel has been constructed to cope with the excessive flow of water. During 1908-9, 1,071,166 loads at a cost of 7·9d. per load; 1909-10, 1,594,993 loads at a cost of 6·2d. per load.

The authorised capital is £180,000, in 299,000 ordinary and 1,000 founders' shares of 12s. each; all the shares are issued and fully paid. The final call of 2s. was made payable October 2nd, 1905. The capital was formerly £300,000, in 299,000 ordinary and 1,000 founders' shares of £1, and 200,000 ordinary were offered for public subscription by N. M. Rothschild and Sons in February, 1889, and allotted; in 1897, £120,000 losses were written off by reducing paid-up capital to the extent of 8s. per share. After payment of a dividend of 20 per cent. on the ordinary shares in any year, the founders' shares are entitled to one-half of any surplus profits for such year, the ordinary taking the other half.

Dividends paid: for year 1898-9, 5 per cent.; for 1899-0, 12½ per cent.; for 1900-1, 17½ per cent.; for 1901-2, 17½ per cent.; for 1903-4, 15 per cent.; 1904-5, 7½ per cent.; 1905-6, 4½ per cent. 1906-7, 8½ per cent.; *nil since.*

The accounts for year to February 28th, 1909, submitted July 5th, 1909, showed a loss of £8,243, reducing credit balance to £10,663.

The accounts to February 28th, 1910, submitted July 11th, 1910, showed a profit of £659, making with balance forward a sum of £11,322, which was carried forward; cash £7,107, stocks of rubies £49,985, bills receivable £10,290; creditors £1,267, due to Indian Government £23,942.

THIS company was registered September 8th, 1900, to acquire the Camp Bird Gold Mine, situate in Imogene Basin, in the Mount Sneffels mining district,

CAMP BIRD—continued.

Ouray County, and in the Upper San Miguel mining district, San Miguel County, Colorado, U.S.A. The consideration was £801,163, paid £699,163 in cash and £102,000 in fully-paid shares. The vendors, the Venture Corpn., Ltd., acquired the property from T. F. Walsh, who received part of the consideration and was entitled to 25 per cent. of the profits until a further £400,000 had been paid (the final instalment, £88,609, was paid March 25th, 1910). In January, 1905, the company acquired a working bond on the adjoining property of the Imogene Basin Gold Mines Co., the Camp Bird Co. to spend on development work a sum of $139,500 over a period of 18 months from April, 1905; this sum having been expended, the Camp Bird Co. has acquired 558,000 shares of $1 each in the Imogene Co., at the price of 25 cents each, and 16,830 at 50 cents each out of a total capital of $3,000,000. Crushing was in progress with 70 stamps and cyanide plant until March, 1906, when the mill was destroyed by snowslide, followed by fire. A new 60-stamp mill has been erected and crushing was resumed in November, 1906. During 1908-9, 80,157 tons yielded £466,030 or £5 16s. 3d. per ton. During 1909-10, 79,714 tons yielded £544,032 or £6 16s. 6d. per ton. Ore reserves at April 30th, 1909, 121,059 tons estimated to yield £472,274: at April 30th, 1910, 83,900 tons estimated to yield £284,220.

During 1909, an option over the Santa Gertrudis group of silver mines, near Pachuca, State of Hidalgo, Mexico, was acquired; this has been tranferred to the Santa Gertrudis Co., Ltd., in which Camp Bird, Ltd., holds 1,155,815 fully-paid shares.

The authorised capital is £1,350,000, in 1,350,000 shares of £1 each; 1,100,000 shares are issued and fully paid, including vendors'. THIS company was registered on April 4th, 1864, and owns the Chopwell, Garesfield, and other collieries in the county of Durham, limestone quarries near Stanhope (acquired in 1900), and ironworks at Consett. In December, 1900, an Order of the Court was obtained empowering the company to alter its Memorandum of Association and extend its operations to ship and railway owning, farming, &c.

The authorised capital is £1,500,000, divided into 100,000 eight per cent. cumulative preference shares of £5 each and 100,000 ordinary shares of £10 each. All the shares have been issued and £1,250,000 is paid up, the preference shares being fully paid and the ordinary having £7 10s. per share paid up.

The capital was originally £400,000, but was increased by various amounts in 1866, 1872, 1880 and 1886, and finally in November, 1890, from £1,000,000 to its present amount by the creation of the preference shares, which were offered share for share to the ordinary shareholders in December, 1890. The priority of these shares applies to dividends only and not to capital. Of the ordinary shares only 73,600 were issued up to August, 1886, when 24,533 new shares were issued in the proportion of one new to every three old shares held, the new shares ranking for dividends *pro rata* with the old. The remaining 1,867 new shares were disposed of by auction on the 22nd November, 1890, realising a premium of £43,018 2s. 6d. On the 31st March, 1882, the paid-up capital was reduced by returning to the shareholders the sum of £8,355, being money paid in advance of calls. (This repayment was made out of profits.)

The preference dividend is paid half-yearly in February and August; dividends paid on ordinary shares since 1886:—

1886-7, 11½ p.c.	1890-1, 31½ p.c.	1894-5, 9 p.c.	1898-9, 33½ p.c.	1902-3, 25 p.c.	1906-7, 40 p.c.

DUFF DEVELOPMENT—continued.

THIS company was registered February 18th, 1903, to acquire the undertaking of the Duff Syndicate, Ltd., including a concession from the Raja of Kelantan, over about 3,000 square miles for mineral, trading and other rights in the State of Kelantan, one of the unexplored States on the East Coast of the Malay Peninsula. The purchase consideration was £300,000 in fully-paid shares. Gold and galena reefs have been located in the Sokor district, but mining work is now suspended. A townsite is laid out at Kuala Lebir, the company's headquarters in Kelantan. Dredging (4 dredgers) and rubber planting operations are in progress; 1,242 acres have been planted with 172,000 rubber trees. The company floated the Kelantan Gold Dredging Co. (No. 1), Ltd. (*see vol. for* 1907), but in November, 1906, this was absorbed. During 1906, 6,448ozs. gold were recovered; during 1907, 6,033ozs. gold; during 1908, 8,894ozs.; during 1909, 8,524ozs.; during 1910 (to December 24th), 3,642ozs.

The authorised capital is £700,000, in 700,000 shares of £1 each; 492,470 shares are issued and fully paid. The capital, formerly £400,000, was increased to £500,000 in November, 1905, to £600,000 in March, 1909, and to present amount in October, 1910, to provide for conversion of debenture stock as below.

There is £250,000 six per cent. debenture stock which was offered for subscription at par in October, 1910, the issue being guaranteed for a commission of 5 per cent. and an over-riding commission of 1 per cent.; interest payable April 15th and October 15th, and stock repayable at par October 16th, 1935, or at any time after October 15th, 1917, at 105 per cent. on the company giving three months' notice or by purchase under that price in the market or by tender; holders have the option to convert into shares at 25s. each until October 15th, 1917. A sinking fund for the redemption of the debentures is to be formed by setting aside out of net profits each year (commencing with 1911), after payment of 6 per cent. dividend on ordinary shares for such year, a sum equal to 10 per cent. of surplus profits. The old debentures (£54,730) outstanding were paid off at 105 per cent.

THIS company was registered on April 22nd, 1902, to acquire iron ore deposits in and near Dunderlandsdalen, on the west coast of Norway, covering an area of several square miles, and situate at distances varying from three to 35 miles from the port of Mo, on the Ranen Fjord. On three groups of the deposits, from 75 to 80 million tons of crude ore are available for quarrying. The mines have been connected with Storforshei, a port near Mo, by about 17 miles of railway. The company also acquired exclusive licence to use in Norway and Sweden Mr. Edison's patented processes for treatment of iron ore, and a large plant has been erected at Storforshei. The Standard Construction Corporation, Ltd., received all the ordinary shares (£1,000,000) credited as fully paid, and undertook in return to procure from the vendors' (the Edison Ore Milling Syndicate, Ltd.) an exclusive licence to use in Norway and Sweden Mr. Edison's patent processes; the whole of the preference shares (£1,000,000) were issued to the same corporation in return for procuring to the company all the properties and rights acquired

by the vendor syndicate in Norway, for the erection of works, railway, and harbour at Storforshei mills, &c., amounting to about £685,000, and for £115,000 cash for working capital during construction of works. The contractors also paid preliminary expenses, &c. The property was reported on by Professor Henry Louis, M.A., A.R.S.M., F.I.C., F.G.S., and Dr. Theodor Lehmann. During 1910 experimental tests were made with a new wet magnetic separator (Ullrich process), and the trials being satisfactory, three machines forming a complete unit have been installed.

The authorised capital is £2,100,000, in 100,000 pre-preference shares of £1 each, 200,000 preference and participating shares of £5 each and 200,000 ordinary shares of £5 each; all the preference and ordinary shares are issued and fully paid, the ordinary being issued to contractors, as above. The capital was increased from £2,000,000 in August, 1908, by creation of pre-preference shares which were offered to shareholders at par; subscriptions being insufficient, application money was returned. The preference shares confer the right to a cumulative preferential dividend of six per cent. per annum, with participation in the profits available for dividend in each year after the ordinary shares have received a non-cumulative six per cent. dividend. In May, 1902, all the preference shares were offered for public subscription. The contractors (on whose behalf the issue was made) guaranteed the preference dividend till July 1st, 1904; since that date, the preference dividend is in arrear.

In November, 1909, £250,000 prior lien bonds of £100 each were offered to debenture and shareholders at 85 per cent.; the subscription of £200,000 was underwritten; present amount issued £200,100. The bonds are a first charge on the property and bear six per cent. interest, and are repayable with a premium of 10 per cent. over par on March 31st, 1912, and redeemable at any time on three months' notice from company at £110.

There is £500,000 six per cent. first charge debenture stock, of which £60,000 was issued to shareholders late in 1904, £190,000 offered for public subscription in April, 1905, £50,000 offered to shareholders in June, 1906, at 94, £145,000 issued to shareholders in November 1906, at 92, and £55,000 offered to shareholders in August, 1907, at 86; interest payable March 1st and September 1st, and stock repayable at par September 1st, 1945, by cumulative sinking fund of £1 per cent. per annum, to be started September 1st, 1912, or the company may redeem at any time out of the sinking fund at 106 per cent. if before September 1st, 1925, and at par if after. In October, 1907, the directors' borrowing powers were extended to £1,000,000, and £100,000 eight per cent second charge debenture stock (part of £500,000) were offered to share and stock-holders for subscription at par; £30,530 was subscribed; the stock is redeemable at par March 1st, 1918; interest payable March 1st and September 1st. In November, 1909, first and second debenture holders agreed to the funding of interest in arrear from March 1st, 1908, and accruing to August 31st, 1912, by issue of certificates each half year. The certificates to bear six per cent interest from September, 1912, and those issued to first debenture-holders are repayable September 1945, and to second debenture-holders, September, 1918. Present amount outstanding, £81,044.

The accounts for twelve months ended September 30th, 1910, submitted December 29th, 1910, showed mine development, &c. (less sales of briquettes), £195,477; cash £13,738, debtors £1,468; creditors £2,173; arrears of preference dividend £375,000.

Transfer form, common; fee, 2s. 6d. The preference shares and debenture stock are quoted in the Official List. Latest price, pref., $\frac{7}{16}$, $\frac{9}{16}$; first debs., 23, 28.

This company was registered in Edinburgh on May 26th, 1900, to take over and extend the business of a company of the same name registered on September 12th, 1898 (*see vol. for* 1899). The old company obtained leases from the Earl of Wemyss, Lord Elphinstone, and Sir Alexander Hope of Pinkie, of about 3,690 acres of coal, in the County of Edinburgh, with ironstone and fireclay in the greater portion; the collieries now working are Wallyford and Carberry. The leases are for a period ending Lammas, 1929, and Candlemas, 1931. The purchase consideration was £100,000, payable £25,000 in cash and £75,000 in fully-paid ordinary shares. The company has also taken on lease the adjoining property of Drummore. In 1907 the undertakings of the Forth Collieries (1903) Ltd., R. & J. Durie, Ltd. (*see vol. for* 1907), and the business of James Waldie & Sons, Tranent Collieries, were acquired. The properties comprise six leases of coal-bearing lands, area 2,662 acres, the Elphinstone Colliery (held on lease expiring 1926), and the Tranent Colliery, all situate in Prestonpans and Tranent, East Lothian, N.B. THIS company was registered July 27th, 1899, to acquire, under options obtained by the Exploration Co., Ltd., shares of the American Mining Co. (of West Virginia, U.S.A.). owning the El Oro Gold and Silver Mine in Mexico and of the American Railroad and Lumber Co. (of New Jersey), owning the railway connecting the mine with the Mexican National Railway. The purchase consideration was £886,072, paid £820,084 in cash and £65,988 in fully-paid shares. The two American companies have since been dissolved, this company taking over their assets and liabilities. The mining claims are known as San Antonio and San Rafael, Trianon, Diamante, and Carmen No. 2, situate about 100 miles north-west of the City of Mexico. The company also acquired for £30,526 a working bond on the adjoining Somera No. 1 property of 268 acres, and the purchase was completed in 1902 for £125,000 cash; the Somera Gold Mining Co., Ltd., was formed to deal with it, the shares being offered to El Oro shareholders in December, 1905, but the question as to the ownership of certain veins having arisen, in February, 1908, the Somera Co. was absorbed in consideration of 67,500 fully-paid shares, being at the rate of five for every sixteen Somera shares held, the El Oro Co. cancelling its holding of 234,000 shares. Total area now held 775 acres. A lease of the Suchitepec Timber Lands, area 40,000 acres, and adjoining the mine, has been secured for a term of 25 years, and the Suchi Timber Co., Ltd., has been registered with £60,000 capital to deal with same. A 200-stamp mill, eight tube mills, and cyanide plant are erected but only 100 stamps are at work, the old mill being shut down in February, 1910, owing to the more economical working of the tube mills. During 1908 9, 285,181 tons were treated, average value $8·56 per ton; costs $5·42 per ton. During 1909-1910, 316,138 tons were treated, average value $8 10 per ton; costs $5·17 per ton. Ore reserves at June 30th, 1910, 441,639 tons, value $8 06 gold, also 3ozs. of silver per ton against 383,000 tons at June, 1909. (*See plan opposite*).

THIS company was registered February 19th, 1910, to take over and work four silver mining properties, situate in the district of Iguana, State of Nuevo Leon, Mexico, and known as Esmeralda, area 50 acres; Esperanza, area 57 acres; Ampliacon de Esperanza, area 25 acres, and Anexion à la Esperanza, area 15 acres, together with a modern concentrating plant, ore cars, rails and machinery; also 330,000 tons of ore on dump. The consideration was £100,000, payable £7,250 in cash, £89,750 in fully-paid £1 preferred ordinary shares, or in cash, at the option of the company, and £3,000 in fully-paid 1s. deferred ordinary shares. The company was promoted by the vendors, the Industrial Selections, Ltd., and the properties reported on by J. Jeffery Nicholl, M.I.M.E., F.G.S. (*see extracts below*). Development work is in progress.

The authorised capital is £150,000, in 147,000 preferred ordinary shares of £1 each and 60,000 deferred shares of 1s. each; 116,906 preferred ordinary and all the deferred shares are issued, 91,000 preferred ordinary credited as fully paid, 25,906 having 17s. 6d. paid and the deferred being fully paid. The preferred ordinary are entitled to a dividend of 20 per cent. per annum and two-thirds of surplus profits, the deferred taking the remainder. In February, 1910, 145,125 preferred ordinary shares were offered for public subscription, payable 2s. 6d. on application, 7s. 6d. on allotment, 2s. 6d. thirty days after allotment, and the balance in calls of not more than 2s. 6d. at not less than thirty days after notice. 25,000 shares were underwritten at a commission of 7½ per cent. in cash and 7½ per cent. in preferred ordinary shares, with the right to apply for 250 deferred shares at par for every 1,000 preferred ordinary shares underwritten. The Industrial Selections, Ltd., agreed to repay the company one-third of all amounts paid by it for underwriting. The statutory report was submitted May 30th, 1910.

Transfer form, common; fee, 2s 6d. The 19th October, 1910, was appointed settling day in preferred ordinary shares, Nos. 1 to 25,806.

Additional particulars officially supplied :—Extracts from the report of the Company's resident engineer, J. J. Nicholl. THE ESMERALDA.—The eastern slope of the Esmeralda Hill is overlaid with Magnesian limestone; this formation extends into the Esperanza property. The Esperanza lode, a fissure vein, strikes west into the Esmeralda property, the outcrops showing a width of about four feet, the lode showing a dip of about 45 degrees (south). A prospecting shaft has been sunk on this lode to a depth of about 50 feet, disclosing a well-defined lode of silver ore in a matrix of iron carbonate and calc-spar, and the lode at this depth assaying about 30 ozs. of silver per ton, with 8 per cent. of lead—both "foot and hanging" walls of lode down to this depth consisting of Magnesian limestone. The Esperanza Lode must be considered as a very valuable one, as its eastern extension runs into the Esperanza property, a property which in one year alone has produced in silver a value equivalent to £200,000. If the various ore bodies on the Esmeralda property are opened up adequately, returns equal to those of the greatest mines in Mexico will be obtained. THE ESPERANZA.—The Esperanza property covers an area of 57½ acres, and contains within its boundaries the Cocina and Guadalupe Mines, also some very extensive old mine dumps, as well as the western extension of the "Esperanza" lode. The average assay value of the Cocina Ores, as estimated from numerous samples assayed, is 35 ozs. of silver per ton and 18 per cent. of lead. Both the upper and lower workings in the Cocina Mine have been systematically and extensively opened up by means of adit levels and crosscuts. I estimate the reserve of ore in the Cocina Mine to be upwards of 1,000,000 tons. THE GUADALUPE MINE (also on the Esperanza property).—This is an old Spanish mine, whose history dates back to about 1700, when, according to records, it was worked by the Spaniards and was celebrated for its rich silver ores. When the Spaniards were turned out of Mexico this mine, as many others, stopped working. In one year alone silver ores equivalent to £200,000 sterling was taken out of this mine; the workings are on a "Manto" ore body. The mine has been opened by adit levels and crosscuts, which are very extensive. The geological formation is dolomitic. EASTERN WORKINGS.—Here there is an immense lode of silver-zinc ores apparently untouched by the old-time miners. This ore body occurs in the form of a lode, varying from 5 ft. to 6 ft. in width and going down almost vertically. This lode carries sulphides of silver and zinc in matrix of carbonate and calc-spar, and assays from 25 to 40 ozs. of silver per ton and 20 per cent. of zinc. This ore body is quite distinct from any other ore body on the Esperanza, and I should judge that it appertains to a geological period more recent than that in which the silver chloride and silver lead ore bodies were deposited. WESTERN PORTION OF GUADALUPE MINE.—These are the old Spanish workings, the main entrance being through the Guadalupe Tunnel, from which other tunnels branch off at various angles. With reference to the amount of ore still remaining in this portion (western) of the old Guadalupe Mine it is difficult to give an estimate, but a considerable quantity of good ore still remains on the walls, and one part of the old workings undoubtedly overlies a natural cave of what will probably prove rich ore. At this particular point I noticed that the "Manto" or vein rises up 5 ft. above roof of tunnel, and instead of the ore being confined

ESMERALDA CONSOLIDATED—continued.

to the foot of tunnel ("foot wall") there is solid ore underneath. This portion of the western part of the old mine should be opened up at an early date. In one of the old workings I took samples of black silver ore (sulphantimonite of silver) which assayed 600 ozs. of silver per ton. Greenish shale is noticeable in the vein filling from where native silver has been extracted formerly. THE "ESPERANZA LODE."—Near the north-west boundary of the property the eastern extension of this lode "strikes" into the Esperanza. As this lode has already been referred to, it is merely necessary to say that it is a valuable ore body and forms a great ore reserve which can be opened up when desired. OLD DUMPS ON THE ESPERANZA PROPERTY.—The old miners have left immense dumps of good ore. These great accumulations are the result of workings began as early as 1709, when only very high grade ore of great value was treated on the spot for the extraction of silver by crude methods. The main dump is just outside the Guadalupe Tunnel, and I estimate that it contains 250,000 tons of ore. There are also six other smaller dumps on this property containing in their entirety about 80,000 tons, or a total of 330,000 tons of ore in the seven old dumps. The average assay value obtained from numerous samples taken from these is 20 ozs. of silver per ton, with 10 per cent. of lead. These dumps when concentrated will yield about 60,000 tons of concentrates, containing about 85 ozs. of silver per ton, and 50 per cent. of lead, or (taking silver at 2s. per oz. and lead at £13 per ton) equivalent to £15 per ton.

Copper and Gold Syndicate, Ltd. (*see vol. for* 1904), certain mining properties (copper, gold and silver), area about 700 acres, in the Mejicana district of the Famatina Range, province of Rioja, Argentine Republic. The consideration was £200,000 in fully-paid shares. The Franco-Argentine and Socavon White properties in the same district have since been acquired. Development work is in progress on the Upulungos, San Pedro and other lodes and at December, 1909, the ore reserves were estimated at 180,100 tons, average value £4 12s. 6d. to £5 5s. per ton. Smelting works are erected capable of treating 3,300 tons monthly, also a converter plant for production of blister copper. Additional plant was erected in 1910. From April 1st, 1909, to December 31st, 1909, 2,319 metric tons of copper matte and 20 tons of blister copper produced 514 tons copper, 6,891 ozs. gold and 124,583 ozs. silver, value £72,597.

The authorised capital is £700,000, in 700,000 shares of £1 each; 562,815 shares are issued and fully-paid. The capital was increased from £400,000 in December, 1908, and 90,000 fully-paid shares were allotted to the International Copper Co., Ltd., in consideration of £90,000 advanced by that company and 60,000 shares were offered to shareholders at par *pro rata*; the issue was guaranteed by the International Copper Co., Ltd., in consideration of an option to December, 1909, over 50,000 shares at par. In 1904, £50,000 income bonds of £10 each were created, repayable in instalments within seven years with a bonus of £25 per £10 bond out of profits, making £5 per annum repayable; £48,200 were converted into debentures (since redeemed or exchanged for new debentures) and the remaining £1,800 are outstanding; the bonus, however, is still payable on the whole amount, viz., £50,000.

There are £51,101 profit-sharing bonds of 2s. each, offered to shareholders for subscription in January, 1910, at the rate of one for every share held. The bonds are to bearer, and carry interest at the rate of 10 per cent. per annum payable exclusively out of profits, subject and without prejudice to rights of existing income-bondholders. The profit-sharing bondholders are also entitled to one-fourth of the profits each year which remain after making all such provision for reserve as the directors may consider necessary, and after paying the bonus on the outstanding income bonds. The profit-sharing bonds are to remain in force for fifteen years certain, but will become void and be surrendered when the share of profits aforesaid shall for two successive years (after the year 1925) equal or exceed the nominal amount of the bonds. The bonds are in bearer warrants for 100 bonds, with coupons attached.

There are £120,000 (part of £200,000) ten per cent. debentures in bonds of £50, offered to shareholders for subscription in July, 1910, at £47 10s. per £50, redeemable at £52 10s. by annual drawings of one-eighth of amount issued, commencing July 1st, 1912; each bond of £50 carries an option certificate carrying the right to June 30th, 1912, to call 25 ordinary shares and 25 profit-sharing bonds at par.

The accounts for year to December 31st, 1909, submitted October 24th, 1910, showed expenditure to date £226,239, an increase of £51,163 on year; cash £916, debtors £8,663, shares and debentures held £213,657; creditors £45,470, due to International Copper Co., Ltd., £8,117, securities suspense account £198,531.

THIS company was first registered February 4th, 1864, to work mines known as Silencio, Cordoba, La Salada, San Joaquin, &c., total area 5,000 acres, in the Republic of Colombia; on September 8th, 1886, the company was reconstituted and re-registered under same title. Some of the mines are let on tribute and others are being worked by the company. Electrical plant is erected and at work. During half-year to December 31st, 1909, bullion value £40,765 was obtained; to June 30th, 1910, bullion value £60,441 was obtained.

In 1874 the company sold the Frontino Mine to the Antioquia (Frontino) Co., Ltd. (now in liquidation); this company still holds £4,500 second debentures.

The authorised capital is £175,000, in 35,000 preference and 140,000 ordinary shares of £1 each; 23,390 preference and all the ordinary shares are issued and fully paid. The capital was formerly £140,000 in ordinary shares, of which 11,338 issued in 1903 were guaranteed a 10 per cent. dividend to June, 1906. For each £2 share held in the old company two £1 shares were issued credited as 16s. paid. The capital was increased to present amount in March, 1904, by creation of the preference shares, which were offered to shareholders at par; they are first entitled to a cumulative dividend of 10 per cent. per annum, and also participate in surplus profits in any year *pari passu* with ordinary after the latter have received 10 per cent. for such year. On winding up (except for reconstruction) they rank in priority for return of capital but take nothing further. The preference dividend is in arrear.

There is £45,138 (part of £50,000 authorised) ten per cent. debenture stock of which £30,000 was issued to shareholders in December, 1904, at 18s. per £1 stock, redeemable at par in 1912, or previously at 105 per cent. on three months' notice from company. In October, 1907, shareholders were invited to subscribe for an additional £8,000, but £4,795 only was taken up, and in April, 1908, shareholders were again invited to subscribe for £15,165 (the balance unissued) at 10 per cent. discount. The last issue is redeemable at par in 1916 or at 5 per cent. premium on three months notice; interest payable January 1st and July 1st.

The dividends paid by the old company up to December, 1883, varied from 1s. to 2s. 6d. per share per annum. Dividends paid since:—

1888 ... 1s. 0d.	1892 ... 3s. 9d.	1895 ... 2s. 6d.	1898 ... 7s. 0d.	12th Oct., 1899, 1s. 6d.

THIS company was registered November 16th, 1907, being a third reconstruction of a company of similar name registered in July, 1886, and first reconstructed in February, 1898, and secondly in March, 1902 (*see vol. for* 1907). The original company acquired mining rights extending over 8,400 acres of land in the Mysore Colar Goldfields of India, held on lease for a term of 30 years from 1886. In 1902 the company obtained a renewal of its leases for 30 years from March 22nd, 1910; terms of existing leases to remain unchanged, except that from March 22nd, 1910, an additional royalty of 2½ per cent. upon dividends distributed becomes payable. On the company's West Balaghât mine a 20-stamp mill and cyanide plant are erected, but work is suspended. Portions of the property have been sold from time to time. In 1902, the Neutral block of 260 acres adjoining the company's Concessionnaires block, on the Colar Gold Field, was purchased for £10,000 cash. A block of 341½ acres was sold to the Mysore Gold Mining Co., Ltd., in 1902, for £20,000 cash and 15,000 fully-paid shares, and in 1903 a block of 145 acres was sold to the Champion Reef Co. for £20,000 in cash and 10,000 fully-paid shares.

The area now held is 6,111 acres. An option has been granted to New Kempinkote Co., expiring July, 1911, over a block of 283 acres, forming a portion of the South block. The company also carries on a general exploration business; it was concerned in the issue of the Tasmania Gold Mining Co., Ltd., and took up 10,500 shares; also in the Sudan Gold Field, Ltd., and received 10,000 fully-paid shares therein and subscribed for 25,000. At December 31st, 1909, the following shares were held:—Fully paid: 3,450 Balaghât Gold, 1,312 Mysore Gold, 7,332 Champion Reef, 8,775 Tasmania Gold, 50,000 New Kempinkote, 23,618 Barramia

THIS company was registered on the 5th April, 1865, to acquire from Messrs. Henry Briggs, Son & Co., the Whitwood Collieries, situate near Normanton, Yorkshire. In November, 1896, the company purchased from Messrs. Rhodes and Dalby, the adjoining Snydale Collieries; in view of this outlay and of the large sum expended in the development of the property it was decided to increase the paid-up capital by a transfer from reserve fund, as below. In December, 1906, the Newmarket Haigh Moor Colliery at Rothwell, near Leeds, was acquired.

The authorised capital (originally £135,000) is £450,000, of which £384,900 is issued, divided into 14,255 A and 11,405 B shares of £15 each, and £327,875 is paid up, the A shares being fully paid and the B £10 paid. The only distinction between A and B shares is in the amount paid up. In 1899, when the A shares were £12 10s. paid and the B £8 10s. paid, a sum equal to £2 10s. per A and £1 10s. per B share was taken from reserve and added to paid-up capital, making it as above. Dividends paid since 1884:—

1884-5, nil.	1889-90, 13 per ct.	1894-5, 10 per ct.	1899-0, 20 per ct.	1904-5, 12½ per ct.
1885-6, 2½ per cent.	1890-1, 17½ ,,	1895-6, 6 ,,	1900-1, 30 ,,	1905-6, 12½ ,,
1886-7, 4 ,,	1891-2, 17½ ,,	1896-7, 7½ ,,	1901-2, 20 ,,	1906-7, 18½ ,,
1887-8, 5 ,,	1892-3, 12½ ,,	1897-8, 10 ,,	1902-3, 15 ,,	1907-8, 21 ,,
1888-9, 6 ,,	1893-4, 10 ,,	1898-9, 12½ ,,	1903-4, 18½ ,,	1908-9, 10 ,,
				1909-10, 10 ,,

An extraordinary dividend of 12½ per cent. was also declared on November 19th, 1895, payable in shares of the Goole Steam Shipping Co., Ltd. (£15 paid), at £18 per share, and in February, 1906, an extraordinary interim dividend of £1 2s. 6d. per A and 15s. per B share was paid, being surplus on liquidation of Goole Steam Shipping Co., Ltd.

The accounts for year ended June 30th, 1909, submitted in Leeds August 12th, 1909, showed a profit of £42,337, making with balance forward a sum of £83,918; dividends absorbed £32,787, provision for depreciation on investments £10,000, leaving £41,130 carried forward.

The accounts for year ended June 30th, 1910, submitted in Leeds August 16th, 1910, showed a profit of £42,724, making with balance forward a sum of £83,854; dividends absorbed £32,787, provision for developments £10,000, written off leases 5,000, leaving £36,066 carried forward. Reserve fund £140,640.

This company was registered July 29th, 1886, to acquire a concession granted January 7th, 1886, by the Nizam's Government, to Wm. Clarence Watson and John Stewart, relating to mining, commercial and other rights throughout the State of Hyderabad, Southern India. The Government agreed to grant leases for 99 years of properties selected by the company within its prospecting period. The consideration for the concession was £850,000, in fully-paid ordinary shares. The company is working the Singareni Collieries at Yellandu, 157 miles from Secunderabad, held under lease granted in 1893 and expiring 1985. It is anticipated the collieries will last for 65 years from 1910 on an output of 600,000 tons yearly.

In December, 1894, a lease was granted to the company for a period of 90 years from the 1st January, 1895, giving full mining rights for gold and all other minerals over an area of about 1,000 square miles, known as the Raichore Doab Goldfields. This property has been prospected and portions have been sold to the Wondalli (Deccan) Gold Mines, Ltd., and Hutti (Nizam's) Gold Mines, Ltd. The company has since surrendered various portions, leaving 156 square miles now retained, which the Deccan Gold Fields Development Co., Ltd., has been formed to develop.

The authorised capital is £672,000, divided into 224,000 ordinary shares of £3 each; all the shares have been issued and are fully paid. The capital was formerly £1,150,000, in 100,000 ordinary and 15,000 deferred shares of £10 each; in 1896 it was reduced to £1,120,000, when 3,000 deferred shares were cancelled, the remaining 12,000 converted into ordinary shares, and each £10 share subdivided into two shares of £5 each; in 1902, it was reduced to £672,000 by writing off £2 per share. There is £40,000 (part of £130,000 authorised) five per cent. debenture stock, issued in 1899.

Dividends paid: 1901, 3 per cent.; 1902, 4 per cent.; 1903, $2\frac{1}{2}$ per cent; 1904, $4\frac{1}{2}$ per cent.; 1905, 5 per cent.; 1906, 5 per cent.; 1907, 5 per cent.; 1908, 5 per cent.; 1909, $5\frac{5}{6}$ per cent., paid May 31st, 1910; 1910, $2\frac{1}{2}$ per cent. (interim) paid December 1st, 1910.

The accounts for year ended December 31st, 1908, submitted May 17th, 1909, showed coal sales £149,189, and a profit of £41,677, after writing off £10,000 depreciation, £2,000 to reserve, and £2,000 investment depreciation; dividend absorbed £33,600, leaving £8,077 carried forward. Reserve fund £17,820.

The accounts for year ended December 31st, 1909, submitted May 23rd, 1910, showed coal sales £158,046 and a profit of £52,275 after writing off £12,000 depreciation and transferring £2,000 to reserve; dividend absorbed £39,200, leaving £13,075 carried forward. Reserve fund £20,355.

Transfer form, common; fee, 2s. 6d. The shares are quoted in the Official List. Prices, 1907: highest, $2\frac{29}{32}$; lowest, $1\frac{29}{32}$. Latest price, $2\frac{3}{4}$, $2\frac{7}{8}$.

THIS company was registered April 1st, 1864, to acquire the Atlas Steel Spring and Iron Works at Sheffield and the Swinton Iron Works, at Swinton, Yorkshire; the company also acquired the Aldwarke Main, Car House, and Rotherham Main Collieries, Rotherham, and certain ironstone mines in Spain; the freehold of the Atlas Works was purchased in 1892 for £41,569. In 1899 the company purchased the undertaking of the Clydebank Engineering and Shipbuilding Co., Ltd., owning works, shipyard, deep-water dock, &c., covering in all about 78 acres (57 acres freehold and 21 acres perpetual feu) on the north bank of the Clyde, near Glasgow, with a river frontage of over 1,000 yards; the shipbuilding work and contracts then in hand included a battleship, cruisers, ocean liners, &c.; the purchase consideration was £923,255. Early in 1903 the company acquired seven-eighths of the ordinary shares of Thos. Firth & Sons, Ltd., steel manufacturers, Sheffield, for £240,000 in fully-paid preference shares and £90,000 in fully-paid ordinary shares. A half-share in the Coventry Ordnance Works of Cammell, Laird & Co., Ltd., was acquired in 1905. During 1907, a large interest in Messrs. Harland & Wolff, of Belfast, and a property containing ironstone deposits, together with two blast furnaces at Frodingham, Lincolnshire, were acquired, and in April, 1909, a controlling interest in the Dalton Main Collieries, Ltd.

The authorised capital is £4,000,000, in 175,000 preference shares of £10 each and 2,250,000 ordinary shares of £1 each; 139,550 preference shares (£1,395,000) and 2,113,000 ordinary shares have been issued, the preference and 953,000 ordinary being fully paid, and 1,160,000 ordinary having 15s. per share called up; the final call of 10s. on 150,000 ordinary, issued in July, 1907, at 12s. 6d. premium, was paid January 15th, 1908. In December, 1910, it was announced that owing to expansion of business 20,450 preference shares would be offered to shareholders at par, and it was also proposed to create second debentures.

The preference shares are entitled to a cumulative preferential dividend of 5 per cent. per annum, payable about June 30th and December 31st (for the previous half-years ending the 31st March and 30th September respectively), concurrently with the dividend on the ordinary shares, but have no voting rights.

The capital, originally £1,000,090, in £100 shares, was increased in 1871 by creation of 2,000 preference shares of £10, and in 1877 a further 25,000 were created; in 1890 each ordinary share was subdivided into five £20 shares, and 12,500 new £20 ordinary shares were created, making authorised capital £1,520,000; in 1894, 9,000 preference shares were issued to shareholders at a premium of 10s. per share; on June 22nd, 1899, in order to acquire the Clydebank concern, it was resolved to increase the capital to £2,500,000 by creating a further 48,000 preference shares of £10 and 500,000 new ordinary shares of £1, and the old £20 ordinary shares (58,000 being issued and having £15 paid) were subdivided into £1 shares, 15s. paid; in August, 1899, ordinary shareholders were offered the new ordinary shares at 30s. each

£33,330 in fully-paid preference shares, £56,661 in 6,666 ordinary shares credited as £8 10s. paid, and £135,009 in cash. The Eddlewood pits are nearly exhausted. During 1908 the Fairhill property of 60 acres was acquired for £8,000 and in 1909 a mineral lease of the Gilbertfield Estate with pits thereon.

The authorised capital is £300,000, in 30,000 ordinary shares of £10 each; all the shares are issued and £8 10s. paid. The capital was formerly £300,000, in 10,000 six per cent. preference and 20,000 ordinary shares of £10, and was increased to £350,000 in 1895, by creation of 5,000 five per cent. preference shares. A sum was put aside each year to pay off the six per cent. preference shares, and the repayment was completed in October, 1901. The capital was increased in December, 1900, by creating 10,000 new ordinary shares which were issued to ordinary shareholders as a bonus, with £8 10s. per share paid up, £85,000 being taken from ordinary reserve for that purpose. In May, 1903, the reserve fund having amounted to £25,000, it was resolved to reduce the capital from £350,000 to £325,000 by a return of £5 per share to preference shareholders, making the shares £5 each. In May, 1904, it was resolved that the capital be reduced to present amount, the preference shares being entirely redeemed and cancelled.

THIS company was registered February 22nd, 1905, to acquire the undertaking of the Consolidated Kent Collieries Corporation, Ltd., which was registered July 13th, 1899 (*see vol. for* 1905), to take over the undertakings of the following companies:—Kent Collieries Corporation, Ltd. (registered October 14th, 1897, reconstruction of Kent Coalfields Synd., Ltd.), Kent Coal Exploration Co., Ltd. (registered April 29th, 1897), Kent Coal Finance and Development Co., Ltd. (registered June 3rd, 1897), and Mid-Kent Coal Synd., Ltd. (registered March 24th, 1897).

Properties:—The mining rights comprise about 649 acres freehold surface and minerals, and 13,201 acres mineral rights and options, total 13,850 acres, near Dover. Sinking commenced 1902 and the No. 2 shaft reached the first workable seam of coal at 1,273 feet depth in February, 1905; this shaft has been further sunk to 1,632ft. No. 1 is down 510ft. and No. 3 is down 674ft.

A Sales Agency is to be established, which is to make advances from time to time, if required, by the company up to £15,000 as additional working capital, against coal sales. The remuneration of such Agency to be 6d. per ton on the sales from the present pits at Dover, with the right to the company to terminate the Agency if desired, after the average production for 10 years shall have amounted to 500 tons per working day. Sales to be made under the company's direction but at the expense of the agency.

The authorised capital is £563,500, in 300,000 preference shares of £1 each and 1,054,000 ordinary shares of 5s. each; 140,000 preference and 1,053,749 ordinary shares are issued, the preference having 10s. per share paid and the ordinary being fully paid, including 150,000 credited as fully paid. The capital was increased from £400,000 in September, 1908. There are £84,440 five per cent. debentures (redeemable February 1st, 1919), which were issued in place of outstanding debentures of the former company. The debentures were formerly six per cent. but in December, 1906, the period for redemption was extended from 1907 to 1912 and the interest increased to eight per cent. On the provision of further working capital in May, 1910, the Debenture Holders agreed to the extension of the date for the redemption of their debentures from 1912 to 1919, and to reduce their interest from 8 to 5 per cent. per annum, and to accept payment of arrears of interest from August 2nd, 1908 and for the next three years to accept the reduced interest in warrants redeemable out of first profits. The holders of £79,000 debentures agreed that on repayment of (*a*) £13,500, (*b*)

KENT COLLIERIES—continued.

arrears of interest to the 30th June, 1910, thereon, and on the £20,000 next referred to, and (*c*) on payment by three equal annual instalments, the first of such payments to be made on December 31st, 1912, of a further £20,000 owing to them as holders of part of such debentures, (*a*) to accept their further interest until the 28th February 1910, calculated only on the said £20,000, in warrants payable by the Company in cash, either out of its profits, or on the 28th February, 1913, whichever shall be first and (*b*) release and return to the company the £79,000 debentures, thus reducing the company's outstanding debenture obligation to that of a 5 per cent. debenture issue of £64,440.

The 150,000 fully-paid ordinary shares were allotted to the old company as purchase consideration; old shareholders had the right to apply for one new share at par for each old preference share held and one for every four old ordinary held, ordinary holders having also the right to apply for any shares not taken up under such rights. In April, 1905, 1,200,000 shares ordinary were offered for subscription at par, 550,000 being underwritten by the Share Guarantee Trust, Ltd., for a commission of 10 per cent. The preference shares were created September, 1908, by consolidating 546,000 unissued ordinary shares into shares of £1 each and creating 163,500 new shares, and are entitled to a preferential cumulative dividend of 10 per cent. and four-fifths of remaining profits, and on winding up to four-fifths of surplus assets; each preference share also has eight votes. In November, 1908, all the preference shares were offered for public subscription, but owing to insufficient applications money was returned. Arrangements having been made with debenture-holders in June, 1910, all the preference shares were again offered to the shareholders for subscription at par, the subscription of 140,000 was guaranteed by the Share Guarantee Trust, Ltd., for a commission of 5 per cent. and an option at par to December 31st, 1914, over any shares not taken up. A commission of 5 per cent. is also payable on any shares over 140,000 allotted to December 31st, 1914.

The accounts for fourteen months to October 31st, 1910, submitted December 30th, 1910, showed works expenditure £101,994 and general expenditure (less £1,136 receipts) £21,847; cash £4,332, debtors £25,742, debenture interest £30,836; creditors £12,547, accrued debenture interest £10,581, advance from bankers on security £10,000.

Transfer form, common; fee, 2s. 6d. The 22nd November, 1905, was appointed settling day in shares Nos. 1 to 7, 150,008 to 1,028,362 and 1,030,001 to 1,041,219, January 23rd, 1907, in shares Nos. 8 to 150,007, and August 14th, 1907, in shares Nos. 1,028,363 to 1,030,000 and 1,042,220 to 1,060,581.

KYSHTIM CORPORATION—continued.

THIS company was registered October 29th, 1908, to acquire, as from June 30th, 1908, the entire share capital consisting of 34,440 shares of 200 roubles each (equal to £725,050) of the Kyshtim Mining Works, a company registered in Russia in 1900, and owning estates covering an area of 2,198 square miles, situate in the Government of Perm, southern district of the Ural Mountains, Russia. The property comprises 1,406,700 acres, of which the iron mines, smelting works and gold and copper deposits cover 189,000 acres, arable and grazing land 367,200 acres, and timber and forest land 850,500 acres. The consideration was £924,000, payable £174,000 in cash and £750,000 in fully-paid shares, of which £94,000 cash and £216,169 in shares was payable to the Kyshtim Mining Works, £80,000 in cash in discharge of obligations in connection with advances by the vendor company, £4,000 in shares to the Anglo-Siberian Co. and 529,831 shares to the vendor company (200,000 vendors' shares are deposited with the trustees for debenture-holders to provide for conversion of debentures). The company was promoted by the vendors, the Perm Corporation, Ltd., and the property taken over, subject to a first mortgage for £600,000 and a second mortgage (held by the vendors') for £268,590 (the second mortgage was taken over by the company and was included in the purchase). The mining property was reported on by H. H. Knox, the smelting works by Prof. Assajeff, and the timber by A. E. Obonkoff. The principal mines are the Koniukhoff, Smirnoff, Tissoff, and Karabash; the ore reserves on the Koniukhoff mine at January 1st, 1910, were estimated at 825,000 tons, value 3·3 per cent. copper, and on the Smirnoff mine 400,000 tons. New smelting works capable of producing an output of about 5,000 tons copper per annum have been erected. A railway 28 miles in length has been constructed connecting the Trans-Siberian main line at Kyshtim with the copper mines at Soymonovsk.

The authorised capital is £1,000,000, in 1,000,000 shares of £1 each; all the shares are issued and fully paid, including 750,000 vendors'. In November, 1908, 250,000 shares and £250,000 six per cent. debentures in bonds of £100 each were offered for public subscription. The whole of the issue was underwritten for a commission in the case of shares of 5 per cent. and in the case of debentures of 4 per cent., together with an overriding commission of 6d. per share and 1 per cent. on debentures. During 1909 a further £25,000 debentures were issued at par, and in 1910 a further £25,000 were issued at par. During 1910 it was decided to create a further £100,000 debentures, ranking *pari passu* (except as to right to exchange into fully-paid shares), and £50,000 were subscribed at par, making a total issued of £350,000. The interest on debentures is payable half-yearly on May 1st and November 1st. Holders of the first issue of £300,000 debentures have the right until November 1st, 1911, to exchange debentures into fully-paid shares at the price of £1 10s. per share. The debentures are redeemable on or before May 1st, 1927, by means of a redemption fund to be created by applying £17,500 in each year, commencing on or before May 1st, 1912, in redeeming debentures by drawings at £105 or by purchase in the open market below that price, the company retaining the right, on giving three months' notice, to redeem all or any of the debentures at 105 per cent.

The accounts to December 31st, 1909, submitted June 9th, 1910, showed a profit of £22,086, which was written off formation expenses; cash £25,197, advances against bullion £5,750, debtors £391, due from Kyshtim Mining Works Co. £576,747; creditors £2,227, debenture interest accrued £2,590. The accounts of the working company to December 31st, 1909, showed a net profit of £30,524.

Transfer form, common; fee, 2s. 6d. The 19th May, 1909, was appointed settling day in shares Nos. 1 to 250,000, and December 28th, 1909, in Nos. 250,001 to 1,000,000. The debentures are quoted in the Official List. Latest price, shares, $1\frac{7}{32}$, $1\frac{3}{32}$; debs., 105, 107.
